As Flames Razed Famous Church

Proving that the fire demon is no respecter of sentiment, religious or otherwise, this spectacular blaze razed the beautiful church of St. Mary Magdalene, of Pittsburgh, Pa. Six firemen were overcome by smoke and five others were hurt by falling debris in their attempts to subdue the flames. The blaze toppled the huge 175-foot twin steeples—one of which is shown flaming at left—throwing thousands of spectators into a near panic. Damage is estimated at \$500,000.

Nobody's Business

Social happenings from Flat rock
yore cory spondent, Mr. Mike Clark, rfd. and his wife has just hatched off a nice setting of chickens and this is the first to come off in our midst, he set 13 eggs under her and she fetched 10 biddies, but she was one of the spreading types of the dinner necker variety, we will be ready for the preachers in may of this year.

Mr. John Smith that lives south of town thought he had struck an oil well last saddy morning and he run all the way to the county seat to spread the news and get a man from the standard oil yard to come down and buy same, but when they got back, they found that little willie had emptied a bucketful of oil (which he decreed from his ford the night befor) into the well, he was badly whipped.

Miss Jennie yeeve smith, our principle, ketches a very bad cold in her head while setting out in the yard with her filler the other night in his open ford, he is a fruit tree peddler and had up enuff curtains to keep from being saw, but it let the wind in on her, her sister, sally yeeve, had to teach all of the grades for 2 days she will be advised by the board to weep something on her head or stop setting out in the weather.

The recent freeze done a right smart of damage in our community, as it ketches most of us unprepared, it killed several vegger tables and busted 9 radiators to my certain knowledge, milk roze while being milked from the cow and it turned to icicles that looked like knitting needles and my wife brought an armful of it into the house and broke it up and melted it, the town pump would not function for 3 days on our count of the ice.

The mission nerry society met with Mrs. rampage on tuesday from 5 to 7 and nearly all of our husbands had to cook their own supper, Mr. skiner claims that his wife is paying more attention to the heathens in chiner and japan than she is to her own at home, she is the secker terry in treasure and collects all of the dews and she lost the fruit jar she keeps it in and looks like he is going to hatter make it good if they push her about it being missing, it was nearly 2\$ when last heard from.

Well, Mr. editor, I will close for this time, we have had no serious accidents in this section since last week except 4 cupples got married and 2 other have parted onner count of 2 other married women, all the cold snap was fine for killing hogs and many of same succumbed to the axe, it looked once that they would be carried over alive, but it finely turned cold so's we could kill him, rite or foam.

yoers trulle,
Mike Clark, rfd.

Get in Line, Folks.
We keep hearing about the prospect of the "dole" being installed in the United States. That's a ridiculous thought of course. Some part of our country might need it, but down here in South-Carolina, where we have always been fairly poor and good livers, we want to say how we

wish our "dole" doled out to us, if we must submit to it at all.

- Instead of giving us a piece of meat and a hunk of bread, we think the following items should be substituted:
10 gallon gas.
1 quart of oil.
5 pounds of flour.
10 picture-show ticket.
25 prize-fight tickets.
2 pounds of beef.
25 bottles of coca cola.
1 inner tube.
10 boxes cigaretttes.
12 boxes snuff.
2 boxes Browns Mule.

When a man or a woman gets to the stage where they will have to do without any of the afore-mentioned necessities, then somebody's going to get hurt. I have not heard of a single man or woman, or a married man or woman, as for that matter, in this community, that has chawed 2 chaws less, puffed 3 puffs less, or missed a single picture show that they wanted to see, for the past 12 months.

There's plenty money for everything in the world except meat and bread and paying debts. About two-thirds of our charity could be dispensed with if our state and federal government would reduce the tax demands on our manufacturing enterprises so's they could use that money to put folks back to work with. Instead of the government putting out a dole, let them give that money to industry and the workers could work for their dole, and that's what they want to do.

We are in a mess, it's true, but if we can stand it till we wear it out it's going to be good for us. This thing had to happen. Our politicians were wonderful just so long as they could borrow and spend, but they have struck a snag. Individuals were likewise keen gulls till they over-instalmented themselves, and they simply cut their own incomes off by over-doing the matter. Prediction No. 88,654,432: Prosperity will sneak partly from around the corner in about 10 months. Times are O. K. now, but the folks ain't.
