

# Way To World Peace Is Shown By \$5,000 Cantor Prize Essay

The great game of scouting is the way to world peace according to Eagle Scout Owen W. Matthews, 3rd, an able Sea Scout and Divisional Officer of Regional Scout Flagship "Columbia" and member of troop 83, Portland, Ore. Matthews is the winner of the Edna Cantor \$5,000 scholarship prize essay contest entitled "How Can America Stay Out of War?"

One of 212,000 entries submitted, Matthews' whole approach to his subject is based on his two weeks experience camping in a foreign country with 30,000 Boy Scouts from 16 different lands plus the friendships with foreign boys in the years that have followed.

**Veteran Scout**

Matthews, a veteran scout, has a long record reflecting his leadership qualities. Successively he served his troop as patrol leader, senior patrol leader and then junior assistant scoutmaster and he has had extensive experience at Camp Firethor, the camp of the Portland, Ore. Boy Scouts.

Matthews' winning essay follows: "My idea how America can stay out of war is based on my personal experiences."

"I am an Eagle scout and have been in scouting for seven years. Through scouting and other worthwhile youth movements is the way this can be accomplished."

"The spring of 1933 I heard of the coming Fourth International Scout Jamboree to be held in Goshuto, Hungary, and made my plans to attend. I went to the Jamboree and there found my solution for future world peace. While a member of this wonderful Jamboree I learned what true brotherly love meant."

"In Europe wherever we met a person in the scout uniform we knew he was our loyal friend and brother. Although unable to converse with some foreign scouts, their actions always bespoke friendliness."

"All boys at the Jamboree wanted to be friends and we made new ones every day. By actually living for two weeks with thirty thousand foreign scouts we learned that they thought and acted just as we did, even though their color and creed might be different. We loved these brother scouts as much as those in America. Throughout the Jamboree encampment covering many square miles was an attitude of friendliness and good will, no thought of enmity, everyone showing their permanent thought of creating world peace for the future."

"The real benefits from this Jamboree are being manifested as time goes on. I am corresponding with eight scouts I met at the Jamboree who live in the following countries, Estonia, Luxembourg, England, Austria, Persia, Syria, South Africa and Australia. We exchange stamps, songs, literature and various articles pertaining to our respective countries and thereby continuing our worthwhile friendship. After these contacts how could we ever want to go to war against each other?"

"If the United States government sent picked groups of youth to these international gatherings, expenses paid, it would open the eyes of youth the world over as to the futility of war. Upon their return to America they should deliver lectures in schools and to older organizations telling the thoughts of youth in regard to war with other countries. If taught in youth crime schools, as adults these boys will wholeheartedly disfavor war. Peace gatherings and encampments of youth from all countries will do more to further world peace than adult peace conferences held in some castle or other building."

"Stress the movement for intelligent voting at the polls, to see that the only people sent to congress are those who will do everything humanly possible to always vote to keep us out of war."

"If we teach our youth of today the crime of taking human life, as in war, they will vote in the future to never leave their own shores to fight against other nations."

"Thus America can stay out of war."

## Huge Bridge Span Is Lifted Into Position

NEW YORK, May 5.—The largest lift span ever installed on a bridge was raised into position in 16 minutes Sunday under the eyes of city officials, government engineers and curious thousands of spectators.

The span, 310 feet long and 93 feet wide, was floated across the Harlem river to its position as a unit of the Tri-Borough bridge which will connect the boroughs in Manhattan, Queens and the Bronx.

Cables were attached at high tide and as the subsiding water tightened them and let the span swing free from its supporting barges the hoisting to the position 35 feet above the river began. From this normal position it can be lifted to a height of 135 feet above the surface to permit shipping to pass under.

New York was formerly called New Amsterdam.

**Y.W.A. Study Course At B. S. College**

(Special to The Star.)

BOILING SPRINGS, May 6.—Y. W. A.'s of Boiling Springs college

have been very fortunate this year in having Miss Mary Currin of State Y. W. A. work and Miss Pearl Bourn of Southwide work to conduct a study course at the college to teach a study course for the past week.

The book taught was on mission, "Sharing With Neighbor America." Much interest has been shown in the study course and a good number are expected to take the examination and receive awards for the work.

WASHINGTON.—Because hills look greener far away, nearly 1,000,000 persons have taken to the open road since 1929. This was reported by Harry L. Hopkins, relief administrator, and he indicated that most of the wanderers have learned that their vision of a better life in distant parts is only a mirage. A majority of them did not improve their economic status by migrating, he said.
