WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM -- PRODUCT OF GENERAL MOTORS

Prices shown in this chart are f. o. b. Plint, Mich

Almost \$700 less for a Buick Four-Door Sedan in 1932 than in 1922! And quality, meanwhile, so vitally advanced that there is literally no comparison between the two models! For the new Buick Four-Door Sedan for 1932, listing at \$995, is a Straight Eight with Wizard Control and scores of important advancements. Here is a record of value-giving that the motor industry, represented by Buick, actually achieved. And here is how the motoring public has

rewarded Buick for the achievement: Today, as a result of Buick's policy of giving greater value year after year, America is awarding Buick more than three-to-one preference over all other eights in its price class. The reasons will be instantly apparent to you when you note the value-leadership of the new Buick Eight for 1932 with Wizard Control. Twenty-six models, priced from \$935 to \$2055, f. o. b.
