

Sharon Community News Of Week-End

(Special to The Star.) Sharon, Feb. 14.—We had a very good attendance at Sunday school and preaching services Sunday. The fourth committee of the young peoples division delightfully entertained with a heart social last evening February 10 in honor of first and second committees. Games and contests were enjoyed during the evening after which a buffet course was served. Those present were Misses Marie Blalock, Ruth Smith, Helen, Johnnie and Ma Mae Morehead, and Mrs. J. F. Dodd, Mrs. B. Dodd, Messrs. A. V. Leneer, Cassie Hamrick, Max Camp, J. P. Dodd, Howard and Sam Hamrick, Gladys Pruitt, W. B. Dodd, Millard Wagnant, Ivey Smith, Gordon Blanton.

This Mouse Brings In The Long Green

Summerland, Miss.—The cat's away and the mice can play all they please at Mrs. J. R. Blakeney's. The other morning when Mrs. Blakeney started to fix breakfast she found a \$2 bill of the issue of 1899 lying in a pan with a bit of nibbled potato. She believes it was left there by a mouse that knows the hiding place of a long-concealed bank roll. Tasty tidbits are now scattered about the home to encourage the mice to keep up the good work.

Show New Ford Here Thursday

Wider Body, Speedier Engine, Aluminum Cylinder Head, 14 New Body Types.

The first of the new Ford V-8 cylinder, 112-inch wheelbase motor cars will be displayed here Thursday in the showrooms of Rogers Motors, Ford dealers, it was announced today.

The new V-8 is the largest and most powerful Ford ever built. It has new and distinctively modern lines, a most attractive front end, longer wheelbase, larger and roomier bodies, faster acceleration, increased power and speed and is exceptionally economical in operation. With its 75-horsepower, V-8 engine, the new Ford is capable of a sustained speed of 80 miles an hour.

The styling of the 14 body types expresses the new mode in motor car building. The modern note is found in the sloping Vee radiator grill, the skirted fenders, newly designed headlamps, cow lamps and bumpers, the curve of the hoodside ventilators, the 20-degree slant of the windshield, the curved roof header, the reverse curve of the rear quarter and the backward sweep of the apron masking the gasoline tank.

The new all-steel bodies are materially wider, almost a foot longer and consequently much roomier. The attractive instrument panel is directly in front of the driver, with a large package compartment at the right side of the instrument board. Front seats in closed cars are fully adjustable. Interior fittings are luxurious. Options in upholstery and a wide choice of body colors are available.

The improved V-8 engine is fitted with all-aluminum cylinder heads, one of the most noteworthy forward steps in motor design in many years. Because aluminum dissipates heat more rapidly, the use of the aluminum cylinder heads permits higher compression pressure and results in increased speed, power and smoothness, faster acceleration and added fuel economy.

Features of the 112-inch wheelbase chassis include an extremely rigid double-channel, double drop X-type frame, torque tube drive, a straddle-mounted rear axle pinion, transverse cantilever springs, internal expanding mechanical four wheels brakes, 17-inch welded steel spoke wheels and tires of 5.50 inches section.

The new Ford has a three-quarter floating rear axle, the frame is cushioned by four Houdaille double-acting hydraulic shock absorbers, while the transmission is of the synchronized type.

Express Alarm Over Cut In U. S. Navy

5 Per Cent Cut In Funds Will Make Nation Third Rate Naval Power, Vinson Says.

Washington.—Alarm for the safety of the nation, voiced by both branches of congress, led to a fight for exemption of the military services from the five per cent cut below appropriations decree in the pending economy bill.

The proposal that all department heads return to the treasury five per cent of the money appropriated for next year is now involved in the conference between senate and house on the treasury-postoffice bill, which carries the economy measure as a rider.

Chairman Vinson, Democrat of Georgia, of the house naval committee, said the reduction would sink the country to a third-class naval power, while in the senate, Robinson, Republican, of Indiana, said it would "make it absolutely impossible" to maintain an adequate defense.

C. She was visiting her mother, Mrs. J. A. Mills.
