### Co-Ops Essay Contestants

Pictured above are the four district winners in the eighth annual cooperative essay contest of the North Carolina Cotton Growers Cooperative association who will compete in Raleigh on Monday, August 19, for the state championship and first prize of a one-year college tuition scholarship. They were selected in a series of school, county and district elimination contests in which thousands of rural high school boys and girls participated. Subject of the contest this year is "What a Unified Program of Cooperative Marketing and Cooperative Purchasing Can Mean to the Farmers of North Carolina."

### TURNIPS ARE USED AS DAIRY RATIONS

RALEIGH.—Turnips are being recommended as a substitute cow feed for dairymen who do not have enough silage to carry their herds through the winter.

Turnips are palatable, nourishing, and easily digested, points out John A. Arey, extension dairyman at N. C. State college.

For feedings this coming winter, he says, the purple top turnip is probably the best variety to sow now. The seed should be in the ground by August 10, he adds.

The seed bed should be well pulverized. Then 500 to 600 pounds of high grade fertilizer per acre should be drilled broad cast into the soil. After being sown, the seed may be covered lightly with a weeder or a small brush.

On fertile, moist soils, a yield of six to eight tons of turnips per acre can be expected, Arey states. On less favorable soils, the yield will naturally be somewhat less.

Enough seed should be sown to provide each average size cow with 25 to 35 pounds of turnip roots each day during the months when silage is customarily fed.

After the turnips have been harvested, they may be protected from freezing by removing the tops and storing the roots in a cellar or by placing them in a hill as is used for sweet potatoes.

If the roots are chopped into small pieces just before feeding time, the cows will find them easier to eat and there will be less danger of choking. Feed the turnips just after milking time to avoid getting any of the turnip flavor in the milk.

### Cleveland Club Chooses Officers

Annual election of officers of the Cleveland club was held Tuesday

### Fur Goodness Sakes!

There will be no censors at the Art Association ball at Rockport, Mass., and here Freida Compris gives a preview of the type of costume to be worn by the celebrants.

night when W. J. Arey was elected president to succeed Stough Wray. George Wray was elected secretary-treasurer.

Other officers were Chas. R. Eskridge, vice president; Jesse White, A. M. Hamrick, Dr. H. C. Dixon and W. H. Harmon, board of governors.

### SOUND BANKING IS COOPERATIVE...

ONE of the two main functions of commercial banking is to supply credit to business, industry and individuals on a mutually profitable basis.

Good loans react for the prosperity and welfare of the community. Poor loans tend to retard its progress. This bank is actively seeking loans that measure up to those standards of banking practice which experience and observation have proved essential — so that the bank, the borrower and the community may all profit.

When cooking anything with a strong odor, put a small pan of vinegar in the stove or on the stove and there will be no scent of cooking in the air.

The average normal temperature of the human body is 98.6 degrees Fahrenheit.

How One Woman Lost 14 Lbs. in Three Weeks

Husband Lost 12 Lbs.

Mrs. J. H. Valentine of Freeport, N. Y., writes: "I lost 14 lbs. with Kruschen and my husband took off 12 lbs. in 3 weeks and intends keeping up the good work."

I think Kruschen is simply wonderful. To take off fat easily, SAFELY and HARMLESSLY—take one half teaspoonful of Kruschen in a glass of hot water in the morning before breakfast—cut down on fatty meats, butter, cream and rich pastries—it is the safe way to lose weight—slightly fat and one bottle that lasts 4 weeks costs but a trifle. Get it at Cleveland Drug Co. or any drugstore in America. If this first bottle fails to convince you this is the safest way to lose fat—money back.

But be sure and get Kruschen Salt—imitations are numerous and you must safeguard your health.
