Mrs. Lindbergh Has Shown Her Courage

(CONTINUED FROM PAGE ONE)

little has been made known of its nature. When the Lindberghs first built their home at Hopewell in the isolated Scourland hills region, it was generally supposed that they would have their estate guarded against any possible interlopers. Colonel Lindbergh, however, wished to be on completely neighborly terms with the nearby farmers and tradespeople and for this reason had no guards in his employ.

There was much speculation today as to what means he would take to guard against kidnapping of the new baby. No immediate steps in this direction would be necessary however, as the Morrow home has always been fully guarded since the first Lindbergh baby was born there.

The baby lost through kidnappers was a chubby boy with blue eyes, fair complexion, golden curly hair. He resembled the famous aviator closely. The end of his life came when he was just beginning to toddle.

Mrs. Lindbergh Has Shown Her Courage

When the Lindberghs first built their home at Hopewell in the isolated Scourland hills region, it was generally supposed that they would have their estate guarded against any possible interlopers. Colonel Lindbergh, however, wished to be on completely neighborly terms with the nearby farmers and tradespeople and for this reason had no guards in his employ.

There was much speculation today as to what means he would take to guard against kidnapping of the new baby. No immediate steps in this direction would be necessary however, as the Morrow home has always been fully guarded since the first Lindbergh baby was born there.

The baby lost through kidnappers was a chubby boy with blue eyes, fair complexion, golden curly hair. He resembled the famous aviator closely. The end of his life came when he was just beginning to toddle.

Colonel Lindbergh flew into fame in 1927 when he piloted the "Spirit of St. Louis" straight across the Atlantic to Paris to win the \$25,000 Orteg prize. Before that he had completed army flying instruction and been an air mail pilot flying between St. Louis and Chicago.

The Paris flight and subsequent trail-blazing in the air made of him an international hero.

His marriage to Ann Morrow helped to weld friendly relations between the United States and Mexico. The romance bloomed in Mexico City where Mrs. Lindbergh's father, the late Senator Dwight W. Morrow, was the American ambassador. During the courtship—largely in the air—the couple lost a wheel from a plane on a takeoff and crashed on landing. Lindbergh was slightly injured, his fiancée unhurt.

The wedding took place in Englewood in 1929.

The first Lindbergh baby was born on Mrs. Lindbergh's 24th birthday. She is now just over 26 years old. Colonel Lindbergh is 36 years old.

Despite the tragedies which have marked their lives Colonel and Mrs. Lindbergh have remained practically unchanged in appearance since they first came into world prominence.

Colonel Lindbergh is in appearance still the curly headed young man who made the world gasp with the exploit of his flight to France. He still likes to go bare-headed and his tall thin figure has not filled out.

Texas Jack Garner Gets Hearers Told

(CONTINUED FROM PAGE ONE)

"And I still believe that." The New Englanders applauded and Garner continued:

"I think Smith would have been one of the greatest presidents this country has ever known."

"Religious Bigotry"

"Is it not a fact that the present leaders of our party in the south like yourself, repudiated religious bigotry?" asked Chairman J. Howard McGrath of Rhode Island.

"That is true," Speaker Garner replied quickly.

The speaker, a Methodist by faith, hesitated a moment, then continued with shaky voice:

"I have suffered from that bigotry more than you know, both politically and personally—communications—threats—suffered more than you gentlemen realize—atacks you people in New England know nothing about. That will answer your question."

"There were tears welling in his eyes as he finished. A wave of applause swept around the luncheon table, at which more than 50 kindspins of the democratic campaign were gathered.

Against Dry Law

"How do you stand on the question of the 18th amendment?" asked Chairman David Wilson of Connecticut.

"That is a great question for me," came the quick reply.

Again his face was wreathed in the same smile he had worn earlier in the day as he stepped from a train that had borne him from Hyde Park and Albany, where he had conferred with his running mate, Governor Roosevelt.

"I am in favor of completely revoking the 18th amendment," he continued. "I never voted for it. I feel today as I did when it was introduced."

Fifteen neighbors in the Brushy Fork community of Person county built a fish pond for the community last week.

Even people who live to a ripe old age are not always ripe with wisdom.
