Neal For Repeal Of N. C. Dry Law

Marion—W. W. Neal, of Marion, veteran statesman who represents McDowell county in the lower house of the state legislature, has come out for the full repeal of the Turlington act at the next session of the general assembly.

Mr. Neal said that this act, drafted by Judge Clarkson, attorney for the Anti-saloon league, is altogether too drastic, even for a prohibition era. He voted against its enactment before the war, has always opposed it, and will use all his influence in working for its repeal, he said. Among the reasons Mr. Neal has

for believing the time is now ripe for abolishing North Carolina's private prohibition law, he said the most important are: That the public is tired of the corruption and other unsavory conditions brought about by prohibition; that the revenue derived from a tax on liquors would pay a large part of the state's expenses; and that the reviving of the beverage industry will provide the necessary stimulus for helping to bring business in general out of the depression.

Says Glass, Byrd Won't Take Posts

Dean Gildersleeve Tells Women Teachers All Schools Must Cut Out Non-Essentials.

The fact that some institutions of learning will not survive the economic crisis must be faced by educators, it was said last week by Dean Virginia G. Gildersleeve of Barnard college in a speech in which she declared that schools will be forced to eradicate non-essentials and be ready for readjustments.

Miss Gildersleeve spoke before the Women's Faculty club of Columbia university at a dinner held in her honor at the Men's faculty clubhouse.

Declaring that a new realization of the importance of liberal education is apparent, Miss Gildersleeve said: "Man is becoming bewildered by his scientific discoveries and somewhat frightened by his mechanical inventions and is not yet wise enough to guide and control these Frankenstein's."

"If the economic difficulties continue the problem of keeping education and scholarship alive through these hard years will be an acute one. State universities and other institutions supported by the public taxes are in great peril. Somehow legislatures must be convinced of the supreme importance of continuing support of education and research. Privately endowed institutions face a new situation because of the almost complete absence of donors to aid them."

"Liberal education," she continued, "and the development of the mind and spirit, shines out today conspicuous in the midst of the uncertainties of the world. A new realization of its vital importance."

With Flu Around All Colds Now More Dangerous

Colds Lower Body Resistance and Often Pave the Way For Flu and Its Serious Complications.

EXTRA PRECAUTIONS URGED

With flu increasing in many sections of the country, health authorities urge everyone to take extra precautions against colds just now.

The safest course to follow is that outlined in Vicks Plan for better Control of Colds. Briefly, it is this:

To Prevent Many Colds.

At that first feeling of stuffiness or nasal irritation, sniffle or sneeze—Nature's usual warning that a cold is coming on—use Vicks Nose and Throat Drops, the new aid in preventing colds. Vicks Drops aid Nature in throwing off the infection that threatens. They prevent development of many colds.

To End a Cold Sooner.

If a cold has developed, or strikes without warning, vigorous measures are necessary. At bedtime, massage throat and chest well with Vicks VapoRub. It acts two ways at once to bring relief: By stimulation through the skin, like a poultice or plaster; and by inhalation of its medicated vapors direct to irritated air-passages. During the day—for added comfort and relief—use the convenient Vicks Nose Drops every few hours as needed.

Plan Tested and Proved

In clinical tests among thousands last winter, Vicks Colds-Control Plan reduced the number and duration of colds by half—cut the costs and dangers of colds more than half. How you can follow the Plan in your home is fully explained in each Vicks package.

SEE THAT YOUR ROOF DOES NOT LEAK DURING THE RAINS OF WINTER. If you have a leak, I can stop it. Work guaranteed. William Denton. Phone 658 or leave word at Chas. Hoey's office.
