Warming Up For State's Biggest Meet.  
Shelby's widely-known young golf team, the Webb brothers, are off today for Raleigh where they will play in the opening pro-amateur match of the annual Carolinas amateur tournament.

After the pro-amateur match in which Pete will play as a pro and Fred as an amateur, the latter will make a bid for the amateur championship of the two states.

**Going Strong**  
The best golfers of the two Carolinas, some of them grizzled veterans, will play in the pro-amateur match tomorrow, but the dopessters are picking the hard-hitting Webb brothers. They haven't dropped a best ball pro-amateur match in a year and one half. They have won three of these events hand-running—the Reidsville tourney match, the Charlotte Country club match and the recent match at the junior tournament in Greensboro. As a re-

freshing sandwich course was served.

**Mrs. Burrus Has Small Party**  
Mrs. C. A. Burrus entertained at an informal small party on Thursday afternoon for Miss Herbert Ward Wyant, of Harrisonburg, Va., guest of Mrs. C. B. McBreyer. Two tables were arranged for bridge on the attractive porch and at the close of several games a delicious sandwich course was served.

McLendon saying his organization will function right down to the precinct more efficiently even than it did June 4. He predicts a 100,000 majority July 2.  
Many claim a two-to-one or even greater victory for Mr. Ehringhaus, basing the belief on the big lead and continued activity of the Ehringhaus forces. Much of the Fountain strength was early promises and "band wagons" seekers, it is contended. He will be able to get only a small percentage of the vote for A. J. Maxwell in the first primary, but will also lose much of his former vote, the observation being made that his forces started upon a rapid disintegration immediately after the primary, aided by the lapse of time before Mr. Fountain called for a second primary. The senatorial race may modify or influence the voting in the gubernatorial contest some, however.

While neither the Morrison "dry" nor Reynolds "wet" following raised special objection to the mildly dry plank in the platform, which recognized the right to vote on all questions, the "drys" are taking comfort in the vote on the re-submission substitute, defeated by about 1762 to 511 (the count was not completed). The three-to-one vote may not be taken as a direct wet-dry vote, but it is held to show that the state is not yet ready to vote wet. The wet and dry sentiment will be more clearly shown in the Morrison-Reynolds vote in the next primary. The commissioner of labor race will be in the background. How the votes of the five eliminated candidates will split between Fletcher and Mitchell is uncertain. Fletcher is expected to get the American Legion vote largely, and Mitchell, former labor union man and now operating a union printing plant, is expected to get the bulk of the labor vote, which went in the first primary to R. R. Lawrent, president of the state federation of labor, in Mecklenburg county.

**Honest Youth From Forest City Given Reward Of \$2,000**  
Forest City, June 20.—Because he was willing to be fooled, Private First Class Jack W. Layton, who is stationed at Honolulu, and who is a grandson of Mr. and Mrs. Bud Layton, of Forest City, is \$2,000 richer. The finding of lost jewels and returning them to their owner, Mrs. Frank Borzage, of Hollywood, Calif., by Private Layton after a friend had called them "ten cent store sparklers," prompted Mrs. Borzage to reward him with \$2,000. The jewels were valued at \$35,000.  
Information received here from Honolulu says that Layton was sitting on the sea wall at Waikiki when a friend came up and told him he had just found a box of jewelry out on the street, and had thrown it into the gutter. "Nobody can fool me with 10-cent store sparklers," he said. "I'm willing to be fooled," said Layton, walking out to the street and picking up the box. Upon receiving the reward, Layton kept \$500 for his personal use and deposited the balance with the finance office at Fort Shafter where it will draw interest until he sails for home.  
Layton arrived in the Hawaiian Islands in March, 1930, and is a member of Battery F, 64th Coast artillery. Before enlisting in the army Private Layton lived with his uncle, L. R. Wilson, in Mecklenburg county.

