No. 2—NIGHT DRIVING

IT'S JUST AS TRUE as can be that when people get expert at anything they're apt to begin getting careless about it, and that's what we have to look out for when driving our cars. For instance, we recently heard a group of engineers discussing night driving, and one thing they kept talking about was "over-driving our headlights."

Now that term seems to be a common one with them, but it's new to most of us. What they mean is that the distance we can see clearly by headlights is, of course, limited, and that we are apt to let our car speeds get beyond the point where we could easily stop within that limited distance. It's true that we naturally tend to go a little slower at night. But if we aren't careful we gradually get going faster than we realize, and that may get us into trouble. You see, momentum, the same force that tries to keep us from making turns safely; that cuts all kinds of capers on slippery roads... never sleeps! He works on the same old principles night and day. Darkness doesn't hinder him, but it hinders us.

Most modern headlights are pretty wonderful lights, but after all they don't give us the distance or clarity of vision that daylight does. So, on considerably shorter notice than in the daytime a vehicle or pedestrian can come out of the darkness. Almost before we know it we may have to slow down or stop for someone or something on the road... perhaps one of those big lumbering trucks that you barely see till you're right up on them; or a car whose tail-light has gone out... an unexpected curve, or what not.

Then after he does get the brakes working, it takes him another 18 feet to stop completely, even with the best brakes in the world and with good tires, under favorable road conditions. At least so we are told by the State Board of Public Works of one of the states which has made a very intensive study of drivers and driving conditions, and which has prepared the data for the above chart.

The important thing to realize is that distance needed to stop increases a great deal as we increase our speed. We just have to remember that when we're moving along in a car, we think by the foot, act by the foot and stop by the foot, and if we aren't careful, it's easy to get going faster than is really safe.

Now, just as engineers have told us how to operate in safety with our own lights, many experienced drivers have pointed out how to avoid trouble from other people's lights. They say that all we have to do, when passing other cars at night, is to stop looking at their lights and watch the right-hand side of the road.

The truth of the matter is that night driving can be just as pleasant and just as safe as day driving. But we have to be more alert and more careful.

GROVER PASTOR GETS POUNDING

Presbyterian Church Pastor Gets Thanksgiving Pounding; Personal.

(Special to The Star.)

GROVER, Dec. 4.—Miss Addie Moss left Friday morning for Rutherfordton where she will be on duty a few days in the operating room of the Rutherford hospital. Mrs. W. A. Randall, the Misses Reba and Dorothy Randall and Mason Randall of near Earl were callers Wednesday afternoon of Mr. and Mrs. Chas. Everette and Miss Meldona Livingstone. Miss Estelle Briggs, girl basketball coach in the Forsyth county schools, came Wednesday night for the Thanksgiving holidays as guest of Miss Agnes Weaver and Mrs. Maude Hamrick. Mr. and Mrs. H. B. Covington spent Thanksgiving day with Mrs. Covington's parents, Mr. and Mrs. J. D. Lattimore of Polkville.

GIVEN 24-MONTHS SENTENCE FOR ATTEMPTING SUICIDE

ASHEVILLE.—One of the most rarely invoked of all criminal laws was cited on the docket of Buncombe general county court Monday. Opposite the name of Dohland Spivey appeared the charge "attempting to take his own life," and the sentence was 24 months on the highways. He was given the alternative of getting out of town in two hours, and officers said he made good use of them.

YCRAPPY Savings

Teachers Strike For Back Salaries

BAY ST. LOUIS, Miss., Dec. 2.—(AP)—Teachers who said they were "without means for even the barest of necessities" walked out of Hancock county's score of rural schools today in a strike for back pay. The teachers are due three months' salaries for the present term and pay for one-half month of the 1934-35 session.

A. S. McQueen, county superintendent of education, said they declined to continue work unless they were paid and guaranteed "not less than 80 per cent of our salaries each month thereafter."

The county board of supervisors was to meet today, but it was not known what, if any, action it would take.

Born-On-Liner Baby Presents Problems

NEW YORK, Dec. 4.—(AP)—A baby girl born prematurely on a transatlantic liner near Quarantine was fighting in an incubator for the right to live under any flag. Six-day-old Magda Schitz has lost nine ounces of the three pounds and five ounces she weighed at birth. She arrived—an international problem child—two months early. Immigration men were puzzled about her nationality. (Her mother, Mrs. Paula Schütz, is a German citizen, and her father, Frank, an American.) They decided Magda is an American, since she was born in the three-mile limit.

