

Bank Deposits Up 24 Per Cent Report Shows

RALEIGH, Oct. 18.—Very few states in the union show greater increase in deposits in banks for the year ending June 30, last, than was recorded by the North Carolina banks, which increased their deposits 24 per cent in the year, while increases for the nation as a whole were only 12.5 per cent. Commissioner of Banks Gurney P. Hood states:

All deposits in North Carolina banks as of June 30 were \$295,464,000, of which \$151,574,000 were demand deposits and \$89,947,000 were in time deposits. Capital funds of North Carolina commercial banks insured with the Federal Deposit Insurance corporation had a book value of \$44,446,000, while cash in vault and other items in their reserve accounts reached \$100,955,000, and their loans and discounts amounted to \$112,023,000.

Of the commercial banks included in the summary 44 were National banks and 10 were state banks members of the Federal Reserve system, the former reporting to the office of the comptroller of currency and the latter to the Federal Reserve board, while the remaining 194 state banks reported direct to the FDIC.

Debs Launch Social Season

Opening of the social season in New York brings to the fore a new crop of debutantes, among whom Virginia French, right, sister of Mrs. John Jacob Astor; Medora Roosevelt, upper left, distant cousin of the president, and Mary Olive Winslow, lower left, are socially prominent. More than 300 of Gotham's "blue book" registerites will have their coming out this season.

Thousands of Pounds of Seeds Collected By WPA Employees

HIGH POINT, Oct. 18.—Over 5,000 pounds of forest tree seeds have been collected by two crews of WPA labor employed by the forestry department of the Soil Conservation Service, it was announced today by J. H. Brillhart, junior forester, under whose supervision the seed collection work is being carried on.

The forestry department began seed collection work October 1 with a crew of 25 WPA laborers. Seed of mimosa, tulip poplar, white ash, box elder, persimmon and walnut have been collected thus far. Up to the present most of the seed have been collected in the Randleman, Kernersville, Freemans Mill

and High Point communities. Collection of the seed of western catalpa, redbud or Juda tree, hackberry, hazelnut, green ash, beech, hickory, pecan, gum, oak, sumac, and short leaf pine is to be made when seed are located, Mr. Brillhart said.

Tree seeds are cleaned in High Point by a crew of 10 men and are then sent out to one of the Soil Conservation Service nurseries, located in Statesville, Chapel Hill and Wadesboro, to be grown for the forest planting requirement of the Soil Conservation Service.

"The seed collection activity of the forestry department has proved very satisfactory," says Charles H. Flory, chief forester. "Seeds that were collected at this same season last year and planted at our city lake nursery have grown into splendid seedlings. Some of the walnut and oak seedlings to be used on this area are twelve to fifteen inches in height."

Most of the people are about up with their cotton picking and some are making preparation for fall sowing. About all of the potatoes in this section have already been taken up and stored away. People in this community have a generous supply, even though the weather was dry and hot during the summer months.

Mr. and Mrs. Olin Whitworth of Waco, visited Mrs. Whitworth's parents Mr. and Mrs. David Beam last Sunday.

Among those visiting at the home of Mrs. Lucinda Smith Sunday were Mr. and Mrs. Bemus Smith and son, Wray Austin, of the Marys Grove community, Edwin Smith of Greenville, S. C., Charlie Wallace of near Ross Grove church and Mrs. R. C. Beattie and

Carolina Lagging In Road Program

WASHINGTON, Oct. 18.—North Carolina appears to be lagging with its highway and railroad crossing program as compared with other southern states, it is revealed by a statement of the works administration. The report says that to date highway projects have been approved for funds under the four billion dollar works fund calling for an expenditure of \$205,000, the smallest sum approved for any State except New Mexico, New Hampshire, and Vermont.

In regard to grade crossing elimination, it is stated that projects have been approved upon which \$424,000 will be spent, but no highway or grade crossing elimination contracts have been awarded.

Under the emergency relief act, North Carolina was given \$4,720,173 for highways, roads and streets, and \$4,823,958 for grade crossing separation and elimination, a total of \$9,544,131, from which only \$629,000 is approved, so far as getting projects under way is concerned.

