Up-turn In Business Seen In Prices--New Deposits \$400,000

Cotton Up About \$6 A Bale

Fertilizer, Flour, Corn And Other Commodities Increase. Money Being Deposited.

Conditions are on the up-swing in Cleveland county if increased bank deposits and higher prices are an indication.

A survey shows that new deposits amounting to \$400,000 have been left in the two local banks and their branches since the banking holiday. This has been done in the face of the fact that the two institutions have in addition nearly two million dollars tied up in the old accounts that cannot be used until the banks complete their reorganization plans to re-open on an unrestricted basis.

When the banks are re-opened, as indications appear they will, this \$400,000 deposited to new accounts since the bank holiday, will be added to the old accounts with depositors permission, thus placing the banks in strong liquid position.

Cotton Up \$6 Bale
A more hopeful and cheerful attitude over the business outlook has been brought about by the increase in the price of commodities the farmers have. Cotton is up \$6 a bale since the United States went off of the gold standard and inflation of the currency has been talked. One farmer remarked on the street this morning that there are fully 20,000 bales of cotton yet in the hands of the farmers of the county, so the increase amounts to \$120,000. Quite a few farmers have sold cotton in order to get fertilizer money. Crop planting time is on and with what surplus money the farmers had to buy fertilizer tied up in the banks, they have been forced to convert their cotton into money.

Two farmers were talking on the street yesterday about the advance in cotton. One rejoiced that he had some cotton, but when cotton goes up it adds to land values in the south.

Fertilizer is up \$3 a ton. Wheat has been jumping in price along with corn and the other cereals. Flour is up from \$1 to \$1.25 per hundred pounds, corn from 50c to 70c per bushel, oats from 40c to 50c per bushel, meal from 70c to 80c per bushel, eggs from 12 1/2c to 15c per dozen.

Cheese remains the same, although in some parts of the country where beer has already been legalized, the price of this article is up. Butter on the Chicago and New York market is up from 7c to 9c per pound.

In the building lines, practically all materials remain about the same—brick, lumber, lime, etc., although cement has advanced from 52c to 67c per bag within the last few weeks.

County Collects Taxes At Rate Of \$1,000 Each Day

4% Penalty On After May 1st

City Has Collected Two Thirds Of Its 1932 Taxes. Penalty Remains At 2 Per Cent.

Tax payers of the city and county are paying their 1932 taxes in a most satisfactory manner, since the additional one per cent penalty has been waived until May 1st.

A check-up at the court house reveals that in the 25 days since the new sheriff, Raymond Cline, has been in office, between \$22,000 and \$23,000 has been paid in the 1932 taxes. When Sheriff Cline took office the uncollected taxes amounted to approximately \$90,000. The county commissioners decided to waive the one per cent additional penalty during the month of April for those who would pay and it has had a stimulating effect. During this month, both city and county are charging only a two per cent penalty instead of three per cent. After May 1st the penalty will be 4 per cent.

At the city hall, over two thirds of the 1932 taxes have been collected. The total tax levy on real and personal property for 1932 in the city was \$99,922.16. To date \$65,665.34 has been collected, leaving a balance uncollected from 1932 of \$34,256.82.

Both city and county are well pleased with collections in the face of the banks being closed in the city.

This had enough when you don't have a home, but when you have one and can't find it that is worse. She declared that she moved to town some weeks ago and that she has a couple of daughters and a son living here. She willingly described her place of abode, but would not consent to be picked up. According to her story she had some rooms in a green house, near an old house, near a garage which would hold about seven vehicles and made of wood.

Believe Way Is Paved To Insure Deposits Of Banks At Early Date

Roosevelt and Senators Drafting Permanent Banking Legislation. Reach Agreement.

Washington, April 26.—A virtual agreement between President Roosevelt and senators drafting permanent banking legislation apparently prepared the way today for enactment of a bill at this session providing for insurance of deposits.

Differences of opinion which had appeared at times almost insurmountable were largely removed at an hour's White House conference between the Chief Executive and members of the senate banking subcommittee drafting bank reform legislation.

The President suggested several modifications in the committee's plan for setting up a two billion dollar fund to insure deposits in federal reserve banks, but his proposals would not drastically change the project and were satisfactory to the senators.

Would Limit Insurance

One of them would limit the 100 per cent insurance of deposits to accounts of \$10,000 and less, with partial insurance for bigger deposits.

Differing with the committee, the President recommended that branch banking be restricted to county limits, but this conflict did not appear impossible of solution. Members of the committee indicated they would stick by their plan of permitting state-wide branch banking in states which allow their state banks that practice. Chairman Glass and members of

Beer License Fees Bill Up

Wholesalers To Pay \$150, Retailers Have Different Classes Of Licenses.

Raleigh, April 25.—By a 38 to 2 vote the senate today passed and sent to the house its committee substitute bill setting up regulations to govern the manufacture, and sale of 3.2 per cent alcoholic beverages in North Carolina.

Beer and wine as legalized by congress may be sold in North Carolina after midnight of April 30.

Under the regulatory act a manufacturer must pay a license of \$500 annually; bottlers must pay \$250 plus a tax of one cent per bottle; wholesalers must pay \$150 for each place of distribution; dispensers of the beverages on railroad trains must pay \$100; and salesmen must pay \$25.

"Bona fide" restaurants, cafes, cafeterias, hotels, lunch stands, drug stores, cold drink stands, tea rooms or incorporated or chartered clubs may secure the "on premises" permits and allow consumption where beers or wines are sold. The "off premises" licenses are for places which sell the beverages at retail for consumption elsewhere.

In addition to the license fees a tax of \$3.00 per 31-gallon barrel is levied or one cent per bottle of not more than 12 ounces. No alcoholic beverages may be sold within 300 feet of churches or schools outside of incorporated municipalities or within 50 feet of any church in a municipality during church hours.
