Gantt & Co. Says

When the men who founded the Roberts, Johnson & Rand Shoe Company wrote the slogan—

"STAR BRAND SHOES ARE BETTER"

—they meant it. That statement became a policy from which they have never deviated. Those men had vision. They knew that as long as there was a consuming public, QUALITY MERCHANDISE would be in demand and from the time that statement was first uttered to the present day, they have been doing that very thing—making STAR BRAND SHOES BETTER.

We have our new fall stocks of Star Brand Shoes—complete in every detail—in sizes for every member of your family... and in all the leading styles for fall and winter 1935! Come in and let us fit your family with these Quality Shoes.

Invaders Face Shortage of Water

It is the task of a large corps of men to sink new wells in the wake of Italy's advancing troops in Ethiopia to provide the invaders with their all-important water supply. Water piped from one of the new wells is being tested, above. Shortage of water has been held as serious a threat to the Italian campaign as their Ethiopian opponents

No-Drinking Plan Is Well Received At Woman's College

DAVIDSON, Nov. 2.—The anti-drinking campaign at Davidson college football games this year has brought forth favorable comment from all sections of the south. A statement of policy, evolved after conference among leading members of the student body and faculty, is read at the beginning of each football game over the public address system in the stadium. The statement reads, "It is traditional on the Davidson campus that we have no drinking. Our guests at football games are particularly requested to refrain from violating in this important matter the wishes of trustees faculty, students and friends of the college." With the reading of this notice at each game since the South Carolina contest, there has been a great deal of applause, led by the Davidson college student body, who unanimously indorsed statement before it was read at a game.
