CERTIFICATE OF APPROVAL FOR AN INDUSTRIAL PROJECT

The Brunswick County Industrial Facilities and Pollution Control Financing Authority

(for Exide Electronics Corporation)
The undersigned, on behalf of the SECRETARY OF THE DEPARTMENT OF ECONOMIC AND COMMUNITY DEVELOPMENT of the State of North Carolina (the "Secretary"), pursuant to Section 159C-7 of the General Statutes of North Carolina and the regulations prescribed by the Secretary thereunder, DOES HEREBY CERTIFY, FIND AND DETERMINE as follows:

(a) The Brunswick County Industrial Facilities and Pollution Control Financing Authority (The "Authority"), a political subdivision and body corporate and politic of the State of North Carolina created by resolution adopted by the Board of Commissioners for the County of Brunswick, in accordance with Chapter 159C of the General Statutes of North Carolina, as amended (the "Act"), has filed with the Secretary pursuant to Section 159C-7 of the Act and the regulations prescribed by the Secretary thereunder an application for approval of its industrial project which is to be financed by not exceeding \$9,500,000 aggregate principal amount of its qualified small issue revenue bonds.

(b) The industrial project consists of the acquisition, construction, and installation of an approximately 200,000 square foot manufacturing facility and the installation therein of machinery and equipment, all for the purpose of manufacturing uninterruptible power supplies and related equipment (the "Industrial Project") to be located at Leland Industrial Park adjacent to Industrial Boulevard, Leland, North Carolina 28451. The Industrial Project will be owned and operated by Exide Electronics Corporation, a North Carolina corporation (the "Operator"), and will create employment for at least 95 persons in Brunswick County and the surrounding area.

(c) Public notice of the Authority's intention to submit its application for approval and the holding of a public hearing on the issuance of the qualified small issue revenue bonds and the Industrial Project was duly published in the manner required by the regulations prescribed by the Secretary and all comments received in accordance with such notice and public hearing have been considered by the Secretary.

(d) As required by the third full paragraph of Section 159C-7 of the Act, the Department of Natural Resources and Community Development has certified to the undersigned that the Industrial Project will not have a materially adverse effect on the environment.

Upon due consideration of the Authority's application for approval and the comments received with respect thereto and the receipt of the certification mentioned in paragraph (d) above, the undersigned hereby further CERTIFIES, FINDS AND DETERMINES, pursuant to Section 159C-7 of the Act and the regulations of the Secretary prescribed thereunder, as follows:

- The Industrial Project is an "industrial project for industry" within the meaning of Section 159C-3(11)(i) and thus an "industrial project" within the meaning of Section 159C-7(1).
- The Operator of the Industrial Project will not pay an average weekly manufacturing wage above the average weekly manufacturing wage paid in Brunswick County or which is not less than ten percent (10%) above the average weekly manufacturing wage paid in the State of North Carolina, but the Secretary has received (i) a resolution of the Board of Commissioners for the County of Brunswick requesting that the Industrial Project be approved notwithstanding that the Operator will not pay an average weekly manufacturing wage above the average weekly manufacturing wage paid in Brunswick County, and (ii) a letter from the Labor Force Development Section of the Department of Economic and Community Development to the effect that unemployment in Brunswick County is especially severe in that unemployment in Brunswick County has been measured at approximately 7.76% for the latest six-month period available at the time of the resolution mentioned in (i) above, thus, exceeding one hundred and ten percent (110%) of the unemployment rate for the State of North Carolina and that the unemployment rate for Brunswick County is at least six percent (6%), such that under the regulations of the Department of Economic and Community Development, the Secretary can approve the Industrial Project since unemployment in Brunswick County is "especially severe".
- The Industrial Project will not have a materially adverse effect on the environment.
- The creation of employment for at least 95 persons by the Industrial Project will be large enough in number to have a measurable impact on the area immediately surrounding the Industrial Project and will be commensurate with the size and cost of the Industrial Project.
- The Operator of the Industrial Project has demonstrated the capability to operate such Industrial Project.
- The financing of the Industrial Project by the Authority will not cause or result in the abandonment of an existing industrial or manufacturing facility of the Operator or an affiliate elsewhere within the State of North Carolina.
- The Industrial Project is hereby approved and this Certificate of Approval shall become effective as provided in Section 159C-7 of the Act.

