The politicians keep hollering about restoring America to its true owners, but if they don't hurry the Indians won't take it off our hands.

A statistician tells us that the motorist pays one-third of a cent a mile for the use of the highways. The cost of the abuse haven't yet been figured out.

A sale of pure bred sheep will be held at Sparta, Alleghany county, on the first Monday in August.

Questions and Answers

(Our readers can get an answer to The Cleveland Star, Washington Bureau, 1322 New York avenue, N. W., Washington, D. C. Write your name and address on one side of the paper, state your question clearly and enclose 3 cent stamps for reply postage. Do not write legal medical or religious questions.)

Q. Does Buck Jones use the horse Silver King that belonged to the late Fred Thomson in his motion pictures?

A. No. His horse is named Silver Buck.

Q. When was the name of St. Petersburg, Russia, changed, and why?

A. Shortly after the outbreak of the World war in 1914, the name, because of its German origin, was changed to the Russian form of Petrograd, and in March, 1924, it was renamed Leningrad, in honor of Nikolai Lenin.

Q. What is the name for the study of butterflies?

A. "Lepidoptology."

Q. What state had the largest yield of oats per acre in 1931?

A. Washington, with an average of 49 bushels.

Q. What word of seven letters means an iron plate worn on the shoe to get a foot-hold?

A. "Crampon."

Q. Will moth balls added to gasoline in an automobile decrease the consumption of gasoline and does it affect the engine adversely?

A. It will not injure the engine, but if enough naphthalene is added it may crystallize in the carburetor jet, and cause irregular running. Otherwise the presence of naphthalene will have no effect on gasoline consumption or engine performance.

Q. What is the area, greatest width and greatest length of New York City?

A. Width, east and west, 24 miles; length, north and south, 33 miles; area, including small islands of 13.09 square miles, is 308.95 square miles.

Q. Is Dr. Emil Coue alive?

A. He died July 2, 1928.

Q. Did the English government loan money to the United States during the war with Spain?

A. No.

Q. What position does Rudolph Forster hold at the White House?

A. Executive clerk.

Q. How is the lead in pencils made?

A. It is a compound of graphite and selected clays, mixed together in different proportions according to the degree of hardness desired. The materials are mixed in water and ground in heavy mills, and the mass is transferred to a specially prepared filter press and subjected to intense pressure to squeeze out surplus moisture and obtain a close texture. The mass is then inserted into heavy power driven presses and forced through apertures of the desired diameter and shape and extrudes in thin, plastic, string-like strips which are laid on boards to dry. After drying, the leads are sealed in crucible boxes and fired in kilns to vitrify the clay.

Q. How much does the Empire State building in New York City weigh?

A. It has been estimated to weigh about 600,000,000 pounds.

Q. Which president of the United States first occupied the White House?

A. John Adams.

Q. Which of the Great Lakes lie wholly within the territory of the United States?

A. Lake Michigan is the only one.

Q. What is the greatest width and greatest length of New York City?

A. Width, east and west, 24 miles; length, north and south, 33 miles; area, including small islands of 13.09 square miles, is 308.95 square miles.

Miss Velva Hamrick and Eleanor Elliott and Mr. Yancy Elliott at-

Upper Cleveland News Of Interest

Revival On Mt. Mount Zion. Thrashing Machines Going But Wheat Not So Good.

(Special to The Star.)

Revival on Mt. Mount Zion. Thrashing machines are going but wheat is not so good.

Mr. and Mrs. J. P. Costner and daughter, Peggy Ann, of Cherryville spent the day Sunday with Mr. and Mrs. Coleman Elliott.

Misses Maxine and Winifred Costner of Shelby are visiting their grandmother, Mrs. Tom Vaughn this week.

Mrs. Pressley Costner celebrated her birthday Sunday by having all her children with her for dinner. Covers were laid for the following: Mr. and Mrs. Grady Hoyle and children, Billy and Betty, Mr. and Mrs. Paul Bridges of Cleveland Springs, Mr. and Mrs. Onley Wright, Misses A. V. Irene, and Thera Costner.

Cleveland, O.—Demand for a controllable pitch propeller for airplanes is keeping the factory of the Smith Engineering company operating 24 hours daily. Three shifts are employed and L. P. Zinke, an official, said the plant had been going at top speed for 80 days. Much of the work is to fill government contracts.

