Morning Cotton LETTER

NEW YORK, Sept. 14.—The ease with which the market absorbed hedging sales Saturday was quite impressive. Foreigners are showing more interest in the market and the prospect for good business in most textile lines encourages a rather substantial domestic trade demand. Speculative or investment participation is also broadening. The smaller crop will likely result in the peak of the movement being reached earlier than usual. Judging by recent action the market a good demand will be found on the seaboard. We believe the constructive side offers all the possibilities. —E. A. Pierce & Co.

Hordes Of Army Worms Threaten Large Amounts Of Late Cotton

From the east, west and south veritable armies of tiny worms were reported today to be advancing on Cleveland county crops with a possibility of doing some good but threatening late cotton with much damage.

The worms are close akin to the old-fashioned army worm which covered the county several years ago and which in several late seasons since have wrought havoc with growing crops.

Much late cotton which is said to need at least three more weeks growth for proper maturity is being attacked first, and on many farms the leaves are already averted as the hungry worms devour the tender

HITLER TELLS 170,000 HE IS READY

Memorial Address Full Of Defiance

Would Like To Gain Rich Russian Territory; Ready For War.

By The Associated Press

The entire nation of Germany is armed to the teeth and ready to defend a miracle—"the miracle of its own self-resurrection"—Reichsfuehrer Adolf Hitler told 120,000 uniformed Nazis and 50,000 spectators in a ceremonial tribute to World War dead yesterday.

The speech followed another address on Saturday in which the "mad monarch of Europe" voiced his readiness to expand Germany's physical territory. He told of his ambition to acquire part of the vast territory of Russia, the Ural mountains and Siberian tundras. "Germany must not die," he shouted.

"We Are Ready" In the memorial address he said, "Let no one be deceived. We are ready at any hour."

The distant tolling of church bells emphasized the Fuehrer's words as, speaking in the huge Luitpold grove, he dismissed with a phrase the material achievements of Nazi rule—expensive road building and claimed reduction in unemployment.

"Our miracle, however, was resurrection of a humiliated people," Hitler said. "That miracle consisted in the fact that one man arose (Hitler) who believed in the resurrection but that millions followed him and went the same way."

"That I found you, that you bore with me all these years—that was Germany's great good fortune," he said.

Emphasizing that the 120,000 uniformed men before him were only an "extremely small percentage of his 2,500,000 storm troopers, his 225,000 black uniformed "S. S." men, not to mention the nation's arma-

Humorous Sides Of The "Great Mistake" In The President's Passing

While missing the president was the most unfortunate and regrettable affair in Shelby's history, the incident made many funny situations and caused many wise cracks.

Rev. H. N. McDiarmid won the record for fast sprinting. He made it across the square three times in ten seconds for each lap. Then he lost his wind and quit.

One fat spectator, suffering with arthritis, entered the race. He made it across the court square once before he became exhausted. Then he stepped on his tongue and fell in the water fountain. Several corpulent women caught themselves on the brink before they tumbled in on him.

"Dam a town with two streets," said Charlie Keel. "I believe I'll move to Cherryville."

Carl Webb watching and waiting, shifting from one street to another as the report would come that the president was coming this way or that. His breath was about gone when he tried it one more time. Dr.

Slight Decline In Enrollment As School Parade Begins Again

Signs of relief which were perhaps mingled with tears of pride and joy as happy mothers hurried their children off to school this morning, scores of the youngsters beginning their first term.

A check at noon today indicated that the enrollment for the opening date is slightly under the enrollment on the first day last year. The total announced this morning by Superintendent Walter E. Abernethy is 3,037 as compared to 3,042 last year. The figures include the colored units in the city and at Zoar.

Earlier reports from the flying pair were heard at 10:05 a. m. after seven hours of silence. Both the Eastern Airlines station at Newark, N. J., directing the flight, and Press Wireless Incorporated reported hearing the radio telephone of the Merrill-Richman plane, Lady Peace at the same moment.

Neither station was able to make out what was being said although the voice was identified as Richman's. Static conditions garbled the attempt at conversation.

At the time it was established the plane should have been about 2,500 miles out from England, headed for Floyd Bennett field and a landing sometime after 4 p. m.

SAYS FORCES IN SPAIN MENACE

Sees Civilization In Danger Soon

Spanish Refugees Listen In Throne Room; Radio Spreads Speech.

(Copyrighted by The Associated Press.)

CASTLE GANDOLFO, Italy, Sept. 14.—Pope Pius XI in strong, passionate tones, gave his blessing before the whole world today to a militant defense against the "mad" forces of communism. Declaring these forces menaced in tragic Spain and elsewhere "the very foundation of all order, all culture and all civilization."

Pardons Killers The holy father nevertheless pardoned the Spanish killers of bishops and priests and called upon the constituted authorities of all nations to oppose the great evils with every remedy and barrier that is possible.

Sadly he foresaw utter chaos if "those who have a duty in the matter, do not hasten to repair the breach—if indeed it is not already too late."

Refugees Hear Five hundred Spanish refugees were in the throne room of the papal villa when the pope entered.

The Vatican radio station carried the address to the far corners of the world. In many lands the devout heard the plea for a militant defense which the pope acknowledged would be both difficult and dangerous for "it is only too easy for the very ardor and difficulty of defense to go to an excess which is not wholly warranted."

Fascist Warriors Take San Sebastian

SAN SEBASTIAN, Sept. 14.—(Copyrighted by Associated Press)—Fascist warriors completed their occupation of San Sebastian today, setting up a civil administration headed by the governor of Pamplona, provincial capital of Navarre. Strong lines of Fascist troops held the city from possible counter attack by defeated nationalists who fled before the invaders' advance yesterday.

Regin Recovery Military and civil authorities began speedy rehabilitation of public services which had been paralyzed for days during the siege.

Water and electric services were reestablished shortly after the invaders marched in. Officials estimated approximately 10,000 civilians and foreigners have fled.

Nationals, whose effort to prevent destruction of the city halted an amazing movement to burn the provincial capital, gathered their forces together, 500 miles southwest of San Sebastian.

An insurgent broadcast indicated future military moves by the fascists in a warning to King and Santander after midnight. The announcement declared they had decided to lay mines in the harbors.

Political Experts Watch Maine For Results In Today's Election

By The Associated Press Maine took its quadriennial place in the political sun today as citizens of the pine tree state voted in their state election.

Throughout the nation political experts were on the alert, watching for portents of the presidential outcome in November. There is much dispute as to how far Maine's election can be considered a "weather vane" of national sentiment but every four years the major parties seek to wring every last ounce of psychological advantage from it.

President Roosevelt visited the state some time ago to be followed by Governor Alf M. Landon who made a speech at Portland Saturday night.

One of the principal contests is between the Democratic governor Louis J. Brann and the Republican senator Wallace White, Jr., for the latter's senatorial seat. Governor, members of congress and other state officials also will be elected, presidential balloting in Maine as in other states will take place in November.

Voters of Massachusetts, New Hampshire, Wisconsin, New York and Michigan ballot tomorrow in state primaries.
