

### Be Careful In Feeding Minerals To Livestock

Feeding minerals to livestock, without due consideration of the animals' needs, often does more harm than good.

Animals do need minerals, however, said R. H. Ruffner, head of the animal husbandry department at State College, and one of the most important is salt.

He recommended that grain mix-

tures fed dairy cows should contain one per cent salt, but no more. Salt blocks or salt in a box should also be kept before the animals, so they can lick up any salt they need in addition to that in their feed.

Next in importance are phosphorus and calcium. But in the feed crops are grown on land well fertilized with superphosphate or other phosphorus fertilizer, and well supplied with lime, the feed will contain enough of these minerals to supply the animals' needs.

When there seems to be a need for phosphorus in the ration, it can be supplied in steamed bone meal by adding a pound of meal to every 100 pounds of grain.

Calcium may be added to the ration at the same rate in the form of ground limestone, ground oyster shells or clam shells, or wood ashes. Wood ashes contain only about two-thirds as much calcium as ground limestone. Never feed unslacked or water-slacked lime.

There are ten to 15 other mineral elements necessary for dairy cows, but most of these are furnished in adequate amounts in the average ration made up of feeds grown in North Carolina, Ruffner pointed out.

To attempt to supply minerals other than salt, phosphorus, and calcium is expensive and sometimes dangerous, he warned.

## REPORT OF THE CONDITION OF The Hertford Banking Co.

Of Hertford, in the State of North Carolina, at the close of business on June 30, 1936.

ASSETS	
1 Cash, balances with other banks, and cash items in process of collection	\$102,687.83
3 United States Government obligations, direct and fully guaranteed	82,475.19
4 State, county and municipal obligations	201,988.59
5 Other bonds, notes and debentures	1,897.19
7 Loans and discounts	199,648.08
8 Overdrafts	None
9 Banking house owned \$10,000.00; furniture and fixtures, \$5,000.00	15,000.00
11 Other real estate owned	4,500.00
15 Other assets	18,037.86
<b>16 Total</b>	<b>\$626,234.54</b>
LIABILITIES AND CAPITAL	
17 Deposits of individuals, partnerships and corporations:	
(a) Demand deposits	\$221,795.26
(b) Time deposits evidenced by savings pass books	250,488.96
(c) Other time deposits	3,888.95
18 United States Government and postal savings deposits	51,061.47
19 State, county and municipal deposits	12,057.00
21 Certified and officers' checks, letters of credit and travelers' checks sold for cash, and amounts due to Federal Reserve Bank (transit account)	3,277.66
<b>22 TOTAL DEPOSITS</b>	<b>\$542,054.30</b>
24 Bills payable, rediscounts and other liabilities for borrowed money	None
29 Other liabilities	7,416.84
<b>30 Total liabilities excluding capital account (except deferred obligations shown in item 33 which are subordinated to claims of depositors and other creditors)</b>	<b>\$549,471.14</b>
31 Capital account:	
(a) Capital stock and capital notes and debentures	\$ 50,000.00
(b) Surplus	12,500.00
(c) Undivided profits	14,263.40
(e) Total capital account	76,763.40
<b>32 TOTAL LIABILITIES AND CAPITAL</b>	<b>\$626,234.54</b>

33 On June 30, 1936, the required legal reserve against deposits of this bank was \$50,470.58. Assets reported above which were eligible as legal reserve amounted to \$102,687.83.

34 Deferred obligations not included among above liabilities, which are subordinated to claims of depositors and other creditors: None. Undeclared dividends on preferred stock and unpaid interest on capital notes and debentures, accrued prior to end of last dividend or interest period: None.

\*This bank's capital is represented by \$25,000.00 capital notes and debentures sold to Reconstruction Finance Corporation and \$25,000.00 sold to public; 250 shares of first preferred stock, par value \$100.00 per share, redeemable at \$100.00 per share; and 250 shares of common stock, par \$100.00 per share.

