Miners' Friend Seeks State Governorship

Miss Josephine Roche, Colorado mine operator, who has thrown her hat in the ring for the Democratic nomination for Governor of her State, is a pioneer "New Dealer." Back in 1928, when Colorado was in the throes of a bloody mine war, she amazed the coal moguls by buying out her associate stockholders in the Rocky Mountain Fuel Co., assuming control and inviting the workers to unionize her properties, at one of which, the Columbine Mine, six men had been killed and 35 injured in battle with troops a short time before. The result of that bold stroke is that today Colorado miners are the best paid in the entire country and Miss Roche's company made money all through the depression. A graduate of Vassar College and Columbia University, Miss Roche has held many municipal posts in Denver. She is sure she'll be next Governor of Colorado and promises a "New Deal" in State government.

Workman's Compensation Boosts Its Premium on Strike Breakers

RALEIGH, June 16 .- Strive dently placed at a premium under ance companies handling such in surance, according to members of the N. C. Industrial commission. One paragraph in the new manual, just received follows:

"In connection with and patrol agencies'-7720, an additional premium of \$1 per day shall be collected for each employe when engaged in strike duty, either as a Such additional premium is to be ed that aspect. collected in every event in addition to the earned premiums and the minimum premium as determined by this or other classifications on

Apparently, commissioners say, this adds \$1 to the insurance to be paid by an employer on each employe continuing work during the strike, or guards on duty during a strike at the plant where employed. The additional premium is supposed to have been added because of the extra hazard. In a sense, this apparently is an aid to the strikers in that it makes it more expensive to operate during a strike, to the extent of \$1 a day for each employe

Already some of he workers continuing on ther jobs in the strike during recent weeks at Laurinburg have been injured, the commissioners report. Some of the employers of the state are inquiring about this provision, and protesting.

Accident Case Is Tried In Morganton

An auto accident case involving D. O. Lowery of Burke county and Whisnant of Cleveland county was ruled upon in Superior court at Morganton last week.

The accident occurred on March 12 in this county, and the operator; of the two cars sought to recover damages of the other

Lowery brought an action against Whisnant for \$1,000 damages growing out of the accident occurrin near Toluca on Highway 18, and a counter claim was set up by Whisnant who asked to recover \$1,000 from Lowery. Both men were injured in the accident.

The trail of the case was begun Wednesday, and the jury Thursday decided that neither recover damages of the other. Lowery was represented by Attorneys O. L. Horon and Ervin and Ervin. Whisnent had as his attorneys Horace Ken nedy and C. C. Horn.

breakers and strike guards are evi- Race In Guilford Is Hotly Contested

RALEIGH. June 15 .- Statewide interest in a run-off race for a state senatorship seldom is noticed in North Carolina, but, according to reports reaching Raleigh, the run off primary between Senator Capus M. Waynick and former Senator John T. Burrus, both of High Point and candidates for Guilford's seat strike breaker or a strike guard. in the 1935 state senate, has assum-

A bitter foe of the sales tax, former Senator Burrus, a noted High Point surgeon, ran second in the June 2 primary in the threscornered race for the senate no ination and it was not until the last day of the time period given him to call for a second primary that he decided to ask for one.

Jeffress Interested. State officials are manifesting considerable interest in the Guilford county fight and no one scans the papers more to learn what is going on in that sector than E. B. Highway and Public Work commission, who is reported to be a strong supporter of Mr. Waynick, although friends of Mr. Jeffress say he is not taking any part in the run-off primary nor did he do so in the first primary

The situation, as the Capitol Hill politicians see it, is one that puszles them. Both Mr. Jeffress and Mr. Waynick, who gave up his editorship of the High Point Ente several months ago to come to leigh to be state director of the National Re-employment service, both have figured in the speculation re volving around the gubernatorial in 1936 and why Mr. Jeffress is supporting Mr. Waynick for re-election to the senate and thus giving him an opportunity to become more of a state-wide figure than he now is, is the puzzle they are trying to solve.

LUTZ-AUSTELL Funeral Home 406 West Marion Street **AMBULANCE PHONE**

rright, 1984, B. J. Reynolds Tobacco Co **SMASHES** SPEEDWAY and then RACE RECORD! be smoked a Camel!

BILL CUMMINGS FOUGHT OFF a fast field of daring drivers for over 41/2 exhausting bours of nerve-racking, record-breaking speed to take the 500-mile classic at the Indianapolis Speedway. Press wires flashed: "Cummings, after stretching bimself, first requested a cigarette." It was a Camel! For Bill is a Camel smoker of 12 years' standing, and knows that smoking a Camel gives you a quick "snap-back" in energy?

TRY THIS EXPERIENCE

If you have ever tried to clock 300 or 400 miles in one of this wrings the vitality out of a man. I felt pretty well day's drive you can imagine the terrific output of energy played out at the end of the race. My mechanic and I a racing driver crowds into "the 500" at Indianapolis. As turned to Camels for the first luxurious smoke that always Bill Cummings said himself after the race: "For 200 grueling laps... I had to average 104.863 miles an hour, the new world's record for 'the 500'... sometimes hitting it up to them steadily, too, because I know that Camels will never over 2 miles a minute...to win. 4 hours and 46 minutes jangle healthy nerves."

chases that tired feeling away. Any time I'm 'all in' I know that Camels will give me a 'lift' in energy. I smoke

in increasing energy quickly when worn out This "energizing effect" in Camels, long recognized by

Camel smokers, has recently been studied and confirmed by a famous research laboratory in New York. It is harmless, refreshing. You'll like Camels-a matchless blend of costlier tobaccos. You can "get a lift with a Camel" as often as you wish. Camels never get on your nerves, no matter how many you smoke.

Camels are made from finer, MORE EXPENSIVE TOBACCOS -Turkish and Domestic-than any other popular brand
