Alfred Lord Tennyson. 17. Thomas Jonathan Jackson. 18. Thibet. 19. Slam. 20. Notre Dame.

Champion Reunion At Old Ferry Place

Descendants of Geo. And Elizabeth Champion Gather At Old Ferry Landing.

(Special To The Star.) A few of the descendants of George and Elizabeth Boetic Champion met at the old Champion home near Boiling Springs. Mr. Champion was one of the well-to-do farmers of his day. He lived before the war and owned a large farm, a store and also a ferry at the mouth of Sandy Run creek. One could hear the boats come singing up the river from Columbia to trade with Mr. Champion. This ferry was later owned by a Mr. Nicholson, and then by a Mr. Buttlemire. The place is now owned by the Haynes company. The house which had been built so long burned some years ago.

Those present were: Mr. and Mrs. James Love and Mr. Harold Hamrick of Shelby, Mr. and Mrs. Spencer Wall of Gaffney, S. C., Mr. and Mrs. J. B. Hamrick, of Boiling Springs, and Mr. and Mrs. Everett Bridges and children, Rebecca Lo's and Norman of Mooresboro. There were grandchildren, great grandchildren and great, great grandchildren.

The greater part of the morning was spent fishing, but providence seemed to be against the party as they did not catch many fish. After this was over delicious coffee was made by Mrs. Hamrick. Then dinner was spread under the beautiful spruce pines near the home place.

The afternoon was spent strolling over the hills of their childhood. It seemed to them as if they were living near their childhood again. Mr. Wall who was not a relative, but who was one of the party, and lived near here in his childhood and was also glad to get back once more.

Radio Census In N. Carolina Is Given

Washington.—There were 72,050 radios owned by families in North Carolina April 1, 1930, the Census Bureau reports.

Out of the 180,440 urban families, \$1,336, or 22.9 per cent, reported a radio. Of the 298,922 rural-farm families, 9,217 had radios, 3.1 per cent of the total. Of the 164,687 rural non-farming families, 21,516, or 13.1 per cent, had sets.

The whole number of farm families was 209,281 and 9,297 reported having radios.

Mothers! Avoid Colitis

Dysentery with children need not be at all dangerous if treated upon first symptoms. Mothers for more than a generation have put an end to stomach and bowel disturbances of their children by keeping handy a bottle of Ante-Fermen, formerly called Anti-Ferment. It settles the stomach, soothes the pains, prevents violent paroxysms, tends to regulate the bowels and in the end may avoid Colitis and more serious troubles. It is harmless and non-narcotic but a relief for Dysentery, and Diarrhea and digestive disorders due to upset stomach and bowels. An old standby under a slightly changed name. It may be obtained in separate formulae, for adults 75c or for children 60c at all drug stores. Keep it ready for emergencies.

Mrs. J. M. Irvin and Family.

Warning! Freeman's Shoe Shop, located under Pendleton's Music store, is Not Connected in any way with the newly named and solicitous Freeman's Shoe shop in Eastside.

ODELL FREEMAN

MELLOWED THE RIGHT MOTOR OIL... may be either Mid-continent or Pennsylvania... but it's sure to be Sinclair. WHETHER you should use a Mid-continent or a pure Pennsylvania grade motor oil is a matter for your engine to decide. The important thing is to get the finest oil in these classes that money will buy. Sinclair Opaline Motor Oil is a scientific blend of the oldest Mid-continent crudes mellowed and filtered for an average of 80 million years. Included in this blend is the famous Cambro-Ordovician crude taken from a mile and a quarter below the surface in Oklahoma. Sinclair Pennsylvania Motor Oil could not be better, for it is made 100% from the costliest Pennsylvania grade crude oil—the famous Bradford-Allegany crude which was formed in the Devonian Age more than a hundred million years ago. Mellowed and filtered in its earthy bed for successive ages—ages which saw the rise and fall of life in strange forms—Bradford-Allegany crude has no superior among Pennsylvania crudes for sheer lubricating quality. Sinclair not only de-waxes Sinclair Pennsylvania and Sinclair Opaline in the refining process—it goes one step further and takes out the non-lubricating petroleum jelly by chilling the oil down to as low as 60° F. below zero. Note how Sinclair Pennsylvania or Sinclair Opaline stands up in the heat of hard, fast driving. Note especially at draining time how little oil has been used up—positive, visible proof of protection for the last mile as well as the first!