MEMORANDA	
35 Pledged assets (except real estate), rediscounts and securities loaned:	
(a) U. S. Government obligations, direct and fully guaranteed, pledged to secure liabilities	\$ 57,000.00
(e) TOTAL	\$ 57,000.00
Secured and preferred liabilities:	
(a) Deposits secured by pledged assets pursuant to requirements of law	\$ 58,874.94
(e) TOTAL	\$ 58,874.94

I, R. M. Riddick, Jr., Cashier of the above-named bank, do solemnly swear that the above statement is true, and that the schedules fully and correctly represent the true state of the several matters herein contained and set forth, to the best of my knowledge and belief.

Correct—Attest:  
 R. M. RIDDICK, JR., Cashier.  
 W. F. C. EDWARDS,  
 CHAS. JOHNSON,  
 CHAS. WHEDBEE,  
 Directors.

State of North Carolina,  
 County of Perquimans.

Sworn to and subscribed before me this 10th day of July, 1936, and I hereby certify that I am not an officer or director of this bank.  
 (Seal) E. O. WHITE, Notary Public.  
 My commission expires August 20, 1936.

### RYLAND

Miss Grace Hollowell has returned home after an extended visit in Norfolk and Suffolk, Va.

Dr. and Mrs. I. A. Ward, of Hertford, visited Mr. and Mrs. T. L. Ward Sunday afternoon.

Mrs. N. E. Jordan and sons visited Mrs. H. N. Ward Sunday afternoon.

O. C. Saunders suffered a paralytic stroke early Monday morning, and is quite ill.

Mrs. Cornie Spivey returned home Sunday after visiting with her children in Durham, Oxford and Erwin, for the past week. Mrs. Spivey was met in Tarboro by O. E. Spivey and Miss Rella Spivey.

Mrs. H. N. Ward was quite painfully injured Sunday morning when, as she started out of the smoke-house door, she lost her footing and fell. She suffered no broken bones or sprains, but has been most painfully sore since.

Misses Evelyn Jordan and Thomasine Ward spent Monday in Edenton.

Mrs. Eley Jordan, from near Gatesville, was the guest of Miss Gertrude Jackson several days this week.

Mrs. Harriett Parks fell Saturday morning and was painfully bruised.

O. E. Spivey, of Alexandria, Va., spent the week-end here. He was accompanied home by Mrs. Spivey and two daughters, who had been visiting Miss Rella Spivey for the past week.

Miss Geneva Chappell, from near Belvidere, was the guest of her grandmother, Mrs. Louisa Ward, Saturday night and Sunday.

Miss Nellie Copeland, of Harrellsville, is the guest of Mr. and Mrs. T. J. Dilday.

Mr. and Mrs. E. L. Hollowell and

their children, and Mrs. J. S. Northcott, of Edenton; Mrs. R. S. Ward and two children visited Mrs. Harriett Parks Sunday afternoon.

Arthur Jordan was in Portsmouth, Va., on business Friday.

Mrs. Callie Copeland and children, Mrs. Nearest Chappell and children, from near Belvidere, visited Mrs. Louisa Ward Sunday afternoon.

Miss Thomasine Ward went to Hertford Wednesday to visit in the home of her uncle, Dr. I. A. Ward.

Mrs. Sam Nixon and Miss Evelyn Parrish, of Oak Grove, visited Mrs. Nixon's mother, Mrs. Ella Mae Ward, Saturday.

### Danger Forest Fires Greatly Increased By Hot, Dry Weather

Hot, dry weather has greatly increased the danger of forest fires over much of North Carolina.

Ordinarily, summer is not considered a period of great fire hazard, said R. W. Graeber, extension forester at State College, but drought conditions have made woodlands dry and inflammable.

To prevent and control forest fires, Graeber lists the following precautions:

Smoke only when stopping in a safe place, clear of inflammable material. Never smoke while traveling through the woods.

Be sure all matches are out before throwing them away. A good policy is to break each match in two before discarding it.

Never throw pipe ashes or cigar (Continued on Page Four)

### Timely Questions On Farm Answered

Question: My customers are complaining about blood clots in the eggs I sell. What causes this and how can I prevent it?

