

Take Initial Steps To Launch First North America Air Route

By OSCAR LEIDING
LONDON—(AP)—With Germany's huge new dirigible, the Hindenburg, about to start for America, Great Britain is pushing preparations for her first big step in the commercial conquest of the North Atlantic.

An all-metal, two-decked flying boat and the unique "pick-a-bick" combination of a long-range seaplane and a flying boat designed to carry it into the air for launching, are being made ready for trial flights.

Experimental transatlantic flights, looking toward the cooperative regular service of the United States, Canada, Great Britain and the Irish Free State, are planned for the coming summer.

But not until 1938 do British air experts expect the projected regular service of four round-trips weekly to be in operation over what they call "the most valuable but by far the toughest" of the ocean air routes.

While workmen are speeding construction of the British transatlantic planes, a handful of airmen has embarked upon intensive training at the "air university" at Hamble, Southampton Water. Further groups are to take up the same work until 180 men will have been trained for the eventual regular service.

Full details of the new planes have been withheld by the constructors but it is reliably understood that the new flying boat is designed to be faster but lighter than the American clippers, used on transatlantic flights.

The British flying boat will be a high-wing monoplane with no external bracing of the wing. Floats, attached to the wing-tips will help preserve stability on rough water.

Four engines will be mounted in the leading edge of the wing, two on either side of the hull.

The boat will be entirely of metal, except for fabric covering small portions of the wing and the tail.

Ski Devils Plan Thrilling Stunt On Mt. Rainier

By FRANK GORRIE

TACOMA, Wash.—(AP)—The most daring athletic stunt of the Pacific Northwest is scheduled for April 19 when some 60 "mountain cowboys" will climb into the clouds 10,000 feet above sea level and attempt to ride their hickory staves down the treacherous slopes of Mount Rainier in the third annual race of the "Silver Skis."

They will travel up to 60 miles an hour in the wild dash to the finish mark, four miles and 4,000 feet below in Paradise Valley.

On the same diabolic course may be found old pieces of broken skis and poles—grim reminders of the two previous races in which several contestants "cracked up."

It will take from five to six hours to climb to the starting point at Camp Muir—and only about 10 minutes to steak back down. But it probably will be the most gruelling 10 minutes of skiing to be found in the United States.

The most dangerous hurdle of the chute is the steep dip of Panoramia, an ice cliff that drops approximately 500 feet at a 35 to 40 degree angle. It was the stumbling block of many entrants in the Olympic trials and national championships held at Rainier last spring.

Every type of race problem will be encountered on the long, swirling swoop. Neither stamina nor ability alone will win the event. Checking, transverse, quick turns and poling will be needed to keep skiers from hurtling off into space.

Roosevelt To Be No. 1 Fan Apr. 14

WASHINGTON—(AP)—Preceded by an enthusiastic crescendo from thousands of Senator fans, a dark, snub-nosed limousine will roll into the Washington ball yard on major league inaugural day here—April 14.

Sunk into the soft cushions of the rear seat will be an old Groton school outfielder—President Franklin D. Roosevelt.

The entourage, led by police motorcycles with screeching sirens, will sweep under the right field pavilion, past the players' bench and then halt by a box facing home plate.

Probably, as in the past, Mr. Roosevelt will doff his hat and wave to his fellow fans. In his box, most likely, will be Owner Clark Griffith of the Senators, and perhaps Jake Ruppert of the New York Yankees.

Floods Supported New Farm Program Saved CCC Camps

Came At Right Time To Emphasize Soil Conservation Erosion Work.

By HUBERT PLUMMER

WASHINGTON—As distressing and devastating as was the recent great flood in the east probably nothing could have happened that fits in more perfectly with efforts now being made to launch the administration's new farm plan.

As it has soil conservation as its basic principle, the tragedy afforded those charged with putting the plan into operation opportunity to point with telling force at what can happen in the wake of soil erosion and denuded farm lands.

One of the most striking things brought out in debate in senate and house on an agricultural program to take the place of the invalidated AAA was the skepticism among members of congress on the question of soil conservation.

It was alternately ridiculed, held up as merely a makeshift proposition to get around the supreme court's decision on AAA, and assailed as a typical "brain trust" scheme.

