## March Health Inspections Reported

During March environmental health specialists with the Brunswick County Health Department inspected and graded 56 county restaurants, as well as other food service and lodging facilities.

Sanitation grades for restaurants and food or drink stands are based on a system of scoring where an "A" is given to scores of 90 percent or better; a "B" to scores of at least 80 percent and less than 90 percent; and a "C" for a score of at least 70 percent and less than 80 percent. The permit would be revoked for any establishment that receives a score of less than 70 percent.

Grades resulting from the March inspections are as follows

Restaurants: Bald Head Island Clubhouse, Bald Head Island, 90.5; Barnacle Bill's, Holden Beach, 90.5; Beck's, Calabash, 94; Becky's, Ash, 96.5; Bennett's Seafood Kitchen, Calabash, 90.5; Betty's Waterfront Restaurant, Holden Beach, 94.5; Bob's Pizza Shack, Long Beach, 91; Brunswick Community College Cafeteria, Supply, 97; Brunswick County Complex Cafeteria, Bolivia, 93.5; Calabash Seafood House, Calabash, 90; Calabash Seafood Hut, Calabash, 98; Capt. Louie's, Calabash, 95.5; Captain John's, Calabash, 95.5; Chart House, Southport, permit issued; Coastal Skating Center, Southport, 91.5; Cougar Pit Stop/DBA Boswell's Gas & Grocery, Boiling Springs Lake, 96.5; Country Cookery, Calabash, 95.5; Crabby Oddwaters,

Sunset Beach, 97;

Denny's Cafe, Ocean Isle, 96; Dockside, Calabash, 96; Dos Amigos, Ocean Isle, 93; Eastside, Calabash, 94.5; Edna's Kitchen, Long Beach, 94.5; Ginny's Chicken House, Holden Beach, 91.5; Haley's Seafood & Steakhouse, Calabash, 96.5; Islander, Shallotte, 90; Jones' Seafood House, Long Beach, 94; Larry's Calabash Seafood Barn, Calabash, 91.5; Lloyd's Place, Maco, permit issued; Long Beach Pier Restaurant, Long Beach, 92.5; Lucky Fisherman, Long Beach, 95.5; Maxton's Restaurant, Varnamtown, 96.5; McDonald's, Leland, 72.5; N.C. Baptist Assembly Conference Center, Caswell Beach, 96; Ocean Crest Windjammer, Long Beach, 83; Pearl Golf Links, Calabash, 93; Pizza Country, U.S.A., Seaside, 95; Port Charlie's Restaurant & Lounge, Southport, 91;

Quarterdeck Restaurant, Supply, 90.5; Reeves Fish Camp, Holden Beach, 93; Rhonda Kay's Cafe, Ocean Isle, 96.5; River Pilot Cafe, Bald Head Island, 93.5; Riverside at Calabash, Calabash, 91; Roberto's Pizza, Ocean Isle, 92; Round Table at the Gauntlet, Southport, permit issued; Sandpiper Restaurant, Leland, 93; Sea Captain Restaurant, Southport, 93; Senior Citizen Nutrition Site, Long Beach, 91; Service America Co. Southport, CP&L, 93.5; Service America Co., E.I. Dupont Plant, Leland, 94; Service America Co., E.I.Dupont: PD Plant, 95; Silverhill Grill, Holden Beach Road., 94.5;

Tavern on the Tee, Sunset Beach, 91.5; Twin Lakes Restaurant, Sunset Beach, 91; Western Sizzlin', Southport, 93.5; Winds Coffee Shop, Ocean Isle, 94.5.

School Buildings: Shallotte Middle, Shallotte, 90.5; Southport Primary, Southport, 90.5; Union Primary, Shallotte, 92; Waccamaw Elementary, Shallotte, 94.

School Lunchrooms: Leland Middle School, Leland, 92.5; Lincoln Primary, Leland, 93; North Brunswick High, Leland, 95; Southport Primary, Southport, 92.5; Waccamaw Elementary, Shallotte, 94.

Day Care Centers: Lee's Little World, 9 demerits.

Food Stands: Coastal Beverage, Calabash. 90; The Gauntlet, Southport, permit issued; Mr. Frosty's, Leland, 91.5; Service American Corp. CP&L, 92; Sharkey's Den, Ocean Isle, 98.

Lodging: Tradewinds Motel, Yaupon Beach, permit issued.

Meat Markets: Wilson's Super Market, Shallotte, 92.5

**Pushcarts:** Dennis Family, Coastal Auction, N.C. 179, approved.

Residential Care: Folly Group Home, Supply, 2 demerits; Lockwood Group Home, Supply, 2 demerits; Mary Moore, N.C. 133, no demerits.

## Supply Native Finds Role At University 'Exciting'

At UNC-Wilmington, perhaps one of the most exciting places to work is a the heart of the university-the chancellor's office.

For Ann Freeman, the newest em-

ployee in Chancellor James R. Leutze's office, it has been an exciting opportunity. "It's interesting to see how the whole university is run,"

Mrs. Freeman is one of three staff support people in the office.