IN WITNESS WHEREOF, the undersigned has executed this Certificate of Approval pursuant to delegation from the Secretary of the Department of Economic and Community Development in accordance with G.S. 143(b)(10)(A) on this 15th day of November, 1989.

Chamber Collecting Food To Give Needy Families

BY SUSANNE SARTELLE, EXECUTIVE VICE PRESIDENT South Brunswick Islands Chamber Of Commerce

On Thursday, most of us will sit down to an abundance of turkey and stuffing, cranberries and all the fixings of Thanksgiving dinner. Some of us will be fortunate to be surrounded by family. We will pause to give thanks for the many things in life that we take for granted day to day—health, family, jobs, housing—the things that we should be giving thanks for every day.

As we enjoy our overwhelming blessings, let us not forget the unfortunate ones who are thankful for much less. And let's vow to help make their holiday season a little brighter.

The chamber is accepting non-perishable food items which will be distributed to needy families. A small gift of food can make a difference for someone in need. Too, we remember that from those who have much, much is expected.

Thanksgiving is a time of sharing and counting blessings, and in our country, the blessings number higher than we can count. We can criticize our leaders without jeopardizing our lives. We can support and elect persons whose ideas are different. We can vote on issues which affect us, and we enjoy a free press.

We recently had the opportunity to exercise these freedoms, but did we realize what a great blessing it was to be able to do so?

We are thankful for America, where we can still dream...where we can get an education and soar to our expectations. We can choose the books we read, the jobs we work, the stores we shop in, and we can choose to be thankful.

Let's take a little more time than the usual "pause" to say thanks this Thursday.

SARTELLE

BUSINESS BRIEFS

Local Hospital Lab Profiled

The laboratory at The Brunswick Hospital, a 60-bed acute care facility at Supply, is featured in an article in the Oct. 2 issue of *MT ADVANCE*, a professional weekly for medical technologists.

The profile by Assistant Editor Carola L. Talone describes a five-year turn-around plan that has resulted in complete updating of all laboratory equipment and greatly improved and expanded services. Five years ago, the hospital sent out about 60 percent of its laboratory work to other facilities for processing.

In contrast, Laboratory Manager Cindy Champion says only 8 percent of current work is done by outside labs, even with an almost 200 percent increase in workload since 1984 from both in-house and referral sources. The lab now operates 24 hours a day.

The hospital is operated by Healthtrust Inc., which leases the facility from the Brunswick County Hospital Authority.

Learn To Take Charge Of Stress

Stress, Coping and Energizing is the topic of a Thursday, Dec. 7, seminar offered by the Brunswick Community College Small Business

Center from 6:30 p.m. to 9:30 p.m. The seminar is intended to be helpful to those in all professions, particularly stressful ones. May Craven, a professional speaker and trainer from Wilmington, will offer techniques to use daily to take charge of stress in one's life. She will teach practical coping skills that include relaxation techniques, staying in control and "mind un-boggling".

Energy renewal through attitude and exercises will be explained and demonstrated. Self-awareness of stress, including needs, desires and idiosyncrasies, will also be discussed. Mrs. Craven will look at how certain foods affect one's body in times of stress and the link between one's emotions and their physical health.

Participants will explore aspects of stress, including identifying stressors, burn-out, how stress works on the mind and body, and how stress relates to "A" and "B" personality types. Mrs. Craven will also offer tips on ways to cope with stressful organizational norms, policies and procedures.

The seminar is offered at no charge; however, pre-registration is encouraged by calling the center at 754-6961, 457-6329 or 343-0203.
