Small Talk

By MRS. RENN DRUM

I must be the victim of a celebrity complex—and I suspect that a lot of other people are too—for I always take an inordinate amount of interest in celebrities in any line. I guess that explains the excitement I felt over an item I read the other day about Mrs. W. M. Boyce of Kings Mountain.

I don't even know Mrs. Boyce, nor does she know me, but that didn't keep me from being interested in the fact that she's a cousin of Stark Young, author of "So Red the Rose," and that, before marriage she was Miss Mildred Bedford of the Mississippi family of Bedfords which figured prominently in the book and the moving picture made from it.

In this connection I also learned last week, through a very attractive column written by Mrs. Zoe Kincaid Brockman in the Gastonia Gazette that Mrs. Steve Barnwell of that place is also a member of a Mississippi family closely connected with places and persons appearing in "So Red the Rose."

Shelby is never to be outdone, so I shan't be surprised if someone here pops up with an authentic claim to being grandchild to Huckleberry Finn.

Octavia Jeter, who was teacher in the Shelby high school for several years and is now teaching in Tarboro, put the weather man in his place last week when she filled in the corner card of a letter written to Betty Dall with: "After 3 days return to North Pole."

The Gastonia Gazette carries a column of negro news each issue and in one issue last week the entire column was a tribute to the late Violet Thomas.

Mrs. J. T. Beason has a white Persian cat that's in cahoots with the weather man. He loves snow and gets out and frolics in its like a

Governor Spotswood of Virginia, at the request of Governor Eden of North Carolina, in 1714 issued a proclamation ordering the arrest of all North Carolinians entering that province, in order to keep colonists at home to fight the Indians.

Her only request of her mother and daddy when they left for a trip to Florida this week was that they bring her a baby alligator or lizard for a new pet.

I love pets too, but I don't believe my heart's big enough to take in an alligator!

George Bernard Shaw, arriving in Miami, Florida, recently says "The United States has a good president and a bad constitution."

Oh, pshaw!

One finds much to read about Abraham Lincoln this week and I particularly like this expression of his philosophy which dignified honest labor—I like it enough that I think it worth repeating. In case you haven't read it this year:

"I hold, if the Almighty had ever made a set of men that should do all the eating and none of the work, He would have made them with mouths only, and no hands; and if He had ever made another class, that he had intended should do all the work and none of the eating, He would have made them without mouths and with all hands."

And, if I had ever heard how he won his reputation as a rail splitter, I had forgotten it: He and a friend claimed to have split 3,000 rails in one day. A good story but I have about as much faith in it as I have in the one about George Washington and the cherry tree.

The answer to that borrowed puzzle I used last week—ergo, is: And did you know, Lincoln, who is considered the greatest constitutional lawyer ever to occupy the president's chair had seven laws declared unconstitutional during his administration?

The answers to that borrowed puzzle I used last week—ergo, is: underground.

Small Talk

By MRS. RENN DRUM

Another cat in Shelby which is quite a personage is that big black rascal that Elizabeth Alexander is so attached to. His name is Ad, but they call him Rear Admiral Richard E. Byrd, for short! He's boarding with the Postons next door while the Alexander house is closed for the winter.

And no reference to pets could be complete without paying my compliments to Fritz Edwards, of the Henry and Jewell Edwards household. He (she or it, I forgot to find out which but I'm under the impression that the name is misleading) looks like an Eskimo Spitz but acts like the head of the family.

And there's Pearl Weathers, whose idea of heaven is a place where you can love a dog without the fear that some careless motorist will clip him off about the time the family accepts him and learns to love him too.

Pearl has loved six dogs with all the ardor of her pet-loving heart, only to have them come to some unfortunate end about the time she gets Mrs. Weathers—who doesn't love 'em so dearly—trained to accept them.

Her latest love, after the demise of the last dog, was a little turtle with the name "Pearl" painted on his shell, brought to her from Florida more than a year ago by Miss Jo Shaw, but he's also gone by the way of the dogs.

The Gastonia Gazette carries a column of negro news each issue and in one issue last week the entire column was a tribute to the late Violet Thomas.
