

Kinston Attorney To Oppose Bailey

GREENSBORO, May 10.—It was learned here yesterday from an authentic but unquotable source that John G. Dawson, Kinston attorney and long-time servant of the Democratic party, quite likely will announce his candidacy for the United States senate in opposition to Josiah W. Bailey, of Raleigh.

Dawson, according to The Record's informant, has recently been called upon by a number of delegations from over the state and asked to enter the race. It is reported too, that Dawson already has received pledges of support of a substantial nature from 93 of the 100 counties.

The Kinston man has long been in public life. He is a former speaker of the state house of representatives and a former chairman of the state Democratic executive committee. It is known that he has many friends in the west and central sections of the state, and he has lived all his life in the east.

Just Ten Years Ago

(Taken From The Cleveland Star Of Friday, May 8, 1925.)

A. P. Weathers, known to hundreds as "Uncle Pink" will be the next mayor of Shelby, while John P. Toms, superintendent of the Eastside mill will represent ward 1; M. D. Hopper, farmer, will represent ward 2; John P. Schenck, Jr., secretary treasurer of the Lilly mill, will represent ward 3; and T. W. Hamrick, jeweler and present alderman will constitute the board of aldermen for the next two years, as a result of the election held in the court house Monday. There were 1,505 votes cast in the election out of 2,000 registered.

Washburn and company, hardware dealers, one of the long established business firms of Shelby, owned by S. A. Washburn and sons, has been sold to Will V. Metcalf and Mial W. Tiddy, the business to continue at the same stand under the name of Cleveland Hardware Co. Washburn & Co. will continue the distribution of petroleum products and maintain an office in Major Hopper's store next door to the hardware.

In the near future the Cleveland County Medical society plans to hold open meetings to which the general public will be invited and helpful advice will be given, informing the common public how to note signs and symptoms of disease and methods of prevention.

The meeting of the Cleveland county board of education held Monday was featured by the approval of one school election and the refusal of another. The one approved calls for an election upon a \$20,000 bond issue for Belwood and St. Peters, and the one refused was for an election to vote on a 30 cent tax in No. 8 for Fairview and Delight.

Mr. C. C. Blanton, president of the First National bank is offering two scholarships, one to a boy and one to a girl from the Shelby high school, these scholarships carrying tuition in any college or university the winners might choose.

Miss Rosa Lee of the Shelby hospital staff will be the first graduate of the institution when she will be awarded her diploma and pin on Tuesday night, May 12th at appropriate exercises to be held in the nurses' home. Miss Lee is from Anson county and had been in training under Miss Ella MacNichols of the Shelby hospital at Wadesboro before the Shelby institution opened, so she came on to Shelby to finish her course.

Manufacturers Ask Appointment Of Dictator for Cotton Industry

WASHINGTON, May 9.—A special cabinet committee Tuesday's heard a proposal from three prominent manufacturers for appointment of a dictator for the cotton textile industry, while a fellow Iowan challenged the farm program of Secretary Wallace.

The rating controversy over the cotton textile industry also flared in the senate, as Senator Gerry, Democrat, Rhode Island, pleaded for equalization of wages between north and south.

Meanwhile spokesmen for the special cabinet committee studying conditions in the textile industry, denied vehemently charges that governmental press accounts of the proceedings amounted to direct censorship, although admitting that witnesses had been requested not to give copies of their statements to the press until the conferences were concluded.

Hammering steadily away at the cotton processing tax and wage differentials, a delegation of Massachusetts senators and house members, accompanied by manufacturers and representatives of labor, demanded wage equalization, removal of the processing tax, protection against Japanese imports and regulation of production.

The suggestion for a dictator for the industry was made in a brief submitted to the cabinet committee by C. F. Broughton, president of the Wamsutta mills of New Bedford, and Nathaniel M. Mitchell of the Barnes Textile associates of Boston, Mass.

They proposed creation of a three-man commission to regulate production, one to represent the southern manufacturers, one to represent the northerners and the third to be selected by the heads of leading engineering colleges. This third man, to serve as chairman of the committee, would be to the industry what Kennesaw Mountain Landis is to baseball.

In addition, if deemed necessary, they would have appointed a textile machinery re-adjustment corporation, operating under the textile planning commission, already described to handle the problem of obsolescent machinery, using funds supplied by the reconstruction finance corporation.

Meets every need of Carolina Car Owners

JUST as famous Model-T back in 1925 won the hearts of Carolina's car owners because it was an economical, dependable car over any type of road, so the modern Ford V-8 is winning car owners today in the Carolinas because it meets their every need.

It is not surprising that this newest Ford V-8 with its fine car performance, big car roominess; with safety-glass all around, all-steel body, comfort zone riding and streamlined beauty should cost even less to own and operate than its famous predecessor of ten years ago. Ford has always aimed to give car users the biggest value possible.

Ford is the only car in America which water-cools not only the complete cylinder walls, but also the upper half of the crankcase. This unique 5 1/2 gallon cooling system reduces cylinder wear and greatly lowers oil temperature in the crankcase. This means greater oil economy and is seconded by directed, air-flow, crankcase ventilation which reduces corrosion, lessens oil dilution and cuts sludge formation to a minimum.

See for yourself the comfort and roominess in this new car—its almost effortless handling which brings you to the end of a day's journey refreshed. Get the thrill of that 8 cylinder feeling at first hand. You'll agree the new Ford V-8 is the biggest dollar value ever offered by the Ford Motor Company.