No More Half Seeing

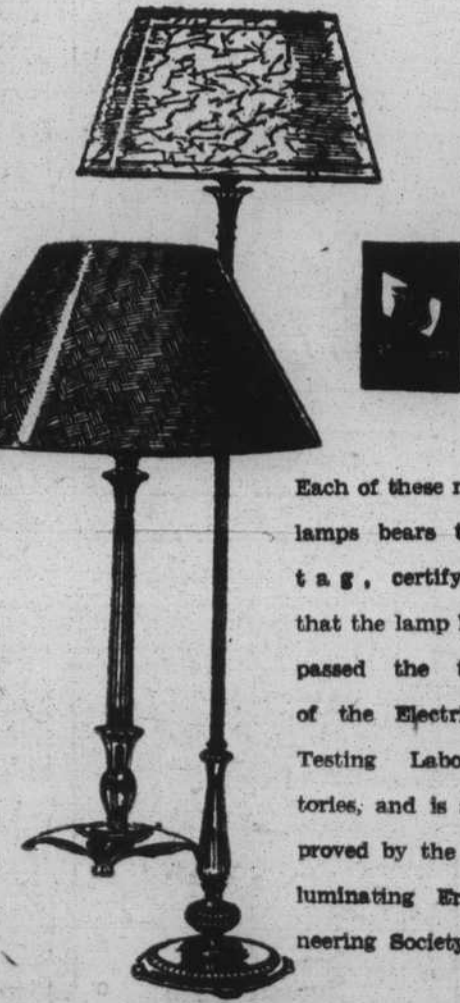

The New MILLER I. E. S. Better Sight Lamps

Featured in 42,000,000 advertisements in the leading American magazines this Fall . . . have important features not found in ordinary lamps. With them you and your children, can read and work without the slightest eye-strain—which means better seeing, better eyes, and longer, better use of the eyes. Not only perfect to see by—but delightfully decorative, nice to look at.

An opal bowl reflector under the shades diffuses the light, softens shadows, and sends enough light to the ceiling for general illumination. The inner shade has a specially treated white surface of high reflecting value and it is broad enough to distribute the light over a wide area.

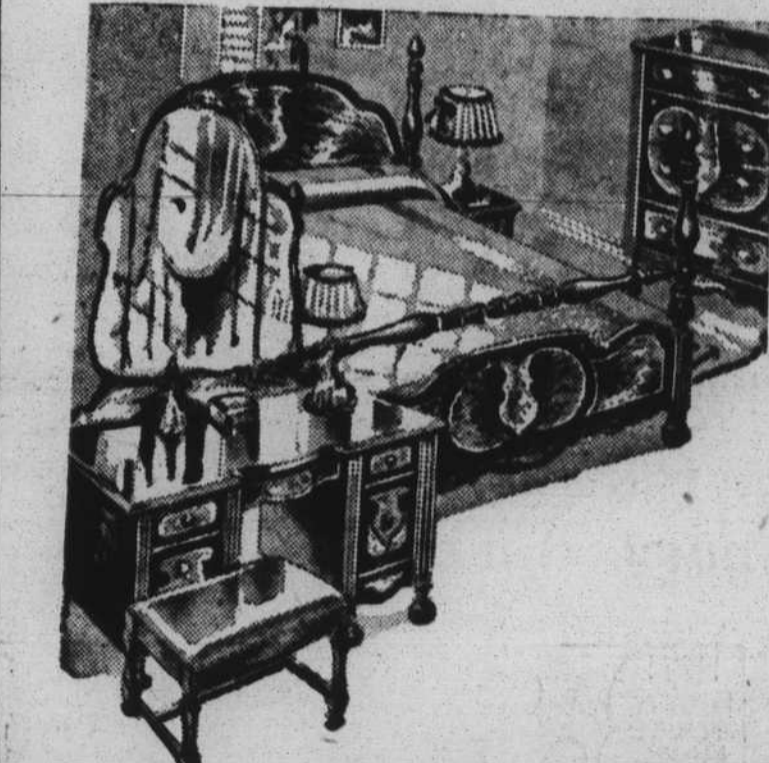

Each of these new lamps bears this t a g , certifying that the lamp has passed the test of the Electrical Testing Laboratories, and is approved by the Illuminating Engineering Society.
