Mr. and Mrs. Webster Padgett and Mrs. C. L. Padgett of Gastonia visited relatives here Sunday.

Mrs. Roy Robinson of Gaffney, S. C., spent Tuesday with her parents, Mr. and Mrs. J. E. Sepoch.

### Cleveland B. And L. Adds Insurance Feature on Stock

Announces Insurance Protection to Shareholders to Protect Them In Case of Death.

Announcement of a plan of insurance for stockholders of the Cleveland Building and Loan association of this city was made today by J. L. Suttle, secretary and treasurer of the association. This plan was worked out with the Security Life and Trust company, of Winston-Salem, with W. Grady Southern of that company, originator of the special insurance feature. Mr. Southern will be here for several days to assist Mr. Suttle and his associates in the installation of the plan.

Mr. Suttle in a letter to the stockholders, making the announcement, told of the essential feature of the plan, whereby the borrowing stockholder may at small cost insure his life for the unpaid portion of his building and loan stock. This guarantees, Mr. Suttle said, that the mortgage would be paid off immediately at death, thereby leaving the family of the stockholder a home free of debt. To the investment stockholder, the insurance provides for payment in cash of the full par value of the stock immediately at death. Premiums may be paid at the offices of the association along with regular installments on stock.

Mr. Southern, in commenting on the flexibility of the plan, pointed out that it is adaptable to those whose stock has been running for several years as well as to new subscriptions. He said that the idea originated with building and loan officials who have from experience seen the need for such a feature. "We have merely taken this idea," Mr. Southern said, "and applied our experience to the working out of a practicable plan that has appeal to borrower and investor alike."

### Palmer Buys Handsome Funeral Car

Jack Palmer's Funeral Mortuary has added a handsome new Henney funeral car to its equipment. It was brought from Freeport, Ill., this week by Mr. and Mrs. Palmer, who went to the factory on the train and drove the car back, a distance of over 900 miles. The car opens on both sides and the rear and is the very latest in design and conven-

### Gold in Piedmont Beckons Miners

U. S. Geological Survey Reveals There Is Still Pay Dirt In 500 Old Mines.

By M. R. DUNNAGAN

RALEIGH, April 2.—Gold deposits in Piedmont North Carolina, although worked for more than a century, still holds out future hopes, conclusions set forth in a report on investigations by the U. S. Geological survey through a greater part of 1934 show.

The report covers examinations

of some 500 gold mines, old and new, in North and South Carolina, and was prepared under supervision of J. T. Pardee, who was also in charge of three field parties, H. J. Bryson, state geologist for North Carolina, and Stephen Taber, geologist of South Carolina, cooperated. The examination was made at the request of the state department of conservation and development and of the N. C. Mineral conference, of which A. B. Whiting, Charlotte, is chairman.

In its conclusion the report says: "Despite the fact that gold mining in the Piedmont region has been carried on for more than 100 years, the deposits have not been exhausted. The cream of the deposits—that is the richer and more

accessible parts—have been skimmed, but even yet a rich stratum or pocket is found now and then at the very surface.

"In estimating the future possibilities of the region it is convenient to consider the materials underlying the gold-bearing areas by horizontal layers or zones—namely, a zone of 200 feet deep measured from its general surface, a zone next below 300 to 600 feet thick, and below a third zone of unknown depth."

North Carolina is credited in the report with the first recorded gold production of the United States during the years 1804-23 which amounted to \$47,000 in value.

### Loray Mill Sale To Firestone Co. Gets Official O.K.

Consideration Not Stated, But Original Cost of Gastonia Plant Was \$5,500,000.

GASTONIA, April 4.—The sale of the large Loray plant of the Manville-Jenkes corporation of Manville, R. I. to the Firestone Tire and Rubber company of Akron Ohio, was revealed and ultimately confirmed yesterday following the recording, in the office of the Gas-

ton county register of deeds, of the deed of sale of the property.

The deed conveying the entire Gastonia properties of the Manville-Jenkes corporation, was made out by the Manville-Jenkes corporation to the Firestone Cotton Mills, Inc., a subsidiary of the Firestone Tire and Rubber company.

The consideration involved in the deal was not stated in the deed and was not available from any source. The original cost of the property was in the neighborhood of \$5,500,000.

The purchase includes the Loray mill, one of the largest mills in the south, more than 600 tenant houses in the Loray mill community, and other minor pieces of property. No statement was available today

from any official of the Firestone interests as to the company's plans with regard to putting the mill into operation.

It was generally supposed the Firestone would begin, possibly an early date, the operation of a plant in the manufacture of fabric which has been the product of the mill for the past several years.

Harvey S. Firestone is in Florida at the present time, and could not be reached today for a statement regarding his plant with respect to the newly acquired plant.

It was expected that an official announcement of the plans of new owners of the mill would be forthcoming from headquarters within the next several days.

# A Message To Our Shareholders

## ANNOUNCING

### A New Service Feature

## That Will MATURE YOUR BUILDING AND LOAN for You

### If DEATH Prevents Your Doing So

Through a plan we have worked out with the SECURITY LIFE AND TRUST COMPANY, of Winston-Salem, N. C., you may at a very nominal cost, insure the unpaid portion of your Building and Loan stock so that should you die before it matures, the full amount will be paid IMMEDIATELY to your estate.

**FOR EXAMPLE**

Take Age of 30 years  
the Cost Per Share  
of \$100 Is As  
Follows:

FIRST YEAR	8 cents Per Month
SECOND YEAR	7 cents Per Month
THIRD YEAR	6 cents Per Month
FOURTH YEAR	5 cents Per Month
FIFTH YEAR	4 cents Per Month
SIXTH YEAR	3 cents Per Month
TO MATURITY	2 cents Per Month

The Average Cost Will Be  
Approximately 5 Cents  
Per Month.

To the BORROWING SHAREHOLDER . . . this insurance GUARANTEES that the mortgage will be paid off immediately at death, thereby leaving your loved ones a home FREE FROM DEBT!

To the INVESTING SHAREHOLDER . . . this insurance does immediately at death what you would have done if you had lived to complete your payments . . . IT MATURES YOUR STOCK IMMEDIATELY. You may guarantee funds for the education of your children or for other equally worthy objects by subscribing to a few shares and insuring your future payments against death.

This unique plan is especially adapted to the needs of installment shareholders and the cost is so small that a shareholder can hardly afford to be without the protection it offers. For your convenience we have made arrangements whereby the small monthly premiums may be paid at the office of the Association along with your regular Building and Loan payments.

We have added this feature for your convenience and safety, and in line with our constant policy to extend every reasonable service to our present and prospective shareholders. It is available to those between the ages of 10 and 65 years who can give an acceptable health certificate, and may be added to shares previously subscribed to, as well as to new subscriptions.