She grew up in Supply, the youngest of six. Her father, Joseph Shaw, served as a radio technician during World War II. He returned home disabled, and was unable to work again before he died when Mrs. Freeman was just 6.

"There were a lot of hard times growing up," she recalled. "Since my mother couldn't work, we survived on my father's Social Security.'

After graduating from West Brunswick High School, she entered Cape Fear Community College (CF-CC) and decided to follow her sister's example and study secretarial technology.

"My sister was a typist," she said. "I used to love to watch her fingers move on the keyboard. I thought that was something I'd like to learn.'

In 1984 she carned a degree in applied science from CFCC and went to work as a legal secretary at a Wilmington law office. Four years later she joined UNCW's News Bureau.

"I got to meet and work with members of the local media," she said. "It gave me a chance to build contacts with people in the community.

In October she was promoted to a secretarial position in the chancellor's office. "I get to work closely with the Board of Trustees and other UNCW administrators," she said. "It's been interesting to work with prominent members of the community.'

She is married to Darnell Freeman of Wilmington. The two were married six months after they met at Cape Fear Community College. They have two children, Jayson, 11, and Brandon, 9.

Darnell Freeman works as a field representative for Carolina Power & Light and attends CFCC

"Darnell goes the extra mile to see that we get what we need," said Mrs. Freeman.

For both Ann and Darnell Freeman, working hard to get ahead has been a lifelong pursuit.

"I want my children to see and understand that work and determination do have their rewards."

Keith & Jill Warner

won't be bringing one of the units at its Brunswick Nuclear Plant near Southport back into operation this week as initially planned.

Both units will instead be kept off-line for additional work that had been scheduled later in the year, according to a spokesman for the utility.

Units 1 and 2 were shut down last Tuesday to allow employees to bring sections of walls in the diesel generator building up to earthquakeresistant standards, said Elizabeth Bean, a CP&L spokesman.

Unit 2 was scheduled for a planned outage starting in May. Once the bolt work is completed in the diesel generator building, that unit will remain out of service until the end of May to allow work on its turbines

Last week, CP&L had planned to bring Unit 1 back into service about a week. Instead, Ms. Bean said to take full advantage of the outage and do as much outage-type work planned for later as can be done now

"That is so when we bring it back up we can keep it up for the summer," she said.

Workers had found bolts that might not withstand the force of a severe earthquake, a design specification for such facilities set by the federal Nuclear Regulatory Commission.

CP&L decided to shut down the reactors until the bolts could be fixed so the plant would not be found in violation of NRC rules.

"We don't want to operate out of compliance; management thought bringing the plant off line the prudent thing to do," said Ms. Bean.

The bolts secure brackets supporting the thick concrete walls around the plant's diesel generator. Some of the bolts found didn't meet size

Tom RABON

**District Four Commissioner** Retired Postmaster, Lifelong Resident, served on Social

Services Board, Hospital Board and Election Board, member of

specifications. Others were broken, missing or inoperable. "We found several cases out of hundreds and probably thousands of bolts," she said."We want to do some maintenance because we detected some vibration," said Ms. Bean,

The problem with the bolts was spotted by CP&L employees and repair work was begun while a special NRC inspection team was on-site.

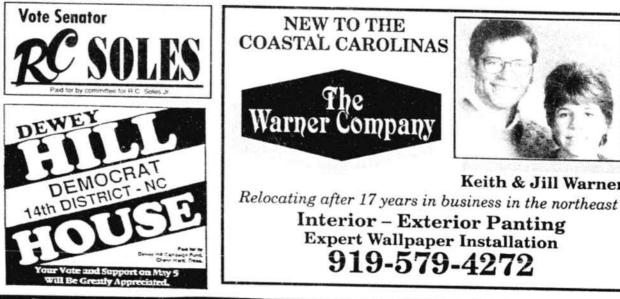

"We told them about it," said Ms. Bean. "They're aware of everything we're doing.

The NRC did not direct CP&L to shut down the units while the bolt problem was being addressed. The Unit 2 shutdown for mainte-

nance work was timed for spring, when demand for electricity is low-

Unit 1 had been scheduled for an inspection outage in June, which has been moved up.

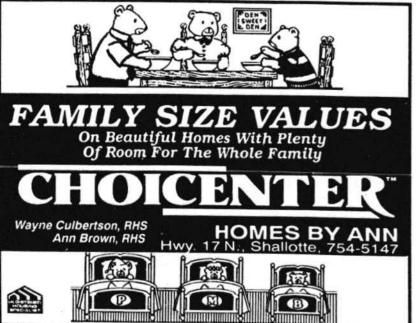

Among other work CP&L plans to get done while both units are down is replace transformers on electrical bus bars, which Ms. Bean said should result in improved electrical reliability during the peak demand period this summer.

Ron Taylor's opponent has been in the Legislature for nearly a quarter of a century, 24 years. The North Carolina Senate is not a life time job. It's time for a change.

Elect Ron Taylor Thank you for your vote and support on Tuesday, May 5th.
