Driver Asleep Hits Trees Off Roadside

Rutherfordton, Mar. 3.—Being asleep and driving a new sedan came near costing Joe Watson, of Forest City his life last night on the Chimney Rock road about five miles west of here.

Watson and the other occupants of the car had a close call and were only slightly injured while the car was completely demolished. It cut down a pine tree some five or six inches in diameter, the tree falling back on top of the car. The car was jammed between two trees and the front wheel was torn off. The occupants had their wound dressed at the Rutherford hospital and went on their way.

Methodists Drop Hymns Of "Blood"

Commission Secretary Says Such Imagery "Revolutionary" To Young People.

New York.—Certain hymns containing the "imagery of blood" are likely to be dropped from the Hymnal of the Methodist Episcopal church and the Methodist Episcopal church, South.

The Rev. Dr. John W. Langdale, secretary of the commission on the revision of the Hymnal and Psalter of the two churches, told a gathering of ministers such imagery had become "revolutionary" to young people.

One hymn suggested for elimination is "The Gospel," written in the eighteenth century by Isaac Watts and containing the stanza: "To the blest fountain of Thy blood 'Incaruate God, I fly: Here let me wash my spotted soul 'From crimes of deepest dye.'"

Although final action has not been taken on any hymns, 44 out of 121 hymns in the present book, written by the prolific Charles Wesley are tentatively listed for elimination, and six out of 19 hymns in the book written by John Wesley, father of Methodism, have been set aside for probable omission. These are some of the hymns considered antiquated or too infrequently used.

Make Every Cent Count

This is not the time to use unbalanced Fertilizers. Every cent of your Fertilizer Dollar must give you the largest possible return, especially in a year like this. A complete, well-balanced Fertilizer is always the best.

Meal and Acid is not a well-balanced Fertilizer. Your crops need Nitrogen, Phosphoric Acid and Potash—all three. Each helps the others.

See that each ton of your cotton Fertilizer contains 300 pounds of Muriate of Potash, or its equivalent in high grade Kainit. Sweet potatoes—600 pounds. Corn—200 Pounds.
