

### Gardner Breaks With Fountain In State Race

#### Candidate Attacks Present Governor

Governor Says Attack Similar To Course Pursued All Along

Those on the inside of political events have known for months that all has not been in harmony between the governor and lieutenant governor. In the last legislature when Governor Gardner was pushing his road and school measures, which have resulted in considerable tax reduction—the greatest ever brought about by one session of legislature—he was often opposed by Fountain, presiding officer of the senate. In his campaign for the Democratic nomination Fountain has repeatedly attacked some of the work of the last legislature, particularly Gardner measures. The new road system, which has not with general approval among taxpayers, has been criticized often. This, of course, brought Fountain some support from many officials and workers who lost their jobs under the old system in the general reduction of expense. The roads as a whole, however, are now being maintained in better condition and this together with the state bearing the expense instead of many road districts in the counties has, it is believed, boomeranged against Fountain.

### How To Care For Varicose Veins

Apply a generous amount of Emerald Oil to the swollen veins and sores. Let it penetrate. Feel the magic relief! Now bind your leg with a bandage three inches wide and long enough to give the necessary support, winding it upward from the ankle to the knee, the way the blood flows in the veins. Stops the pain. Begin at once to heal the ulcers and broken veins. Just follow the simple directions, and you are sure to be helped. Cleveland Drug Co. won't keep your money unless you are.

### Mothers! Avoid Colitis

Dysentery with children need not be at all dangerous if treated upon first symptoms. Mothers for more than a generation have put an end to stomach and bowel disturbances of their children by keeping handy a bottle of Ante-Fermen, formerly called Anti-Ferment. It settles the stomach, soothes the pains, prevents violent paroxysms, tends to regulate the bowels and in the end may avoid colitis and more serious troubles. It is harmless and non-narcotic but a relief for Dysentery, and Diarrhea and digestive disorders due to upset stomach and bowels. An old standby under a slightly changed name. It may be obtained in separate formulae, for adults 75c or for children 50c at all drug stores. Keep it ready for emergencies.

the gubernatorial race and that the contest will finally narrow down to a fight between Ehringhaus and A. J. Maxwell.

Have Differed.

Those on the inside of political events have known for months that all has not been in harmony between the governor and lieutenant governor. In the last legislature when Governor Gardner was pushing his road and school measures, which have resulted in considerable tax reduction—the greatest ever brought about by one session of legislature—he was often opposed by Fountain, presiding officer of the senate. In his campaign for the Democratic nomination Fountain has repeatedly attacked some of the work of the last legislature, particularly Gardner measures. The new road system, which has not with general approval among taxpayers, has been criticized often. This, of course, brought Fountain some support from many officials and workers who lost their jobs under the old system in the general reduction of expense. The roads as a whole, however, are now being maintained in better condition and this together with the state bearing the expense instead of many road districts in the counties has, it is believed, boomeranged against Fountain.

In Raleigh this week Fountain carried his criticism into the open, saying that the governor had sponsored some worthwhile measures and backed others of no worth. The attack brought another barrage of questions as to who and in what manner Fountain, if nominated, could uphold the record of his party in the general election when he is criticizing it now.

Little To Say

Governor Gardner questioned in Raleigh last night about the attack had little to say. He said "I am more interested in preserving the credit of North Carolina than I am in the revolving political opinions of Mr. Fountain." Continuing he said: "I am not surprised as this has been Mr. Fountain's course since as lieutenant governor he has become a part of the Democratic administration."

Several Raleigh political correspondents this week wrote their papers the prediction that Ehringhaus would lead in the first primary with Maxwell running second and that the run-off primary between the two would result in a close vote.

Mike Ains His Bonus Views

Flat rock, s. C., May 11, 1932

the treasure department, Washington, D. C.

dear sir,

please entry my protest against you for fighting the bonus. I am in favor of paying the same, it don't come out of your pocket, so let the boys alone, you seem willing to pay the farm bored 500,000,000 without kicking: the war our boys fought was worse than cheap cotton and wheat.

mebbe you don't know that 2 of my boys practically won the war, do you? they went over on a cattle boat and each one of them sunk a german sub which was tryin to slip up behind them he was feeding the cows and noticed it and he sneaked up on top of the deck and let off a big gun and down she went, he did not even let the captain know this as he was so mod-dist.

my other boy stayed in the trenches in spain for 3 months solid and then he was transferred to belgium where he got in them again and fought germans and romanians hand to hand and fist to fist in 19 different battles. He also killed some bull-garlans with a hand bumb. all if this was done while you all were over here getting rich ansorforth, bill was in the air mail division in europe

why sure pay the bonus uncler sam owes it to them and the longer he keep it back the bigger the trust will amount to jud also got gassed in his lungs and now he has to sleep with his shist out from under the cover so's he can breathe send it in care of me and i will distribute it out to them as they still live with me and owe me bored and bed.

the big trouble with you boys up there in washington, d. c. is you have 2 or 3 felleers working on the same job and don't go to work till nearly dinner and quit as soon as possible, and youe wadges will not be cut, and you are livving on the fat of the land and can't see the needs of us poor exserville men who done your fighting for you while you spekerlated rite or foam when to look for jud's and bill's check.

There is a man up in Cleveland, Ohio, who works for the government, and he has come out with a statement that the wages and salaries of government employees should be reduced. Why, who ever heard of such a thing?

UGHTO-SUGGESTIONS

There are hundreds of thousands of highly educated (college) men out of employment at this time. Some institutions are still teaching Business—as if there was any business. We suggest that all state-owned colleges put in the following courses at once:

1. How to live on 10 cents a week.
2. How to get a berth on the government gravy trains.
3. How to hitch-hike
4. How to solicit alms, (meat and bread).
5. How to find a job.
6. How to rid the country of political leeches and grafters.

### Man Lost 26 Pounds Looks 100% Better

Feels Stronger Than Ever

Just to prove to any doubtful man or woman that Kruschen Salts is the SAFE way to reduce—let us take the letter of Mr. F. J. Fritz of Cincinnati, Ohio, recently received.

He writes: "I've tried extreme dieting, setting up exercises with very little results—but the results from Kruschen are almost incredible. In 3 months I reduced from 205 to 179 pounds and feel stronger than ever—no more wheezing or gasping for breath—friends say I look 100% better."

Bear in mind, you fat man, that there is danger in too much fat—try the safe way to reduce—one-half teaspoonful of Kruschen Salts in a glass of hot water every morning—cut down on fatty meats and sweets—one bottle that lasts 4 weeks costs but a trifle—get it at the Cleveland Drug Co., or any drugstore in the world. advt.

### Side Dress

Don't let the weevils take your crop

It wasn't much use to plant cotton if the boll weevils are going to get most of it. All reports indicate that the weevils mean business this year. The warm winter, the late damp spring, the possibility of a wet summer, all point to a very heavy infestation.

A late crop won't stand much chance. If you can get your crop ahead of the weevils, you will be reasonably safe.

If there is one thing that will pick your cotton up and push it right past the weevils, it is Chilean Nitrate. Nothing takes its place for side-dressing cotton. While 200 pounds would be better, put on 100 pounds per acre right after chopping. That may prove enough. If not you can come along with 50 to 100 pounds more later in the summer.

Be sure you get Chilean. Specify Chilean to your dealer. He has it or can get it immediately. See him now!