SALE OF REAL ESTATE

Default having been made in the payment of the indebtedness secured by that certain deed of trust, dated December 6, 1924, executed by J. P. McDaniel and wife, Lester McDaniel, to J. J. Lattimore, trustee, said deed of trust being of record in the registry of Cleveland County, N. C., in book 144 at page 14. I will at the request of the holder of the indebtedness secured thereby, and under and by virtue of the power of sale contained in said deed of trust, proceed to sell to the highest bidder for cash at the court house door in Shelby, N. C., at 12 o'clock M., on Monday, December 23, 1935, the following described land, lying in No. 4 township, Cleveland County, N. C. Tract No. 1: Beginning at the corner of lot No. 2; thence along a new line, south 1/2° east 33.50 chains to a corner on Murrow's old line; thence south 88° east 6.10 chains to the beginning, containing 20 1/2 acres, more or less.

Tract No. 2: Beginning at a stone in Humphries' line, Harmon's corner; and runs with Harmon's line, south 87° east 16.50 chains to a stone in the forks of the road; thence a new line with a road south 63° west 23.25 chains to a stone in a road in Humphries' line; thence with his line, north 3/4° east 17.13 chains to the beginning, containing 14 acres, more or less.

Oriental Institute Laughs At "Curse"

CHICAGO, Dec. 4.—(AP)—The Oriental Institute of the University of Chicago said the "mysterious malady" of which its director, Dr. James H. Breasted, died this week in New York, was nothing more mysterious than a streptococcus infection.

Dr. Breasted's subordinates at the Institute said they had been so informed by the hospital in which he died. They ridiculed the notion that the cure of King Tutankhamen's tomb had anything to do with the malady.

Loring Slayer Is Sought In Winston

UPPER MARLBORO, Md., Dec. 4.—(AP)—The trail of possible suspects in the slaying of Miss Corinna Loring, young Mount Ranier, Md., stenographer, turned today to Winston-Salem, N. C. Reports received by officers that a man who quit his job at Washington navy yard after appearing for work with a scratched face about the time Miss Loring disappeared from her home on the night of November 4 had been seen in that city lead authorities to arrange to send an officer to the North Carolina city.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs the most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed. How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminators, thus cleansing the intestinal tract of the germ-laden mucus and toxins. Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and a diuretic, both of which are needed in the treatment of colds. Calotabs are quite economical—only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

WPA Workers Dig Up Peach Trees

RALEIGH, Dec. 4.—More than 19,000 diseased and dying peach trees in abandoned orchards have been dug up and destroyed in the last eight weeks by WPA workers in the commercial peach growing section of the state in the Sandhills, it was announced today by Commissioner of Agriculture W. A. Graham. It is estimated that 160,000 more trees will be grubbed out and destroyed before this project is completed. Approximately 140 WPA laborers are digging up the condemned peach trees under the direction of Charles H. Hearn, in charge of the phony peach disease control work in North Carolina. The diseased peach tree removal project is a Federal project in cooperation with the Division of Entomology of the State Department of Agriculture, of which Dr. R. W. Leiby is the head. The work of uprooting these dead or diseased peach trees is now being carried on in Moore, Scotland, Richmond, Hoke, Montgomery and Anson counties. Later on it will be extended into Mecklenburg, Gaston, Forsyth and Catawba counties.

Predicts Strikes If Mills Quit NRA

RALEIGH, Dec. 4.—(AP)—Major A. L. Fletcher, state labor commissioner, said this week North Carolina was faced with the possibility of labor disturbances which might reach serious proportions in the next few months if it is true that textile mills are lengthening hours and reducing pay. Fletcher said he had heard unofficially that at least one cotton mill chain in the state had abandoned the NRA regulation of a 40-hour week with 30-cents minimum hourly wage rate for a new schedule of a 50-hour week and 24-cents an hour rate. Nyl Pu, a young Burmese actor, appears opposite Miss Mitsuko Takao in "Daughter of Japan," a recent Japanese motion picture.

PROMINENT CONCORD MAN SAYS POW-O-LIN IS GOOD MEDICINE

Ed. Hendrix, Textile Expert, New Manager North State Breweries, Says Medicine Has Helped Him Very Much. Ed. Hendrix, manager of North State Breweries, 66 W. Corbin St., Concord, N. C., is a busy man. He doesn't have time to give out statements about medicines, but since POW-O-LIN, the remarkable scientific discovery that is helping so many in this section, proved such a valuable tonic, he is glad to add his word of commendation. Mr. Hendrix is well-known throughout this entire section. He has been superintendent of various textile operations here

anything. Like most busy men, he gave more attention to his business than he did to himself. Soon he found the ravages of faulty elimination were apparent and he set about to correct this distressing condition. POW-O-LIN was recommended to him and he received relief through its gentle and soothing action. His appetite has returned and he feels fit again. When such men as Mr. Hendrix declare a medicine to be meritorious, it is no use to delay longer if you suffer from constipation, kidney and bladder irritation, stomach distress, dizziness, biliousness, rheumatic pains and other serious and dangerous ailments due to faulty elimination. Take POW-O-LIN, build up your system to withstand winter's chilling blasts that brings colds and other ills that may beset one with a run down system. POW-O-LIN, the new, scientific medicine, is being introduced to