Administrators of the new farm program have lost no time in pointing to the disastrous flood in support of their contention that soil conservation is among the most important problems facing the country today. And they are being heard by a large audience.

Saved CCC Camps?
The same flood, too, is being credited by many here as having a great deal to do with the decision of President Roosevelt to rescind his recently issued executive order which would have closed 700,000 CCC camps on April 1.

CCC officials estimate that in the neighborhood of 35,000 members of the corps were pressed into rescue and renovating work during the period of the flood. Many came from between 200 and 250 of the 700 camps which would have been closed April 1 by the President's order.

Other factors enter into the president's decision to rescind his order of course. A rebellion among members of the house who were insistent that the CCC camps be continued in their districts had its effect.

No one denies, however, that the work of the CCC boys did during the period of the flood and the urgent need for their services in the task of rehabilitation had something to do with Mr. Roosevelt's decision.

About Florida Celery
That shipment of celery to members of the senate who voted against the Florida ship canal authorization continues to provide chuckles galore in senate cloakrooms.

The latest explanation why celery was chosen as the commodity to express appreciation for the senators' votes is that fresh water in large quantities is necessary for celery culture. Those opposing the canal have contended it would ruin the fresh supply with salt water.

One senator had served the Florida celery at dinner in his home before he realized the origin of the gift. He immediately ordered the remainder packed in a crate and sent to a Washington hotel.

"It was good celery, too," he says.

Big Flood Control Fund Predicted

WASHINGTON, April 3.—A concerted rush by senators and representatives to include their own projects in the \$300,000,000 flood control bill being drafted by the senate commerce committee today brought a prediction from its chairman, Senator Copeland, Democrat, New York, that it would be swollen into a \$500,000,000 to \$1,000,000,000 measure.

The prospect of a prolonged battle over the legislation was heightened by a warning from Senator Robinson, of Arkansas, majority leader, that he would oppose it as now written because it discriminated in favor of eastern states.

The house rules committee approved a rule giving right of way to a measure which would authorize the Reconstruction corporation to make loans totalling \$25,000,000 for rehabilitation and reconstruction in flood areas on security "to reasonably assure repayment" instead of "upon sufficient security" as at present.

Seven law students of the University of Oklahoma, all Democrats, hold seats in the state legislature and will serve at their second session next January.

Just Ten Years Ago

(Taken From The Cleveland Star Of Monday, April 5, 1926.)

Debating representatives of the Shelby high school upheld the record of Shelby debaters preceding them for two years and on Friday night were winners in the preliminary round of the state-wide high school triangular debate.

The team includes Miss Dorothy McKnight and Vernon Grigg, affirmative; and Miss Virginia Hoey and Miss Jennie May Callahan, negative.

The local high school baseball team has five straight contest this week, two of the games to be played in Shelby, beginning with a game with Cherryville Tuesday afternoon.

Kinston.—Judge G. V. Cooper, returning here from Shelby bestows a great honor upon Mecklenburg, Gaston and Cleveland counties. They comprise the most religious territory in North Carolina he says.

Announcement was made Saturday that T. W. Hamrick, immediately upon his recent return from Florida, had bought the Ward Arey home on West Marion street.

