

### Manure And Legumes Double Crop Yields

Crop yields on the farm of R. C. Williams of the Rock Rest community in Union County, have been doubled in the last few years by the growing of vetch in winter, lespedeza in summer, and the adding of manure secured from the feeding of beef cattle.

"Mr. Williams has only 141 acres in his farm," says L. I. Case, animal husbandman at State College. "Most of the cleared acreage is devoted to small grain and feed crops with about ten acres set aside for cotton. Mr. Williams finishes a car load of beef cattle each winter. In doing this, he grows all the coarse roughages needed for the animals but buys cottonseed meal. He has observed a steady increase in the fertility of his land each year to the point that his acre yields are doubled now over what they were when he began his present program."

### Sea Comes To Aid The Meat Hungry

Offset Higher Pork and Beef With Inexpensive Fish, Which Is Plentiful

By Mary Spalding  
Consultant in Nutrition,  
Massachusetts State Department  
of Public Health

The sea has come to our rescue, following a year of drought and AAA adjustment of little pigs. Plenty of fish are in the storehouses, and more are to come from the sea.

Many homemakers will look for new kinds of fish and fish recipes and use them two or three times rather than once a week as formerly.

Agriculturists tell us pork and beef prices probably will continue to go up in 1935 due to smaller amounts available and the price of feed. Lamb will be ordered more, so its price will be maintained or will go a little higher. Poultry and eggs will be somewhat higher on account of the shortage of feed. There is a fair supply of dried beans and peas. When milk is used as a supplement, beans and peas make fair protein standbys when low costs have to be considered—used baked or boiled for the adults and older children and strained in soup for the smaller children.

Fish is an excellent protein food for growth and repair of muscle and tissue. It is easily digested. It gives more iodine than meat. It does not supply as much iron as meat or egg yolk, so the homemaker must be sure to buy her dark breads, leafy vegetables, and dried fruits like peaches, apricots and prunes. She must also see that her fats are not decreased too much. Oily fish like salmon, tuna and herring will contribute fat, but fat should be added to the meal when lean fish is used.

Learn To Like Fish  
It may be that more families will learn to like fish this year. In Kentucky after the drought, Kentuckians, old as well as young, learned to like carrots for the first time. The market offers unusual stores of salmon, cod, haddock, pollock, halibut, frozen filets as well as fresh fish and kippered herring, salt cod, and shell fish, especially oysters, which are an excellent source of protein, iron and copper.

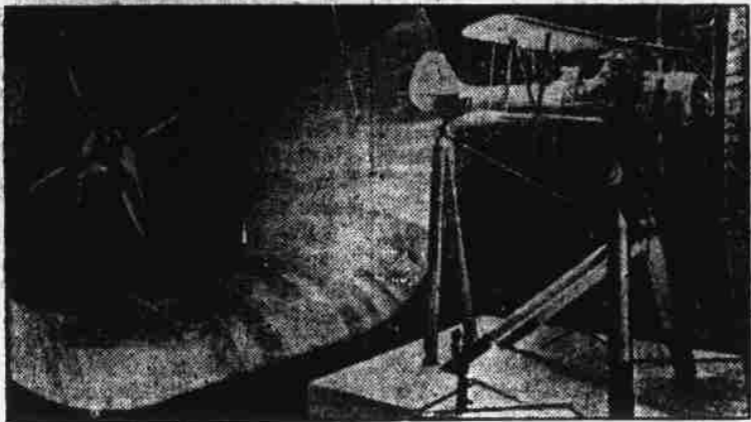

RAISES 1,298 BUSHELS WHEAT FROM 34.5 ACRES IN ROWAN  
W. D. Graham, master farmer of Rowan County, harvested 1,298 measured bushels of wheat from 34.5 acres of land or an average of 37.6 bushels an acre. The farm agent reports this as the top yield for the county from a field of this size.

### Largest Wind-Tunnel in World Tests Full-Sized Planes in Virginia

Test Tunnel at Langley Field Surpasses Size of Giant Just Completed by French Air Ministry; Reproduces Actual Flight Conditions

THE French Air Ministry has just announced the completion of a tunnel of gigantic proportions, and an over-all length of 313 feet. The air is brought into it through a collector seventy-nine feet in diameter. The air-flow is smoothed out by passage through a honey-combed grid, and then passes into the huge testing-chamber, in which an air-plane can be subjected to an artificial rate of 112 miles an hour

while suspended from an overhead platform.  
From the testing-chamber, the air flows into the suction-chamber, in the walls of which are mounted six propeller-fans, each driven by a 1,000 horse-power electric motor. Thus, a total of 6,000 horse-power will be at work during the progress of a test, making the operation of a full-scale wind-tunnel one of the

surpassed by the American laboratory of the National Advisory Committee for Aeronautics, Langley Field, Virginia. In the working section of the American tunnel, sixty feet wide by thirty high, an air-plane having a forty-foot span can be comfortably mounted. Only two fans are employed to suck the wind through this tunnel, each driven by a 4,000 H.P. motor.

### THIS WEEK'S RECIPE

#### DELICIOUS CUCUMBER CHUNKS

7 pounds cucumbers  
Salt  
3-4 cup vinegar  
3-4 teaspoon alum  
1 quart vinegar  
4 pounds brown sugar  
2 2 1/2-inch pieces cinnamon.  
Wash cucumbers, and cut in chunks or slices about 1 inch thick. Soak for 3 days in a brine, using 1-4 cup salt to 1 quart water. Drain well.

Cover with fresh water and let stand 1 day, changing the water several times. Drain. Divide the cucumber chunks into three equal parts and put in separate kettles. (Cooking the chunks in these small amounts is better than cooking in the larger quantity.) Cover with water; add

1-4 cup vinegar and 1-4 teaspoon alum to each kettle. Boil several minutes or until partly tender, but not soft. Drain well, and put into one kettle. Boil together the quart of vinegar, cinnamon, broken in pieces, and brown sugar. Pour over the cucumber chunks and heat thoroughly. Let stand overnight. Remove cucumbers and reheat syrup. Then add cucumber chunks and let stand overnight. Repeat this process again. Heat thoroughly. Pack in hot glass jars. Seal.—By Beulah V. Gillaspie in McCall's for July.

Here's something to think about when you buy trucks

It pays 3 ways to buy CHEVROLETS

The world's best truck buy! That is the verdict of the ever-increasing number of people who are choosing these big, powerful Chevrolet Trucks. A very natural verdict when you realize how much more economical these trucks are to buy, operate and maintain. Chevrolet Trucks sell at the world's lowest prices. Their six-cylinder valve-in-head engines use less gas and oil. And their strong, sturdy construction assures faithful performance, year in and year out, with a minimum of maintenance expense. That is why we say—It pays 3 ways to buy Chevrolets! See your Chevrolet dealer and choose the right Chevrolet Truck for your delivery or haulage needs—today!
