ARMY BUYS One Thousand Three Hundred and Sixty-Seven Westinghouse Refrigerators

Economy of operation and the FIVE YEAR warranty — the All Steel Construction of Cabinets together with the Sealed Troupe Proof Mechanism were the big factors in the Government's decision in buying WESTINGHOUSE.

Seven of the other largest makers competed for this order but it was awarded to Westinghouse on the Merits of the Refrigerator after an exhaustive test of all seven of the largest makes by Government experts.

They were all put into service in Government barracks, camps and hospitals and a test taken each day, week and month.

The Westinghouse operated cheaper, required no service and was therefore selected out of the seven makes.
