Surprise Party Held In Honor Ray Jordan

Ray Jordan was given a delightful surprise party on Tuesday evening at the home of his parents, Mr. and Mrs. A. F. Jordan, on Church Street, the occasion being his fifteenth birthday.

The guests had all assembled upon Ray's return home at eight o'clock and as he entered the house the young people greeted him with shouts of "happy birthday." The house had been gaily decorated with lovely flowers, and attractive packages containing gifts were piled high on the living room table.

In the center of the dining table, flanked by a tasteful arrangement of flowers, was a huge birthday cake on which 15 lighted candles gleamed. The young people played games and had a very merry evening, at the close of which the birthday cake was cut and served with delicious ice cream.

The guests included Mrs. Mercer Winslow and her two sons, Floyd and Clarence, of Belvidere; Julia Broughton, Mary Thad Chappell, Mary Morris Margaret Mayes, Lila Budd Stephens, Polly Tucker, Ellie Mae White, Blanche Moore Berry, Alice Roberson, Zack Toms White, Zack Harris, David Broughton, Fred Campen, Charles Harrell, and Cleveland Buck, Mrs. W. E. White, and "Whitie" White.

Among the gifts from those who were not present at the party were those of Mr. and Mrs. H. J. Chappell, Mrs. T. S. White and Mrs. W. M. Morgan.

SAFETY FIRST

SAFETY is the first consideration in building Ford cars. This Ford was the first low priced car to bring you the extra protection of a steel body, welded in one piece and reinforced with steel. Ford was the first low priced car to protect all members of your family with safety-glass all around at no extra cost. The Ford V-8 is the first low priced car to give you super-safety brakes—12-inch drums and 145 square inches braking surface. Ford super-safety brakes are of the sure-stopping, positive, mechanical design used on many of the highest priced cars here and abroad.

From the ground up, the Ford V-8 is a safe car to drive. It is the only low priced car with 6.00 x 16-inch air-balloon tires as standard equipment. The double channel X-type frame is low, rigid, strong. Correct weight distribution with low center of gravity gives excep-

tional stability on curves. Torque-tube drive with radius rod construction add to the roadability and safety of the Ford V-8. A strong front axle gives you further protection. Even the powerful 85 horsepower V-8 motor adds to your safety with its instant response to your demands. Examine the Ford V-8 and you will find that safety has been built into it at every point—safety that has been time-tried and proved by millions of miles on the highway. It is well worthwhile to remember these things when purchasing a car.