Bloomington, Ill.—Two hundred men will return to work here Thursday at the plant of the Hayes Custer Stove company to fill orders obtained during furniture shows in Chicago and New York during the last two weeks. Orders on hand will keep the plant operating four months.

Philadelphia, Pa.—The Standard Silk company, largest silk mill here, hopes to have the entire force of 965 men and women at work by the middle of August. Only 200 employees have been retained at the mill recently.

Akron, O.—Workers at the India Tire and Rubber company will be paid money they lost by a wage and salary cut of 20 per cent which went into effect last January. The amount of the cut will be added to checks gradually and will affect approximately 450 employees.

New York.—The U. S. Steel corporation has purchased 28,000 tons of heavy melting steel from the New York Central railroad and this is taken to indicate increasing activity by steel interests.

O'Fallon, Ill.—Six hundred coal miners were assured jobs today by announcement that the West Virginia Coal company, operating mines at Gillespie and O'Fallon, plans to resume work under the old wage scale of \$6.10 a day.

Roosevelt Will Take State, Reynolds Says

Asheville Man Confers With James A Farley—Discusses Politics.

New York.—A predicament that Gov. Franklin D. Roosevelt will carry North Carolina, which went for Herbert Hoover in 1928, was made this week by Robert R. Reynolds, Democratic nominee for senator from that state.

Reynolds, who defeated Senator Cameron Morrison by a record primary majority of 107,000, also expressed the belief that his state

Lawndale News Of Current Week

The Who's Who As Developed By The Recent Session Of Congress

Washington.—It was a session of Congress which gave more than a normal number of members a chance to distinguish themselves, to pop out from previous obscurity, to embellish or bedim their former records in new or expanded roles.

Senator Huey "Kingfish" Long and Speaker Jack Garner attracted more national attention than anyone else. "Texas Jack" became the first Democratic speaker in many years, had his ups and downs—downs when the House revolted against his leadership in the sales tax and original economy plans, waxed and waned as a presidential possibility and came down the home stretch a vice-presidential nominee engaged in a hot legislative battle with President Hoover.

George Norris of Nebraska won long-delayed triumphs with passage of his lame duck amendment and anti-injunction bill, but saw Muscle Shoals buried once again.

Senator Bob LaFollette of Wisconsin strengthened himself as the real, practical leader of the Republican progressive group.

Senator Morris Sheppard of Texas seems to be the last outstanding dry in Congress, though his foot slipped when he was for resubmission for a few hours.

Senator Bob Wagner of New York who introduced a comprehensive unemployment program four years ago, was in at the death as co-author of the relief legislation finally passed.

In the House, Fiorello LaGuardia of New York became the most conspicuous individual leader when he assumed captaincy of the progressive group and licked the sales tax.

Robert L. Doughton, a North Carolina farmer, leaped forth as a national figure by leading the insurgent Democrats—and then sank back to his accustomed obscurity.

Charlie Crisp of Georgia was heralded as leader of the sales tax proponents and Henry T. Rainey of Illinois, new majority leader, gave the Republicans campaign ammunition by unrestrained utterances.

Senator Cameron Morrison of supposedly bone dry North Carolina, became the season's outstanding sacrificial lamb when a wet beat him for renomination.

Smith Brookhart of Iowa was booted out by his voters when they learned he had five Brookharts on

the floor and at the Republican national convention.

Senator Edward P. Costigan of Colorado showed up as the soundest, most effective progressive to arrive in several years, beginning with his memorable early unemployment relief fight.

Senator Jim Davis of Pennsylvania made the quickest, complete flip-flop in all history by metamorphosing himself from a dry to a wet overnight.

Senator Hiram Bingham of Connecticut became a national hero of the jubilant wets by his crusading

the federal payroll.

Dry Carter Glass of Virginia astonished everyone by introducing a resolution to repeal the 18th amendment, just to call "Republican bluff."

Senator Morris Sheppard of Texas seems to be the last outstanding dry in Congress, though his foot slipped when he was for resubmission for a few hours.

Senator Bob Wagner of New York who introduced a comprehensive unemployment program four years ago, was in at the death as co-author of the relief legislation finally passed.

In the House, Fiorello LaGuardia of New York became the most conspicuous individual leader when he assumed captaincy of the progressive group and licked the sales tax.
