The March Of Events

France Protests

The French, who are known to have been joyfully watching Chancellor Hitler's trouble and triumphs across the Rhine, today grew serious and had their ambassador in Berlin deny that they'd started it all. The denial was made in answer to charges in the Nazi press that the late General Kurt von Schleicher had dealings with France.

Strikers Killed

Blood covered the waterfront in San Francisco yesterday as fighting reminiscent of World war battles raged. Two men were killed as strikers and police fought it out over an area a mile square, in hand-to-hand combat, with pistols, and with tear gas.

Withdraw Marines

Franklin D. Roosevelt, on one of the most important good-will tours a U. S. official ever took (though he calls it a vacation) was in Cape Haitien, Haiti, yesterday. There he assured the little brown folk that American marines would be promptly withdrawn. He made a brief address, partly in French, at the Union club, and conferred with the president of Haiti.

Siamese Marriage

One of the Siamese twins, Violet Hilton, wants to get married, but the law can't see it, because she's joined to her sister. Two states refused licenses; but Charlotte makes the front pages today with the promise of the Mecklenburg registrar of deeds to issue a license there.

Plans Revised

Greenwood county, which has been asking a \$2,787,000 PWA grant to build a power plant, in opposition to the Duke Power company, yesterday announced that it would revise its plans. A hearing on the case has been cancelled and the Duke formal protest delayed.

Dry Campaign

Tugwell Declines

Dr. Rexford Tugwell's inability to accept the invitation of the North Carolina Young Democrat clubs to speak at Asheville on July 28 throws the program askew and leaves the convention without a speaker. At first, the invitation to Tugwell was construed as a slap at Senator Bailey, but Bailey said this week he wouldn't oppose his coming here.

Industrial Alcohol Control Unit Will Stay In Charlotte

Bureau Begins Survey With View of Opening Branch Office, but Queen City Unchanged

WASHINGTON, July 5.—The bureau of industrial alcohol of the treasury department has begun a survey of all regional offices and the field generally with a view of opening branch offices, if necessary, but no move is contemplated that will disturb the Charlotte regional office of the Carolinas, it was stated today by Assistant Director Millard.

When told that reports were out that T. E. Patton, in charge of the regional office, had asked for space in the federal building at Raleigh presumably for the purpose of moving his headquarters there, Mr. Millard said: "Charlotte appears to be the logical location as long as the region remains the same, and moreover, we are not asking recommendations from officers in charge."

Paint Applied To Seaboard Stations

You would hardly recognize the old freight station at the Seaboard depot, built soon after the tracts were put down from Lincolnton to Rutherfordton. A new roof has been put on and the brick side walls have been painted. Also the comparatively new passenger station on the north side has been painted and otherwise improved in appearance.

B. Warren, secretary of the North Carolina State Teachers' association, after he and State Superintendent A. T. Allen had conferred with the relief administration as to early allocation of funds.

The sum will be in addition to the half million dollars received two months ago to aid "week school units" in the state, and

Cleveland Budget Set at \$176,405; Tax Rate Is Same

Slight Changes Made In General Fund

36 Cents Tax Rate Remains Lowest In State; Abandon Plan To Get Health Officer.

The county commissioners yesterday re-edited their budget, making slight changes, and setting up the sum of \$176,405.34 to run all departments of the county government during the coming fiscal year. This amount covers salaries of all officials, office expenses and debt service.

Township Rates Vary
At the same time, the commissioners gave final approval to the estimated tax rate, again setting the general rate at 36 cents—lowest county basic rate in the state. Township and school levies, which vary widely in the several communities, are not changed from last year and of course are to be added to the county's basic rate.

In the budget, the commissioners set up the sum of \$950 as salary for the county agent, declining to comply with the request of the state to appropriate \$1,200. The state agreed to furnish an assistant county agent if the county would spend this amount. The assistant now here will be withdrawn.

Cut Health Budget
Another reduction is from \$4,600 to \$3,800 in the health budget. The commissioners have abandoned the plan to obtain a county health officer, having been informed that they would at the same time be compelled to maintain a county physician.

Welcome news was the report of the board of equalization—J. B. Nolan, W. J. Arey and E. L. Campbell—which has been revaluing properties throughout the county. The report shows an increase of \$75,000 in taxable property in Cleveland.

The commissioners labored long over a number of bills and approved payment of a number, amounting to approximately \$2,000. The three commissioners, Joe E. Blanton, Lester Herndon and J. R. Morris have been working faithfully for several days on financial matters and other plans for the new fiscal year.

Cleveland Farmers Neglect Checks

Most persons despise to answer letters but most letters you get are from people who want something from you.

So here's an old one: County agent Shofner reported yesterday that a number of cotton growers have been written to and told to come get their reduction money, but they haven't paid any attention. He is sending out a second letter today. Only about 200 checks of the 3,000 for Cleveland farmers remain to be distributed.

Official Figures Reveal Second Primary Cost \$312

That's What Cleveland Paid To Vote Again In Representative Contest; First Primary Expenses Came To \$570.

This money was spent for printing, registrars' and judges' fees and for the services of the board of elections in order that 3,353 voters might cast their ballots to decide between Ernest Gardner and J. B. Smith for the Democratic nomination for the state legislature.

Hypnotist And Magician Coming

Faysoux And Evan To Give Entertainments For A Week Here Next Week.

Beginning on Monday, July 9th, Faysoux, the hypnotist, and Evan, the magician, will give entertainments each evening beginning at 8:30 o'clock in a tent to be erected in the second block on S. Washington street. The show is coming under the auspices of the American Legion, a part of the proceeds to be used in financing the Legion's Junior baseball team.

On the opening day, Faysoux, a native of Gaetonia who has given performances in Shelby before, will drive an automobile while blindfolded. Then he will hypnotize a subject at 2:30 and hold complete sway over the subject.

In addition to the magician and hypnotist, there will be an old fiddlers' convention, minstrel and vaudeville acts.

Mecklenburg And Forsyth Refuse To Take Over City School Debts

Two North Carolina counties, Mecklenburg and Forsyth, yesterday declined to take over the school debts of their county seats and court battles to settle both disputes are imminent.

Mecklenburg county cannot be required to take over the city of Charlotte's \$1,708,000 school bonded indebtedness, J. Clyde Stancill, county attorney ruled yesterday.

Mayor Arthur Wearn, informed of Mr. Stancill's opinion, declared the city attorneys, Bridges & Orr had ruled the county could be forced to take over the debt and added that the city council would start mandamus proceedings to require the county to assume the debt in event the board of county commissioners refused to accept it.
