Is Really Here

Said the 80 More, Says C. M. Baber, Some With WPA And Some Private.

Prosperity is here, if the volume of business at the local re-employment office in charge of C. M. Baber is a good indicator.

During the past week Mr. Baber aided 80 men and women to find part time and permanent employment, and said today that he could place at least 80 others with the requisitions he has on hand.

1,681 Are Active
In the active files of the office there are now 1,681 men and 560 women making a total of 1,681 in all. This is several smaller than the 1,686 the week before, indicating that several have found permanent employment.

A breakdown of the 80 indicates that 22 are new applications, 53 are renewals, four are re-registrations and one a transfer.

Private Jobs
Mr. Baber placed 56 with the WPA last week. Of these one was a woman, added to the clerical force at the court house. Twenty-four were placed in private jobs. A total of 11 were cancelled.

In the state jobs were found for 1,402 regular workers and 1,210 workers on relief projects by the N. C. State Employment service for the week ended October 25. Morning Cotton
LETTER

NEW YORK, Nov. 6.—Despite a fairly substantial amount of trade buying, foreign and domestic, the market continues to feel the effects of the hedging sales. World demand for American cotton gives promise of expanding materially judging by the improvement in goods business abroad and the betterment in the general situation at home. Reports indicate that temperatures reached freezing in the northern tier of the western belt states. Demand for the actual south apparently shows no abatement. The situation as we see it favors the constructive side and when hedging increases we believe higher prices will be seen.—E. A. Pierce & Co.

Chairman Of Republican National Committee Says Office Gained Is But A Forerunner Of 1936 Results

(By ASSOCIATED PRESS)
WASHINGTON, D. C., Nov. 6.—Downfall of the Democratic party in 1936 was forecast today by Chairman H. P. Fletcher of the Republican national committee on the basis of yesterday's elections. In a formal statement he referred to the election results as "but the forerunner of what will happen next year."

During the sweetness of victory, scored in assembly elections in the Empire state, Republican leaders said today they saw a turn in the tide for 1936, but Democratic chiefs sharply disputed this.

Republicans topped their numerous scattered victories in state and

The last major case in the criminal court is on trial today and Judge Hoyle Sink, who is presiding, says the criminal docket should be completed today.

Thursday will be given over to uncontested civil cases, after which the two weeks turn will adjourn upon petition of the members of the local bar association.

Monroe Upton and Jack Blanton are on trial for the murder of Irvin McSwain who was found in the road with his wrecked car between Shelby and Pineview Lake on the night of July 13th. Upton and Blanton filled McSwain's car with gasoline and the three, all drinking, set out for a dance late at night at Pineview. Near the home of Lee Cabanis, a farmer, they quarreled and McSwain was struck in the head with a rock. They went on to the lake together.

Later in the night the McSwain car was found on the road, overturned, with McSwain pinned underneath. Dr. Sam Schenck, who performed an autopsy on McSwain in the hospital after his death testified that he died from a blood clot on the brain, received from a head injury. The jury will no doubt be called upon to decide whether the fatal injury was the result of the blow from the rock or from the overturning of the car.

McSwain lingered in the Shelby hospital for several days before he died.

Committee Abandons
Central Agency For
Separate RestrictionItalian Advances To Be Made On All Fronts
Tomorrow; Communique Reports
Deaths, Plane Destruction

(By ASSOCIATED PRESS)
GENEVA, Nov. 6.—The sub-committee of the League's general sanctions staff of 52 nations decided today that members participating in the economic boycott of the fascist government of Italy must themselves see to it that prohibited key products do not reach Italy by transit through nations not members of the league.

The sub committee had discussed the advisability of setting up a central agency but finally left this problem up to the nations. It also abandoned the idea of enforcing export quota restrictions to Italy's league neighbors not participating in sanctions. If there are abuses the sanctions staff could lay down such a system of quotas under which the sanctions nations would not export to non-sanctionist nations—more goods than had been exported in, say, a two or three year average period just previous to the boycott which would prevent Italy's obtaining the prohibited products by transit through non-sanctionist nations.

Truly "Black Face" Minstrel
Will Conclude Armistice Plans

Truly a "negro minstrel" and with all the color and interest of a "black face comedy act" a contingent of members of the local CCC colored boys will conclude the huge Armistice Day program here Monday by giving a concert in the court house at 7:30 p. m.

The program has been arranged by the American Legion and is being furnished through the efforts of CCC officials here. A good orchestra has been engaged to accompany the colored boys and it is believed the feature will attract a huge crowd.

This is the first public appearance that talent from the conservation camp has made public appearance, and from all reports there are some colored boys in the group who can tap and clog dance to perfection, and who can make musical instruments virtually talk.

Helping to arrange the program is Sergeant Stuart and actual director will be Edward Swenson.

The program will consist of two acts, the first opening with a chorus, "Swanee River," a solo, and a chorus, "Look Down that Lonesome Road," followed by a series of duet and quartet numbers. In the last act will appear harmonica, guitar and other instrument novelties, the Mills brothers singers and other choruses. The boys will try to sing many of the old favorite spirituals.