# Two-Cents Tax On Checks On Tuesday

(Continued from page one) cash, reducing the cash price to 2.24.  
Effects Everybody  
The 1932 revenue act, signed on June 6 by President Hoover and designed to raise a total of \$3,261,500,000 to meet the government's expenses in the 1933 fiscal year, puts most of the new levies in force at that time.

Nearly every citizen, from five and ten cent store girl clerks to the multi-millionaire, will start contributing to the increased levies.

They apply to a long list of articles and products, ranging from candies, chewing gum and electric light bills to automobiles and conveyances of property. The wealthy will be the hardest hit because they purchase more of the articles taxed and because of increased levies on income in the higher brackets.

The largest part of the new duties will be upon articles not taxed since war days. The manufacturer will pay the tax but in a number of cases will pass the cost along to the ultimate purchaser. These levies are designed to raise \$457,000,000 in revenue.

**Income Taxes Higher**  
The new income taxes are as high as those paid in 1921 with the normal rates at 4 per cent and 8 percent and the exemptions cut to \$2,500 for a married person and \$1,000 for a single person.

The bill eliminates the earned income credit which has been allowed for several years. The surtax rates start at 1 per cent in excess of \$6,800 and increased to 55 per cent on incomes of more than \$1,000,000.

**Revenue Produced**  
The higher rates are expected to raise an additional \$178,000,000 while increased corporation taxes are counted on to bring in \$41,000,000.

Miscellaneous and stamp taxes will add \$197,500,000 to the nation's tax bill while increased postal revenue will bring in \$160,000,000. Administration changes and limitation on security losses account for the remainder of the \$1,118,500,000.

Part of the levies do not become effective on Tuesday, including the increase in first class postage from two to three cents, which begins July 6; the second class postal rates on July 1, the tax on boats July 1, the increased income and corporation taxes, which are effective from last January 1, and the estate and gift taxes which were effective June 6 after 5 p. m.

Luxuries and articles and products not directly necessary to liv-

ness and industry. Did sound public policy permit, I could easily detail instances of this kind; however, I think I should frankly state that more than one business in the State is now in danger from this very disease. Typhoid fever, diphtheria and diarrhea (under two years, can, to a large extent, be prevented. So the question is not whether we shall have these diseases but how many of our people, particularly our babies, will we allow to die during the coming months? We admit that this is a harrowing question but it is a fair one.

**What Vaccination Does.**  
"I have on my desk a letter from a prominent physician in North Carolina in which he states that he always urges his clientele to be vaccinated against typhoid and diphtheria, and that as a result, he has had not a case among his patrons during the recent five years.  
"In 1930 the death rate from typhoid in five of our cities which have a standard milk ordinance and well regulated water supply, and in which there is a reasonable amount of vaccination against typhoid fever, was 2.7, and that too in face of the fact that those cities are medical centers to which typhoid cases gravitate and which receive the credit of the death.  
"During the same year, 1930, the death rate from typhoid in five rural counties which do not have standard milk ordinances and well-regulated water supplies, and in which vaccination has not been as thorough as it ought, was 12.7.

**Responsibility Is Local.**  
"The State Department cannot now meet the demand for the service necessary to control typhoid fever. It can only do a very small part. After all, to a very large measure, the responsibility is definitely a local one. Unless our local governmental officials, both county and municipal, take a more vigorous attitude and supply more funds than now available, nothing more can be expected other than a continued and very serious increase in typhoid, diphtheria and enteritis this summer and early fall.  
"The State Department of Health is pleased to do whatever it can to co-operate in every way possible. The people themselves must do something to help themselves. I solemnly and earnestly warn the public to be vaccinated against typhoid and diphtheria and to follow the advice of doctors and local health services about sanitary matters, particularly proper milk and water sanitation."

**Rutherford Group Is For Postmaster**  
Rutherfordton, June 20.—The Rutherford county republican executive committee met this afternoon and recommended C. W. Keeter for postmaster. Out of 13 votes, Keeter received seven while the present acting postmaster, H. Mal Wilson received six. Recommendations by the committee is equivalent to appointment.

