**"APRIL"**  
Empress of the Jerseys  
STOCKWELL'S APRIL FOGS, the only cow in the world to win the title of the President's Cup of the American Jersey Cattle Club. Owned by OWEN NOON, publisher Winslow-Loomis Journal and Sentinel, county of Upson, Ga., Woodstock, Va.

We present a "close-up" of a world-famous Jersey cow, Stockwell's April Fogs for short. She made a world's record over all breeds—5217 lbs. butter fat in 3 lactation periods within 3 1/2 years, each under Class A. A. with an average test of 6.46%. No Jersey farm in the world has ever bred, raised and tested her equal.

The pastures are full of Jersey cows—but there's only one "April." She's the empress—a hundred times more valuable than the rank and file of Jerseys—because Mother Nature gave her everything—a perfect natural balance of all the needed elements. So she eclipses all the others.

Natural Chilean Nitrate of Soda is another example of Nature's balance of many different elements. Just as Nature favored "April," she favored Natural Chilean. To this nitrogen fertilizer she gave a natural balance of vital elements—the so-called vital impurities in her own-wise blend.

That's why Natural Chilean is more than just quick-acting nitrogen. That's why it is such an effective food for your crops.
