Was To Have Died On July Twelfth

thelby Prisoner Gets Reprieve; Last Hope is Action By Governor Ehringhaus

Another depay has extended the hife expectations of Louis Sentel!.. The Cleveland county man, convictted of the murder of Florence Jones. was to have died on July 12, but has been granted a reprieve because of construction work under way at the prison.

Four prisoners were scheduled to die on that day, but it is likely that only two will be executed. There has never been a quadruple execution in the history of the state, and only twice have three condemned men been electricuted in one day.

Another Reprieve George Whitefield, convicted of New Postmaster George Whitefield, convicted of ty, was reprieved along with Sen-

Three prisoners are to die August To Serve Grover 9. A total of 25 condemned prisoners are now on death row, two short of an all-time record.

To Spend 15 Days at Camp Glenn.

Shelby's Company K, 190th infantry, one of the crack militia units of the state, left Saturday afternoon for its annual encampment at Camp Glenn.

Commanding officers making the trip are Capt. Peyton McSwain, 1st Lieutenant Henry C. Long and 2nd Lieut. Andrew W. McMurry.

Seek Championship "We hope to take top honors on the rifle range," said Captain Mc-Swain, "and we're depending on Jerome Spangler, Bynum Cook and Willie Williams to be regimental boxing champions in their respec tive classes.

Approximately 3,000 enlisted men and 260 officers of the North Carolina National guard will attend 15day camps of instruction during July and August, Adj. Gen. J. V. B. Metts announced today.

The men will attend the encampments pursuant to an act of the ational fense act requiring, in adlition to home training, each organisation to go into a 15-day field training period a year. The act also requises that 60 per cent of any state organization take the training in order to participate in federal funds.

The board of aldermen this week delves into the browwrinkling problem of preparing the city budget for the year.

Whether the tax rate of \$1.05 will be raised, and whether the special school district No. 38 rate of 43 cents will be upped, are questions undecided today-but the board opes to avoid boosting the rate Maye Be Increase

Yet, to balance the proposed expenditures and to meet mean osses, they may have an increase. The budget for last vear was \$261,476.68, for the operation of all departments, and the navment of bonds and interests. At the and of the fiscal year, as Mayor Sim McMurry turned over the books to the new administration, he left a bank balance of \$16,000. That's a far ory from the county's big account of \$100,000 each on hand.

Two revenue losses ass faced and must be met some way. First, there's a 16 per cent seduction in light and power rates to the conumer, which, when worked out in relation to the city and the Duke Power company, means almost a 30 percent reduction in revenue from that source. Then there is the loss due to removal of "corporate ex-cess" by the recent legislature. That will amount to about \$5,700, about twice as much as was estimated.

Would Avoid Raise

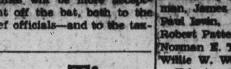

With so many proposed PWA and WPA projects before them, the WPA projects before them, the board looks tenderly at the tax rate and hopefully at the budget. The aldermen are trying, they said, to make ends meet without alling on tampayers to con