**May Play Again In Junior Legion Series**  
A note from Lattimore says the title contest between the junior American Legion teams of Lattimore and Shelby may be played over. In the other game, the Lattimore note points out, Shelby is said to have used an ineligible player, necessitating, from the Lattimore viewpoint, another contest or a forfeit.

# Warning Given About Typhoid And Diphtheria By N. C. Health Officer

Roosevelt To Get Support Locally (Continued from page one)

structured for Roosevelt, but opinions expressed at the meeting clearly indicated that Roosevelt was far and ahead the favorite. The delegation that cast the county vote in Raleigh did not hesitate, as a result, to join the unanimous vote to make Roosevelt the beneficiary of the State's 26 delegates to Chicago.

Naturally, the existing conditions please loyal party workers who hope to never again have a fight such as was staged in 1928. Roosevelt is a Protestant where Smith was a Catholic. His views are not exactly the same as Smith's on prohibition, although Roosevelt is among the growing number who believe that the experiment has failed. But Roosevelt's wet views will, unless there is a big change, cause much of a furor. Practically all the other candidates, Republicans and Democrats, are just as wet, if not wetter. An uncompromising dry cannot turn to Hoover this year, because the Republicans, with Hoover agreeing, have turned their backs too on prohibition as it is now. What's more an anti-prohibitionist is not viewed as a fellow wearing horns as was the case in 1928. There are many conscientious and sincere drys yet. They are not ready to give up prohibition, but they are not greatly troubled over Roosevelt's viewpoint, for it is their opinion that he is as sincere in his view as they are in theirs. And what's more a State that voted for a wet Democrat in preference to a dry Democrat in 1928 this year reversed itself and gave a wet Democrat a plurality over dry Democrat.

Anyway, a fight within the party will not be made in Cleveland county Democracy this year, and from the early talk heard the growing popularity of Roosevelt will give him, if nominated, the largest vote this section ever gave a presidential candidate.

# \$50 Bill Plan Is Cross-Word Teaser To Local Citizens

Assistant Secretary Of Treasury Puzzled Over It, Brisbane Writes About It.

The "depression cure," or \$50-billion plan, worked out by a couple of Shelby men has hundreds of people figuring on it and trying to find the flaws, if any. No proposal of similar type has ever had as many people so interested in studying it.

The plan, as all recall, is to give every person in the country \$50 in "fiat" money in order to give an immediate boost to business. A stamp arrangement would be provided whereby the spending of each dollar would necessitate the purchase and use of a three-cent stamp, which after the money had been in circulation for a designated period of time would repay the government for the money. The basic and more permanent relief idea is that the spending of the \$50 by each person would so stimulate buying in all commodities that plants would start operating again to fill the demand and thus relieve the unemployment situation.

That, of course, is only a brief summary of the plan, which has been more fully elucidated heretofore. But the idea is that hours of figuring and theoretical work by hundreds of people have failed to bring out any serious flaws. Along the streets in Shelby, in business houses and private homes hundreds figure on it every day. And the figuring has spread to other sections and States. Copies of the plan were widely distributed and have brought replies from Arthur Brisbane and others. One of the originators of the idea was in Washington recently and while there was asked about it by one of the assistant secretaries of the United States Treasury. When it was explained to him the secretary said: "It sounds so simple that there must be some flaw or defect to it, yet I must admit that I cannot see what is wrong with it now." Several hours later after devoting his thought to it he added that he could not find its weakness, if it has any.

Newspapers all over the country have carried the details of the plan, some in a humorous manner, and it is impossible to estimate how many thousands of people have been intrigued by it and impressed by what they believe to be its plausibility.

**Two Fine Oat Crops From Single Sowing**  
Chas. Reichard of Laidale is 84 years old but still active and energetic. Truck farming is his hobby but he is successful with field crops as well. In the fall of 1930 he sowed an acre and a half of Fulgrim oats. Last spring he cut 110 shocks with ten bundles to a shock. The crop re-seeded itself and this spring he cut 105 shocks and it showed no evidence of cheat or smut.