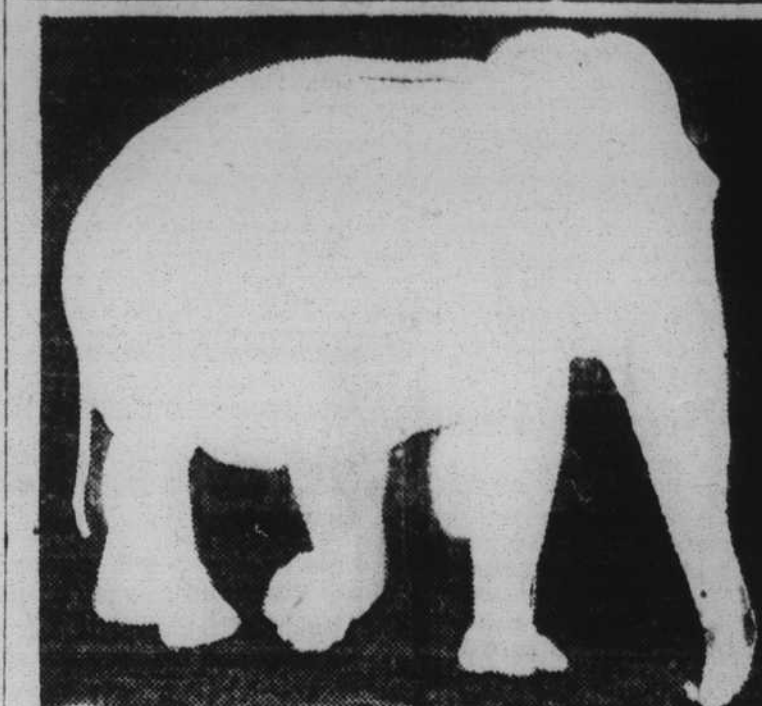

Mr. Hamrick verified the report of the sale. The price involved was said to be \$18,500. The residence is an 11-room structure which has been built about six years.

Mr. and Mrs. Earl Honeycutt announce the birth of a son on April 2 at the Shelby hospital.

Mr. and Mrs. Jack Palmer moved Friday afternoon into their handsome new brick home in Belvedere Heights.

Wiseman Kendall, city editor of the Rocky Mountain Daily Telegram, spent the Easter holidays here with his mother, Mrs. H. E.

DINING TABLE BRINGS \$271; CHAIRS \$65 EACH

CHARLOTTEVILLE, April 3.—All personal property and farm equipment of the late John Armstrong Chaloner were sold yesterday at auction at Merry Mills, near Cobham, by Joseph F. Kosman of New York, attorney for Mr. Chaloner for 20 years. Approximately \$5,000 was realized from the sale.

A mahogany dining table, once the property of Thomas Jefferson and the Randolph family, was sold for \$271, while Louis XV walnut chairs brought \$65 a piece. Kendall.

Miss Leslie Moss, teacher in the public schools of Rocky Mountain, spent the Easter holidays here with her sister, Mrs. John W. Doggett.

Mr. and Mrs. Oliver Anthony and baby son, Oliver, Jr., spent Easter with Mrs. Anthony's parents in Winston-Salem.

Swimming Coach Has Accident At Yale, But He Wins

NEW HAVEN, Conn.—(AP)—An accident cast Bob Kiphuth in the role of Yale swimming coach 19 years ago and the Eli never had cause to regret it.

For the Eli has established, under Kiphuth's direction, the greatest record of modern—or ancient—times in intercollegiate dual swimming rivalry.

Undeclared since 1925 in dual competition, Yale has scored 151 consecutive triumphs over the nation's outstanding college teams.

It was this record to which President James Rowland Angell referred recently when he reported to more than 2,500 graduates on alumni day that "the swimming team kept winning as a matter of course."

"My TERRAPLANE does more than most cars claim"

"It's 'tops' of all the cars I've ever owned."

IN our showroom, "owner talk" means more than "sales talk." We're content to let claims take a back seat while owners give you facts.

On performance, you needn't take the word of anyone but the man who knows how much easier his Terraplane handles in traffic... how much better it takes straight-aways or curves... how much faster it is on the get-away. His economy figures talk louder than any salesman's claims... even ours! He can tell you facts about Terraplane's long life that would sound boastful if we said them.

But even a Terraplane owner can't put into words just what it means to sit at the wheel of this car and drive! With the Electric Hand shifting the gears, your hands stay always on the wheel. Just a flick of the finger... and gears shift! And your front floor is all clear... Terraplane is the only low priced car with real comfort for three in the front seat... no gear or brake levers to stumble over!

Steering is truer. There's an amazing riding smoothness. At the brake pedal, safer stopping than you'll find in any other car, with two braking systems at your command... and still a third from the easiest handling parking brake you ever saw. You ride over the world's first safety engineered chassis... in a body really all of steel, with solid roof of seamless steel. On every side, something new to discover and enjoy. Stop in now and take this "Discovery Drive"... see for yourself what a change Terraplane has made in motoring.
