HIGH COURT UPHOLDS DECISION ON MINIMUM WAGE

DEMOCRATS TO START BALL ROLLING

Powell Calls Meet Thursday Night

Will Hear Radio Greetings From J.C.B. Hoey, Bailey And Others.

A trumpet call to all young Democrats in Cleveland county was sounded today by A. A. Powell, president, who is calling a county wide meeting here Thursday evening for a radio party and a general meeting, purposed to "start the Democratic wheels rolling before November 3."

The meeting will be held at 7:30 in the county courthouse and not only members of the club, but all young Democrats over the county, and those who are not so young—both men and women, are invited to come, says President Powell.

Greetings by radios will be heard from Governor J. C. B. Ehringhaus, Governor-Nominate Clyde Hoey, Senator J. W. Bailey, State Chairman Wallace Winbourne, and State Young Democratic Chairman M. Butler.

In the local meeting a short address will be made by John P. Mull, chairman of the county board of elections. Short talks will be made by Peyton McSwain, county Democratic chairman, Mrs. F. R. Summers, vice-chairman of Kings Mountain, and possibly others.

Special invitations are being sent to young women voters and women are being asked to attend the meeting. Mrs. Haywood Thompson is assisting in canvassing the county and in getting up precinct organization.

At the meeting Wednesday night details of the county and district rally which is to be held here on Saturday October 24, will be made. The planning committee is meeting tonight, according to President Powell. At the rally Clyde Hoey will make the main address and a crowd of 15,000 to 20,000 persons is expected.

Many Children Have Hookworm Survey Reveals

Deductions from a survey made here last month indicate that 480 children in the county are infected with hookworm and 320 with ascariasis (a similar intestinal worm) and that steps toward treatment should be made at once.

The survey was conducted by the Rockefeller Institute but the report was made here by J. H. Grigg, county school head, by the State Board of Health.

The Institute made a survey here several years ago and found the percentage much higher. The survey this year was made only among white children and the percentage was thought to be higher with colored children.

J. C. Hixon of the division of epidemiology of the board is asking the school to work toward the final elimination of hookworm. He said that is the only angle to work from now, as the county has no department of health.

Million Bales Are Exported

NEW ORLEANS, Oct. 12.—(AP)—Good times in the land of cotton appeared today to have become an actuality.

A big cotton crop has been more than half picked, the first million bales have been exported and the staple has gone on a market ranging from 11.50 to 12.25 cents a pound.

Estimated by the government at 11,609,000 bales this year's cotton production is the largest since 1933-34, but in that season prices were down between 9 and 10 cents a pound, rather than 12 cents, during the months when the cotton was marketed. If this crop is marketed at an average of 12 cents a pound it will bring nearly \$700,000,000. While the drought cut into the total yield in the western part of the belt the weather partially squared things by giving Mississippi, Louisiana, and the central cotton belt bumper crops.

Russia Dispatches Food To Loyalists And Gives Warning

Also Announce Collection Of 26 Million Rubles For Aid.

MOSCOW, Oct. 12.—(AP)—Russia dispatched her fourth food-laden ship to Spain Sunday while Soviet officials reiterated today demands that asserted aid to Spanish insurgents by Fascist nations of Europe be halted.

The all union council of trade unions announced that, in addition to the food, 26 million rubles have been collected to date for the aid of women and children of Spain's Socialist government.

Although Soviet officials were firm in their expressed determination to stick to their demands that the European non-intervention committee in London take action to enforce neutrality, alleged violated by Portugal, Italy and Germany, the government did not make clear what position it would adopt should the demand be ignored.

(The Russian charges that the three nations were aiding the Spanish Fascists were presented to a meeting of the neutrality committee in London Friday. The committee adjourned without definite action, after representatives of the accused nations denied vigorously that they were assisting the Fascist revolt.)

The steamer Neva, on its second trip, carried the food cargo from

Siamese Twins Sick While Here

The Godino Siamese Twins, one of the feature attractions of the Rubin and Cherry midway at the Cleveland county fair, only gave a few performances on the first and second days of the fair.

One of the twins was sick and since they are grown together, the show could not go on. He was treated for neuritis by Dr. D. F. Moore who instructed them on how to better protect their health. Dr. Moore found the twins to be jolly good fellows, very witty and able to speak English rather fluently. Their wives who are sisters, were with them here and appeared very attentive and interested in the welfare of their husbands.

"Without a doubt, rain or no rain, the 13th Cleveland county fair was the best we have ever had," Dr. J. S. Dorton, secretary said today. "And Saturday was a record breaking day for all time," he added this morning as he completed checking of details that followed the closing of the big event Saturday night.

"From all sources I could contact," he said, "we have estimated that a little over 100,000 persons attended the fair, and of that crowd, fully one half the number were here Saturday and Sunday night."

"The fair was an unqualified success with the exception of rain and finance. We didn't make any money, but I don't believe we will lose any. We are going to be able to meet the bills, and begin to get ready for next year."

"We will have an even greater fair next year. All the show people called it "the Little Worlds Fair" this time.

All checks for the \$5,000 in premiums have already been paid, and Dr. Dorton was this morning sending messages of thanks for cooperation to all heads of the 24 departments, to all attaches of the fair association and to the hundreds and thousands of persons who had the courage to brave the mud and rain of our fair."

Saturday was by far the most outstanding day of the fair. The AAA auto races in the afternoon

Today Is Memorable Date In History

Today, October 12 is the 444th anniversary of the discovery of the New World (America) by Christopher Columbus.

Any child above the third grade can tell that the date was in 1492 when the Genoese sailor who had been backed by Queen Isabella of Spain and accompanied by prisoners released from jails, first set foot on San Salvador. The place is now known as Watlings Island, one of the Bahama group.

Wednesday is the opening day for the Cleveland county negro fair which is said to have had the longest continuous run of any negro fair in North Carolina.

This is the tenth annual event and each year it has grown in the number and quality of exhibits and the size of the crowds. The fair runs for four days, starting Wednesday and closing Saturday night.

The high tribunal agreed to review or refuse to consider scores of cases brought to its bar.

It left until later decision as to whether it will decide on the constitutional act of the Wagner labor relations act by refusing to pass on a case attacking it.

Review Attack At the same time, however, the justices agreed to review an attack of the Virginia Railway company on the provision of the railway's labor act authorizing collective bargaining.

In other important appeals before it the tribunal acted as follows:

Refused to reconsider its decision holding unconstitutional the 1934 municipal bankruptcy act.

Passmore is 19 years of age and married. His wife was notified and came Sunday to be at his bedside.

Insurgent Armies Mass For Thrust

SPANISH, Oct. 12.—(AP)—A siege of cold rainy weather and the prospect of Russian intervention on the side of Madrid propelled the insurgent armies. Its leaders, holding the whip hand in the campaign against the capital with a solid arc-light front flanking it from the northeast to the southwest, massed their forces for a thrust they hoped would carry them into the city in ten days.

Militia men however assisted them actively on all fronts trying to mould their lines into a massive semi-circular defense inside the city walls and on the shorter radius.
