

Thomas New Head Rotary Of Section

Asheville.—Rotarians of the 58th district brought their district conference to a close Friday after selecting Roy Z. Thomas, of Rose Hill, S. C., to succeed H. Brent Shaeffer, of Hickory, as district governor. Thomas was chosen unanimously as the district's choice for governor. The district conference is allowed to nominate a governor, the actual election being left to the international convention. Nomination, however, is taken

mount to election and Thomas will be elected to the governorship when the international convention meets in Seattle, Wash., next June. Discussions of plans for the international convention occupied most of the final business session. George Ivey, of Charlotte, told of entertainment plans and David Clark, of Charlotte, discussed business to come before the conference. District Governor Schaeffer urged all clubs to send representatives to the convention and suggested that individual clubs contribute to the expenses of delegates.

Bulwinkle And Stevenson Prove Unusual Officials

Polk County News.
With the recent news dispatches still fresh in the minds of most newspaper readers concerning the "family payroll" practice of many senators and congressmen and the failure of both branches of our lawmakers to show any real indications of being able to grasp the seriousness of the problems facing this country, it is indeed surprising to read that a member of congress has requested that the amount of an appropriation for a federal project in his district be cut by more than one hundred thousand dollars. This actually happened a few days ago and the incident was deservedly given prominent mention in newspapers throughout the length and breadth of the United States.

Congressman Stevenson of South Carolina, asked the authorities to reduce the amount appropriated each year for the maintenance of the Kings Mountain battleground from \$250,000 to \$150,000, saying that this amount was ample for the purpose. Congressman Bulwinkle of North Carolina also favored the reduction and joined the South Carolina congressman in requesting the appropriation cut. One might well class these two gentlemen as "freaks" as present-day congressmen go. One also wonders how many millions of dollars of taxpayers' money could be saved each year if other congressmen and public officials would conscientiously look about for ways of cutting down expenditures instead of using every means within their power to glut the public coffers of the last thin dime.

Mrs. B. T. Smith spent last week in Kings Mountain as the guest of Mrs. Claude Rhyne.

Miss Edith Reid Ramseur, of Queens-Chicora college spent the week-end at home with her mother, Mrs. Walter Ramseur.

Negroes May Vote In Texas Contest

Supreme Court Throws Out Law In That State Barring Them.

Washington, May 2.—By a one-vote margin the supreme court today threw out as invalid the Texas law under which the Democratic state executive committee barred negroes from Democratic primaries. The majority of the five-to-four alignment held that the law had constituted the state executive committee of all political parties its agents and that the act of the Democratic group was therefore the act of the state, invalid under the Fourteenth Amendment to the federal constitution.

"The pity of the matter is simply this," Justice Cardozo stated in delivering the opinion "that when those agencies are invested with an authority independent of the will of the association in whose name they undertake to speak, they become to that extent the organs of the state itself, the repositories of official power. They are then the government instruments whereby parties are organized and regulated."

Previously—March 1927, the court set aside a Texas law which barred negroes from voting in state Democratic primaries.

That case and the case today was brought to the supreme court by L. A. Nixon, of El Paso, Texas, a negro, who sued the Democratic judges of election for damages caused by their refusal to permit him to vote.

POWELL ATTACKS RECORD OF HENRY B. EDWARDS

Since Mr. Edwards has seen fit to publish an advertisement in The Cleveland Star stating that he was the man who brought economy in government and that as a member of the last legislature, he attempted to represent the interest of all the people in this county, I have gone to the trouble to look up some of his records as published in the House Journal for 1931, which record in part is as follows:

House Journal, 1931 Session: On page 154 Edwards is recorded as having voted for house bill 262, which was an act providing for the call of a convention to write a new state constitution without submitting the new constitution to the people of the state for ratification. This act passed the House, but was killed in the Senate. Even the Yankees permitted our Fathers to vote on the Carpet Bag Constitution of 1868. Yet Mr. Edwards, who was representing our interest, would have denied us that right.

Page 86 of House Journal for 1931. Mr. Edwards is recorded as voting AGAINST the McLean School Law, under which law, the state has taken over six months school term, the passage of which act brought a tax reduction of approximately thirty cents on one hundred dollar valuation. On page 929 of House Journal for 1931 Mr. Edwards is recorded as being against Senate Bill 657, which bill had already passed the senate and provided for a revaluation of real estate. He was a member of the committee that passed on this bill, and he recommended to the House that it be killed.

Page 645 House Journal for 1931. Mr. Edwards is recorded as voting for House Bill 1186, which bill, if passed, would have deprived the people of the right to elect their state officers and provided for their appointment by the Governor, this would have been known as the Short Ballot.

On page 900 of the Journal Mr. Edwards is recorded as voting for House Bill 102 on its second reading and is recorded on page 904 as having voted for said bill on its third reading, which bill contains a provision for a SALES TAX of one-tenth of one per cent on the gross receipts of all the merchants of North Carolina.

As the primary is drawing near, I feel like the voters of Cleveland County are entitled to know the record of our last Representative, as I find it registered in the House Journal for the session of 1931.
