Mike Tells What Is What and Why
Lavonia, Ga., Jan. 19, 1932.
Dear Mike Clark, rfd.
in care of Mr. GEE MCGEE,
Anderson, S. C.

Dear Mike:
Please rite or foam us something about the character and repper tation of your friends and nabors who live in flat rock. I read yore "flat rock news" and I enjoy same I will be on the look out for a discriptive wagger telling ever thing about the flat rock-ies.

Yores trulle,
emma tator, rfd.
Dear miss emma:
thank you for yore nice letter. take great pleasure in interducing you to the popper lation of my litde town as to their characters ar-soroth.

only about 6 of our citizens will not pay his honest debts, but their rubble seems to be too much for rather than too little honor.

right at present, there is less than 10 that will steal chickens or coal or wood or anything like that but we have 2 habitual booze fighters.

as far as I can learn from my wife, less than 39 of our fair wim-men ever gossip or think of gossiping, the other 6 is tongue-tied or deaf and dumb.

I believe that 2 out of every 4 citizens pay their doctors and their preachers if they have anny money left after they buy everything they want and need.

I am glad to say that we still have 3 families that have never bought anything on the instalment plan, the houses went credtick them, as they seem to be too ruff on furniture and radics and grafterfoams.

less than 75 percent of our church members cuss or work on the sab-bath day, and I can't re-collect but 3 flappers who stays out in rumble seats ill after mid-night, we have 2 mammas that do the same thing.

The Clarks is the leading famblin in everything and nearly all of the harriy work is done by them, as they put on most of the drives the Clarks own his own home and will soon be rid of the billing and loan.

It takes nearly 8 months for our folks to bust a grocery stoar who sells his stuff on credtick, moat in generaly, when he gets all of our names on his books he has to close.

If I can think of anny other good things to say about my friends and nabors I will rite or foam it in for this column.
Yores trulle,
mike Clark, rfd.

Ravings of a Voter

The Republican party is bounded in the north by breadlines, on the east by mergers, on the south by poverty and on the west by bankruptcy. It is lovingly called the "G. O. P."—which means—"Great On Promising."

The Republican Party, like all Ball, is divided into 3 parts, viz: he Hoover left wing, the Wet right wing and the Corrupt middle, and s surrounded by the Democrats, smashed with Wall street, and governed by Big Business.

The said party is afflicted with a Farm Board bunion, a Muscle shoals cow-bunke, a World Court growling nall, a Moratorium cancer, a Young-Dawes-plan kidney stone, a Reparations high-blood pressure, and a Tariff complex.

The big men of this G. O. P. organization are little "men" with a pygglass. The little men know arvell which way to turn as do the big men—and both types are unable to advise each other. They are blindfolded and are running around in a circle.

The policy of the Republican party is to borrow and build, borrow and pay back, borrow and move forward, borrow and loan, borrow and tear down, borrow and employ, borrow and feed, borrow and raise taxes, raise taxes and borrow borrow and expand—all of which adds to the same end—trouble.

The Republican party is like unto a baby with an all-day sucker; it keeps on sucking the stick after the sweetness is gone, it is ashamed to cut expenses—as the World might think it is going backwards, it squanders money on useless projects—"with millions for defense out not one cent to save our banks and our country."

It—meaning the said party—dictates to the Federal Reserve bank—which was created to save the country in a crisis—but it has saved only itself and a few of its friends—and the majority of the citizenship is poverty stricken, mil-

lions are without jobs—and the balance of us folks are sitting idly aside—watching our lifetime accumulations dwindle away. And the end is not yet. And it all dwindle down to the question: Why Is Politics?

Why Worry?

(By A. G. Melton.)
Why worry over things that be? Can man prevent a storm at sea? Why worry this short life away And at its end receive no pay?

Would you, my friend, grow old and gray
Then worry much throughout your day?
Would you, my friend, stay young and spry?
Do not brood over a cloudy sky.

Would you stay well and never ill?
Then gaze upon lifes sunlit hill?
Would you live on and never die?
Trust Jesus Christ without a sigh!

Street Car Jaunts Not Honeymoon Trips

Chicago.—Mrs. Tillie Herget says she has taken 49,920 miles of vacation on a street car line and she's tired of it.

Her husband, Conrad, is a street car conductor on one of the longest lines in the world.
She married him in 1906. On his day off, each week, she complained, the only recreation he gave her was when he took her for a ride on the street car line.

She asked for a divorce.
Besides which she complained that he took the children with him on his street car rides.