Answer: Blood clots are caused by the rupture of a small blood vessel in the egg forming organisms and occur most frequently during the periods of heavy egg production. The condition also occurs in certain strains of birds and there is no way to prevent the occurrence. To satisfy the customers all eggs should be candled and those showing blood spots used at home.

Question: What vegetables can I plant now for a good fall garden?

Answer: Plant beets, carrots, peas, snap beans, and cabbage at this time in the eastern section of the State. For best results the seed should be soaked overnight before planting. Do not allow the seed to dry out and plant in moist soil. Tomato plants may also be set if available. Lettuce seed may be sown at this time. Big Boston or White Boston are good varieties for fall planting. When planting Irish potatoes for the fall crop use old seed if possible. Where these are not available, early spring seed may be used provided they are "greened" before planting.

Question: How can I cure my calves of stomach worms?

Answer: Drench the infected animals with a solution of copper sulphate and nicotine sulphate made by dissolving one-quarter pound of clear blue crystals of copper sulphate in one pint of boiling water and adding enough cold water to make three gallons. Use only porcelain or enamelware vessels in making this solution as copper sulphate will corrode metal. To each gallon of this solution add one ounce of forty percent nicotine sulphate. The size of the dose varies with the age of the animal and calves should be drenched with 3 to 4 fluid ounces, and those animals two years old or older should be drenched with from 10 to 12 fluid ounces. Do not feed or water the animal for 12 to 18 hours before treatment and do not give any water for three or four hours after. A second treatment should be given in ten to fourteen days.

**"DIGESTION GOES ALONG SMOOTHLY"**

**JOHNNY FARRELL (left) says: "Smoking Camels during and after meals is a great aid to my digestion." Enjoy Camels steadily! They never get on your nerves.**

**FIRE-CHIEF FRANK GILLIAR says: "My digestion goes along smoothly when I smoke Camels." Camels increase the flow of digestive fluids—alkaline digestive fluids.**

**FIRESTONE'S NEWEST — MOST SENSATIONAL TIRE DEVELOPMENT**

**THE New Firestone STANDARD TIRE**

**FIRST LINE QUALITY**—The new Firestone Standard Tire has been designed and constructed by Firestone skilled tire engineers—it is a first quality tire, built of high grade materials, embodying exclusive Firestone patented construction features.

**FIRESTONE NAME AND GUARANTEE**—Every Standard Tire is backed by the Firestone name and guarantee—your assurance of safety, dependability and economy.

**LONGER NON-SKID MILEAGE**—The wider, flatter tread is scientifically designed with more and tougher rubber on the road for long, even wear, and thousands of extra miles.

**GUM-DIPPED CORD BODY**—Eight extra pounds of rubber are added to every one hundred pounds of cotton cords by the Firestone patented process of Gum-Dipping. This not only provides greater strength, but gives greatest blowout protection.

**TWO EXTRA LAYERS OF GUM-DIPPED CORDS UNDER THE TREAD**—Cushion road shocks. Afford extra protection against punctures and bind the whole tire into one unit of great strength.

**IT COSTS LESS TO BUY—VOLUME PRODUCTION SAVES YOU MONEY**—The new Firestone Standard Tire is the greatest tire value ever offered car owners—volume production, efficient factories and the most economical distribution system make it possible to sell this new tire at these low prices.

SIZE	PRICE
4.50-21	\$ 7.75

**FOR TRUCK AND BUS OWNERS**

**GIVES LONGER MILEAGE AND MORE ECONOMICAL SERVICE AT VOLUME PRODUCTION PRICES!**

**WHETHER** you operate one truck or several, dependable service is your greatest asset. In hauling produce to market, operating fast local deliveries, in heavy cross-country hauling, operating school buses, or in any type of trucking service, you need a first-quality tire, built of first grade materials to give you long, trouble-free mileage. Now, for the first time, you can get such a tire at prices you can afford to pay. Come in today and let us show you how the new Firestone Standard Truck and Bus Tire will give you better service and save you money.
