The lady who runs our red cross in flat rock says she was very much surprised when belgium failed to pay the interest on the war debt she owes the u. s. for the money loaned her after the armistis was signed. she helped mr. Hoover to give our food to the belgians enduring the war and never thought they would of done forget us that soon "there's gratyude for you," she said.

The city counsel is having a right hard time collecting the license fees from the merchants on account of them being too high. considering the depression and the panic; but the polesman told the cumm & gitt cash stoar that the city had to raise some money to pay the help with and keep him employed, and they had to get it by the license route, as it is aginst the law to use a pistol like jesse james done. the city don't know that the merchants is hard up also.

The gray mule which was ketch-ed in yore corry spondent's backyard last friday night has not been identified as yet, she is getting hungry and the owner will please take note that unless he calls at once and pays for this advertisement, as she will be drove off to starve, as i will positively not let her starve on my premisses. she is 15 hands high and has 2 ears, four legs and four feet, rite or foam quick, whoever owns her, i am seeing that she gets plenty watter.

Mr. editor, kindly run a parrigraph in yore wanted department that all pedlers and hitch-hikers are warned not to come to our town looking for relief, as there is none left for the regular residents at present. they will all arrive and depart at their own risk, as the citizens can not raise nothing for them. it is about all we can do now to pay for our gas and oil and to backer. much less help the outside world.

our pasture at rehober has notified the deacons that unless some thing is paid on his september and july 1932 salery that he will have to commence to board around with his congregation, as his credtick has been exhausted at all of the stors. he can skip a few of the other months betwixt then and january; but he needs some sucker right now to get along on. he wants to stay in the ministry, if possible but wants to be strong enough to stand up in the pulpit so he can preach. it takes food for that, so he says.

Hoover To Veto Philippine Bill

Expected To Follow Recommendation Of Secretaries Stimson And Hurley.

Washington, Jan. 11.—A veto for the Philippine independence bill appeared imminent at the White House as President Hoover prepared for final consideration of the measure which would grant political freedom to the islands within 10 years.

Secretary Hurley, who has had the bill for report, informed the president that he was ready to deliver his recommendations formally as soon as Mr. Hoover desired to give them full consideration.

The chief executive has until Saturday either to approve or veto the bill, or allow it to become law without his signature. White House aides said action probably could be expected by the middle of the week. Unless he overrides the recommendations of both Secretaries Stimson and Hurley, Mr. Hoover will veto the measure.

Carver's craft can be seen in flames after his motor had exploded. Miss Turnbull abandoned the race in order to rush to the rescue of her luckless rival.

only a very few new patients reported. It seemed that the wave reached the peak last week with scores of people confined to their homes but the number is considerably decreasing this week.

The schools began here last week and have been having fairly good attendance. It is expected that more students will return by the latter part of the week.

Tarheel Dairy Herds Get High Certificates

Records Show Dairymen Are Making Progress In Improving Class Of Milk.

(By Extension Department)
Thirty-eight out of the 85 herds belonging to the herd improvement associations of North Carolina have

been awarded honor certificates for 1932 for high production of milk and butterfat during the year.

"This is an increase of 12 percent over the previous year and shows that the dairymen of North Carolina are making steady progress in improving the class of milk cows now on the farms of this state," says John A. Arey, dairy extension specialist at State college.

"The National Dairy association annually awards these honor certificates to owners of herds composed of five or more cows making an average of 300 or more pounds of butterfat per cow in one year. During the past few years we have been earning a steadily increasing number of the certificates."

According to Mr. Arey's records, eight herds in the Guilford association won this honor for last year; six in the Forsyth-Davidson association; seven in the

Mecklenburg-Cabarrus association; seven in the Wake-Durham association; two in the Buncombe-Henderson association; one in the East Carolina association; two in the Chatham-Alamance association, and five in the Piedmont association.

The average production of the 38 herds thus honored was 8,328 pounds of milk and 345 pounds of fat for each of 1,226 cows. Compared with this, says Arey, is an average production of 4,000 pounds of milk and 180 pounds of fat a year by the ordinary North Carolina cow. The difference between the production of 345 pounds of fat and 180 pounds of fat represents the results secured by the ownership of the 38 herds in good breeding, efficient feeding and persistent culling.

Lincoln School Girls Confined To Hospital

Lincolnton, Jan. 11.—Flora Carpenter and Jeanette Jettón, students at Union consolidated school, are still in a local hospital as a result of injuries sustained when they were struck by a school bus Saturday at noon. Paul Seagle was driver of the bus. Miss Carpenter suffered internal injuries, while Miss Jettón received a fractured skull and a broken rib. Two other children, Rosa Lee and Robert Seagle, hit by the same truck, were able to return to their home Saturday evening after the accident. The accident was termed unavoidable.

"I'm working and Smoking overtime—

hence a Milder Cigarette

"WHEN I work hard, I usually smoke more; and when I smoke more, I usually work harder—and that's why I want a cigarette that's milder."

We use in Chesterfield Cigarettes mild, ripe Domestic and Turkish tobaccos which have been aged and re-aged.

These good tobaccos in Chesterfield are used in the right proportions—that's a very important matter.

These good tobaccos in Chesterfield are blended and cross-blended—welded together; that, too, helps to make a milder cigarette with better taste.

THEY'RE MILD—THEY TASTE BETTER
