9 U. N. C. Alumni In Congress; 4 Head Important Committees

E. W. Pou, '84, is Chairman Of Rules Body; Clark, '95, President. Chapel Hill, Jan. 7.—When congress convened in Washington last week nine alumni of the University of North Carolina took their seats as members and resumed their duties with important congressional committees. Four are committee chairmen.

Heading the list is representative E. W. Pou of Smithfield, oldest member in the house in point of service, chairman of the rules committee. Mr. Pou attended the university from 1881-84 and has been a member of congress for 30 years.

Representative Charles L. Abernethy, Beaufort, of the appropriations committee, attended the university law school, 1894-95. Representative Lindsay Warren, of Washington, this state, was an undergraduate in 1905-08 and a law student in 1911-12. He is chairman of the accounts committee.

Representative Jerome Bayard Clark, Fayetteville, chairman of elections committee No. 1, was an undergraduate in 1905 and studied law here the following summer. Chairman of election committee No. 2 is Representative William B. Umstead of Durham, who received his A. B. degree here in 1909.

Representative Alfred Lee Bulwinkle of Gastonia, who attended law school here in 1903-04, is on the interstate and foreign commerce committee, and Representative Zebulon Weaver, Asheville, a member of the judiciary committee, attended the university law school, 1894-95.

Congressman Frank Hancock of Oxford was graduated from the university in the class of 1916.

Bonds Under 5% Offered By State

Raleigh, Jan. 9.—North Carolina bonds, for the first time in more than a year, have been offered at a lower rate than 5 per cent. Charles M. Johnson, state treasurer, reports.

"None of them were offered higher than 4.90 per cent and most of them were offered at 4.85 per cent," Treasurer Johnson said. These offerings indicate that the state bonds are getting back to normal rapidly, due to the fact that the state balanced its budget, even with the onerous sales tax, and has recently met all of its obligations, including payment of more than \$6,000,000 in bonds and interest due January 1.

IF YOU NEED JOB PRINTING CALL PHONE NO. 11 AND A REPRESENTATIVE WILL BE SENT TO SEE YOU. OUR PRICES ARE LOW, OUR WORK GOOD.

S. B. WILSON, Notary Public

Seriously Injured In Auto Accident

Rutherfordton, Jan. 9.—J. B. Henson, 21, son of Mrs. Mary Henson, 63, of Kings Mountain and formerly of Spindale, is reported in a critical condition in a Kingsport, Tenn., hospital, the result of injuries received in an automobile accident which proved fatal to his mother and sister, Louise, 18, last Wednesday.

According to information received here, the son was driving the car when the steering gear locked, causing the machine to plunge off a bridge. The accident occurred near Kingsport.

Mrs. Henson was killed and her daughter died four hours later in a Kingsport hospital.

Roxy Quits Job At Radio City

New York, Jan. 8.—Roxy quit today. J. R. McDonough, general manager of the Radio-Keith-Orpheum corporation and president

of Radio City theatres, Inc., announced Roxy's resignation as manager of the theatre.

He made no comment other than to say that S. L. Rothafel had resigned effective February 14. But there were reports that the resignation was the result of a controversy brought on because Roxy did not keep within the budget set by the supervisory committee.

\$30,000 Loan Asked For Women's College

Raleigh, Jan. 8.—Professor T. S. Johnson of N. C. State college revealed today that he had filed an application with the state public works administration in Chapel Hill for a \$30,000 public works loan in behalf of the Woman's college of the University of North Carolina at Greensboro.

The money, he said, is wanted to supplement the \$66,000 subscribed by alumnae to erect an alumnae building at the woman's college.

Josee E. Bridges, Notary Public. My Commission Expires March 12, 1934.

Steel Production Expected To Pass That Of Last Year By 25 Percent

Cleveland, O., Jan. 9.—From several eastern and mid-western sectors came a heartening chorus today that a healthy demand for steel may be in the making for 1934.

Reports ran along the same tenor of expression in New York, Pittsburgh, Youngstown, Cleveland and Detroit.

A representative of one of the largest firms operating at Pittsburgh was confident enough to predict that the 1934 production increase over 1933 may be as high as 25 per cent. Help from public works allotments is expected later in the year.

The University of Pittsburgh business research bureau announced that steel operations in the Pittsburgh area last week were 51.1 per cent of normal, a small increase over the previous two weeks. Conditions were improved compared with the same period a year ago.

Buying by automobile firms is expected to help the steel situation, and from Detroit today came the pleasant word that production schedules at the Ford Motor company had been stepped up 10 times since December 2. Ford officials said the building program for January calls for 57,000 cars and trucks.

In New York steel observers noted a moderate lull for the current week but expected that when automobile production begins to mount late this month and early in February, the steel industry will improve substantially.

Ingot production increased this week both in Cleveland and in Detroit. "Iron Age" observed, but the increase was offset by recessions at other points.

While steel executives are still cautious about making forecasts for the new year, several in New York have said improvement seemed in prospect around February 1.

At Youngstown, the third largest steel district in the country, a better year is expected in 1934, although the steel output currently is not above 30 per cent and may go slightly lower next week. Steel orders from automobile firms are expected to assist in raising this figure during the second half of the month.

Youngstown observers expect steel works operations there to reach approximately 60 per cent in March and for the first quarter an average of about 40 to 45 per cent is expected as compared with an average of 20 per cent in the first quarter of 1933.

ANOTHER SHELBY MAN PRAISES VIM HERB

Rheumatic Pains, Constipation Quickly Relieved By This New Tonic VIM HERB.

Just four weeks ago Vim Herb was introduced to the people of this section for the first time. Today it is used by hundreds who claim it to be the best regulator they have ever used.

"I have never in all my life taken a medicine like Vim Herb, and as a regulator it is to my mind the best that ever came out of a drug store. Anyone who suffers with indigestion, sour stomach, constipation or rheumatic pains, will find Vim Herb to be just the medicine for them, and I hope they will take my advice, as I know I owe my improvement in health to this one remedy. I was unable to sleep at night on account of pains from gas on the stomach; kidneys were out of order kept me getting up at all hours, and I was troubled with rheumatic pains in my legs and shoulders, constipated, and continually taking a strong laxative. After a few days treatment of Vim Herb I noticed a change in the way I felt, and today I feel better than I have for twelve months; no trouble from constipation, rheumatic pains are gone, kidneys are regular sleep sound at night, eat just what I want and never have a pain or ache. I have never taken a better medicine than Vim Herb. Gained four pounds and get up each morning feeling ready for a day's work. As I said before, Vim Herb is the best medicine that ever came out of a drug store."

A special representative is now at the Cleveland Drug Store daily to explain the merits of Vim Herb. It's guaranteed.
