75 YEARS YOUNG!

He has never been to a picture show in his life!

It would be interesting to know how many there are who have had the opportunity to attend picture shows and who haven't.

Further, he has never tasted a drop of liquor, never drawn an oath, and never, in his own language, "commercially desecrated the Sabbath."

He spends his winters in Florida to escape the cold of his Connecticut | share, in that the money going to | home, occasionally taking a trip

World Wheat Supplies

Production of wheat in the porthern hemisphere, not including Russia and China, is expected to be about \$25,000.000 bushels less than last year, and the crop of the southern hemisphere about 105,000.000 bushels less, according to

the government survey, says Wallac Farmer. The world carryover appears to be about the same as last year. The

United States carryover is estimated at 290,000,000 bushels, which, together with the estimated production of 491,000,000 bushels, indicates a domestic supply of 781,000,000 bushels. With a

normal domestic utilization of about 625,000,000 bushels, this would leave a carryover next July of about 156,000.

000 bushels if there are no net imports or exports.

Thirty Million Miles of Ford Economy

More Miles. Faster miles. Greater economy . . . that is the story of the Ford V-8. There are conclusive figures from owners to show that it is the most economical Ford car ever built.

A particularly interesting and complete report of costs comes from a national fleet owner who has owned 854 Ford cars which have run more than thirty million

miles in business use. 175 were Model T Fords which were run 5,017,075 miles. 599 were Model A Ford cars which were run 24.041,632 miles. 80 are Ford V-8 cars which have been run 2,982,886 miles.

This owner's cost records show that Ford V-8 cars cost 12% less to operate than the Model A Fords and 31% less than the Model T Fords. And they covered more miles per month! The monthly average for the iel T Fords was 1509 miles. . . . For the Model A Fords, 1886 miles. . . . And 2571 miles for the Ford V-8.

Each year the Ford car gives you more in value and performance and costs you less to operate.
