Plans have been made by the various sponsors for adopting a school emblem which any child awarded this honor certificate may wear. This is to be a small bronze emblem, triangular in shape, and bearing the words: "Service, Character and Achievement," with the letter S in relief in the center. A small scroll along each S will be engraved with the name of the specific activity for which the award is made. The emblem was designed by Paul McGinty, a student.

Mull Attends Meet Of Rayon Industry

Shelby Man Will Aid Government To Administer New Law On Labor And Wages.

Washington, May 23.—Odus M. Mull of Shelby an official of the Cleveland Cloth mill company, left for his home tonight after being in attendance here for the past two days with the rayon manufacturers of the United States who went on record as determined to co-operate 100 per cent with president Roosevelt's administration in enforcing the new three and a quarter billion dollars industrial and rehabilitation or public works law. This measure will pass the house this week.

The group organized the Rayon Weavers association of the United States while in session at the Mayflower hotel. Mr. Mull and Spencer Love of Burlington were named as two of the steering committee of five who were instructed to call upon Hugh Johnson, who is to administer the gigantic program, and to assure him of their hearty support.

Messrs. Mull and Love are the only southern members of the committee. "The new law will affect hours of employment, wage scales, doubtless production, and every aspect of the industrial world," said Mr. Mull. "The salutary feature of the proposed law is that it puts every one on the same footing and there can be no cut throat practices. Textile and mill conditions are now improving gradually and we feel that the new law will further encourage and improve business conditions." The association will meet again June 1, at the New Yorker hotel in New York when Mull and other members of the steering committee will make a report.

While here Mr. Mull called upon former Governor O. Max Gardner whose campaign he managed. Senator Reynolds and Representatives Bulwinkle and Doughton.

County Must Aid In Raising Fund For Relief Work

Tax Levy Of 5 Cents Is Suggested

Federal Relief Fund Requires That Counties Raise \$3 For Each \$1 Given.

In order to share in the 500 million dollar Federal fund for unemployment relief, made possible by the Wagner-Lewis bill signed on May 13 by President Roosevelt, Cleveland county and other communities must raise their portion of money for charity work.

Information to that effect has been forwarded to Joe E. Blanton, chairman of the Cleveland county commissioners, by Donald Wilson of the North Carolina relief office.

To do this Mr. Wilson suggests that the Cleveland commissioners in making up their county budget for the next fiscal year make a tax levy of five cents for poor relief.

"The bill," Mr. Wilson writes, "makes available \$250,000,000 on the basis of one dollar for each three dollars raised locally for relief purposes." He quotes President Roosevelt as saying: "I want to make it very clear to citizens in every community that the bill I have just signed does not absolve states and local communities of their responsibility to see that the necessities of life are assured their citizens who are in desperate circumstances. Only when states and communities have done their utmost can the Federal government aid its contribution."

Mr. Wilson then adds his suggestion for providing the local funds which will be necessary to secure continued aid from the Federal government: "In making up your county budget for the next fiscal year, I am calling your attention to the fact that under the law your board is permitted to make a levy for poor relief in addition to the constitutional limit of 15 cents permitted for the general fund. I am suggesting that your budget should include a levy of not less than five cents for poor relief. To secure additional Federal funds our counties must do their best towards meeting their own needs."

Cleveland county already makes a special levy for the care of the poor and charity work and due to increased demands the commissioners, it is understood, had already anticipated that an increased levy might be necessitated.
