

Nearly 600 Attend Ellenboro School

Prof. Price, Head of School For Six Years—Compared Now With Old Education.

(Special to The Star) ELLENBORO, July 26.—The Ellenboro school opened Monday morning with Prof. Curtis Price beginning his sixth year as head of the school, and when nearly 600 students assembled to begin their studies for the year.

Professor Price who spoke before the students and parents at the opening exercises pointed out that the type of education needed by students today is and should be different from the kind of education given to the parents when they went to school because the boys and girls of today will live in a different age in the future than we are living in now.

With a department of vocational agriculture, a department of home economics and with the service of a full time music teacher along with the regular high school subjects the school is well equipped to give as good opportunities for study as any school found in rural sections of the state.

Counting the music teacher the school now has nineteen teachers compared with thirteen five years ago.

Relieves Headache Due To Constipation

"Theodore's Black-Draught has been used in my family for years," writes Mrs. J. A. Hightower, of Carthage, Texas. "I take it for sick headaches that come from constipation. When I feel a headache coming on, I take a dose of Black-Draught. It acts and my head gets easy. Before I knew of Black-Draught, I would suffer two or three days—but not any more since I have used Black-Draught."

Members Were Compelled To Go To Sandy Run Church In Early Days; Shillings Used In 1772

(Extracts from history of Sandy Run Baptist Church, prepared by E. G. Whitaker.)

From the best information we can find, Sandy Run church was organized in 1771. While one writer puts the date later than this.

Elder Drury Scruggs says 1771 is the proper date, which we think is correct. (We get this information from Logan's history of churches.)

We do not find any church record from 1772 to 1782, but we find a record which says in large letters, Church book and dated 1782 and reads as follows: "A register of the brethren and sisters names belonging to Sandy Run church" and gave the names of 120 men and women that are members and it is not reasonable to suppose that a church just organized would have that many members.

The church building was first located about one and a half miles north of the present site, or near where the Seaboard railroad crosses the creek from which the church took its name. We do not find any record stating this, but this is accepted as being correct. On the third Saturday in May 1783 the record says Brother W. M. Wilson and Brother James Buchanan were ordained as deacons.

Compelled to Attend. At the January meeting 1783 the church made a ruling that all male members attend their regular meeting unless they had a good excuse. On the third Sunday in July 1783 the good ladies of the church came to its rescue as to money matters, as they have many times since then. Six ladies gave each one-half pound of thread and six ladies gave each one-half pound of twisted thread. This thread was woven into cloth at Brother Wilson's. The cloth sold for 5 shillings and 3 pence and the money was turned over to the church treasurer. We do not find the names of any one spoken of as pastor of the church, but at the February meeting 1784, we find where one brother makes comment on Brother Logan's sermon, and we take it to mean that Brother Logan might have been the pastor, there is no other name given than Brother Logan.

On the third Saturday in February 1786 Brother Hausen Hatrill was chosen and set apart to the work of deacon. On February 1786 Brother Camp took on himself the care of our church and that at the November meeting 1786 12 men and women joined the church, were baptized and the Lords supper administered. Many of our members had a part in forming of the Baptist association. On Saturday before the third Sunday in October 1788, the church appointed Brother James Buchanan to go to Brother Crawford's meeting house on Tiger river to join union with the several churches. On the third Saturday in January 1789 delegates were elected to the Reedy river association. Mention is made each year of delegates being elected to the association but there is no church mentioned or any name of any association given.

In April 1793 the church received minutes of the association and distributed them in regular order. On Friday before the first Sunday in July 1796 Alexander Davidson was ordained as a minister. On the first Saturday in December 1797 an offering was taken for the support of the gospel which amounted to 99 shillings. Sandy Run church was once a member of the Bethel association, a body organized in 1779. In 1800 she was one of 14 churches lettered from the Bethel association to form the Broad River association.

Chaplain Forced Out In Parole Expose

RALEIGH, July 26.—Resignations of Loomis Goodwin, State Prison chaplain, morale and welfare officer for about 12 years, and T. B. Leake, a prison guard, have been accepted by Chairman E. B. Jefferson, of the State Highway and Public Works Commission, on the ground that the two had accepted gifts from a prisoner for work they have done in securing clemency for him.

The opinion of lawyers is that President Roosevelt may suspend the operations of the bill at any time before 1936.

Farm officials said, however, they had taken no stand in the matter and that growers who want the bill set aside would have to petition the President direct. They said they were going ahead with plans for application of the legislation which levies a tax on all cotton sold this year in excess of approximately 10,400,000 bales.

IN 10 OUT OF 15 POWER TESTS NEW GULF GAS WON 1st PLACE. LOADS LIKE THIS—on steep mountain grades tax the power of any gasoline. But in 10 out of 15 power tests Gulf won first honors. See chart below. (All tests certified by a Notary Public.) RECENTLY, 33 gasolines competed in power tests made on famous American hills from Massachusetts to Georgia. Object? To see which of various gasolines bought at local service stations in each test area could take a car and heavy load farthest up mountain grades before the motor stalled. The motor was kept in high gear. Results? Gulf won more of these power tests than 32 other gasolines combined? Study the chart below. Then drive to any Gulf station—and see for yourself that there's more power in that Good Gulf Gasoline!

DRIVE IN AND TRY A TANKFUL! EACH OF THE COMPETING GASOLINES is indicated on the chart by a letter—A to Z6. Note that Gulf gas was uniformly best! Other high-ranking gasolines varied widely in different tests.

HOW 33 GASOLINES RANKED (IN ALL TESTS TO DATE) All gasolines tested, except a few "bad grade" brands, sold for approximately the same price as that Good Gulf. Each brand is denoted by a letter.
