

IN WASHINGTON
WHAT IS TAKING PLACE BY

Frank R. Reynolds
UNITED STATES SENATOR

If any evidence was needed that the Seventy-fifth Congress, with its top-heavy Democratic majorities, would not be a "robber-stamp" Congress, it has been furnished in the controversy over the President's plan for changing the judiciary. This plan has become the dominant legislative issue and threatens to delay, if not engulf, less important proposals which in more normal times would seem of such magnitude as to demand early action. But proposed changes in the basic scheme for our Government have always, and should have, first attention.

It is interesting to note that the heart of the controversy over the Courts is not one of purpose, but rather the best means of attaining the objectives sought. There are a comparative few who do not concede that some changes in the basic plan of our Government to meet conditions are necessary—situations that have arisen since the Constitution was drafted. But how? That is the most momentous question in the national capital today.

The President's plan calls, of course, for legislative authority to name six new members of the Supreme Court, increasing the membership to fifteen, should justices over seventy years of age fail to resign. That was the program submitted to Congress. Other proposals were promptly advanced and the situation that has resulted brings up three questions.

Does the President's plan offer the soundest approach to a problem that vitally affects every citizen? Would it be more desirable to submit the question—a slow process—to the people for final decision? Would it be feasible to enact a legislative requirement that all rulings by the Supreme Court hold laws unconstitutional by a two-thirds majority? Such questions are now required in the most momentous questions.

Mr. Woodley.
Miss Lillian Bright spent the week-end in Ayden as the guest of Mr. and Mrs. Everette.

WOODVILLE MISSIONARY SOCIETY MEETS AT CHURCH

The Missionary Society of the Woodville Baptist Church held its regular monthly meeting at the church Tuesday. The devotional was led by Mrs. Johnnie Bray. Hymns were sung and Mrs. W. D. Morris led in prayer. Business was then carried out, after which Miss Beulah Bogue gave a very interesting talk on "The Conquistadores." The meeting was dismissed by Mrs. Johnnie Bray.

FERTILIZER MAKES LEGUMES BETTER NITROGEN FACTORIES

Legumes are natural nitrogen factories—but their production may be increased with the use of phosphorus and potash. Many farmers grow legumes as green manure crops because they collect nitrogen from the air and put it into the soil. Applications of phosphorus and potash to legumes stimulate their growth enabling them to produce more nitrogen than if they did not receive these fertilizer materials. These are not wasted as they are available for the next crop as corn or cotton when the legumes are plowed under and decay.

By this method the farmer gains the use of three fertilizer materials for other crops although he applied only two. Phosphorus and potash applied to legumes when grown as a green manure crop help to produce heavier yields of corn and other crops than if the same fertilizer is applied directly to the crops, tests of the United States Department of Agriculture show. In the South, fertilizer mixtures of 0-10-4 and 0-8-4 applied at the rate of 400 pounds an acre are generally satisfactory for increasing the growth of the Austrian winter pea and other legumes grown as a green manure crop preceding corn and cotton.—Press Service, U. S. Department of Agriculture, Washington, D. C.

Treatment Of Seed Brings Better Yield

Gardeners and farmers can now make certain of healthier stands and better quality crops. The astounding results obtained by seed treatment in 1936—better stands, increased yields and greatly improved quality—demonstrate the advisability of using, where possible, treated seeds in 1937.

The planting of cotton seed carrying disease germs is frequently responsible for severe losses in yields due to poor stands. Some of the disease organisms seem to live over winter in the lint on cotton seed. If the seed is treated, there is protection enough to carry the seed and the young plants through the seedling stage.

Here are some figures on the value

Do you look Young or Old? Your Hair Tells!

If you've lost the spirit of youth, you can find it again quickly and naturally with Clairol. If your hair is drab and uninteresting or streaked with gray, Clairol will impart natural color or change its shade gradually... secretly... quickly. Don't think of Luscious Clairol and Progressive Clairol as common, old-fashioned hair dyes. Clairol does what nothing else can! In one simple treatment Clairol shampoos, reconditions and TINTS. Ask your beautician or write now for FREE booklet, FREE advice on care of hair and FREE beauty samples.

CLAIROL

Clairol, Inc., 1000 Broadway, New York 10, N. Y. Clairol is sold in all good hair stores and beauty parlors.

Easter Parties are SUCH FUN

and Home Made Ice Cream Is Very Appropriate

After the egg rolling contest or the egg hunt there is nothing quite so delightful as a big freezer brimming full of home made ice cream. Good old fashioned home made ice cream can be served at any hour without upsetting the dietetic schedule of growing children. Here is a tested recipe that has proven successful at many parties. Plan a party and make home made ice cream.

CHOCOLATE ICE CREAM
1/2 pint cream, 1 1/2 pints milk
1/2 pound sugar, 3 eggs
2 oz. baker's chocolate (grated)
1/2 tablespoonful vanilla
Scald milk in double boiler. Beat the eggs and sugar together and add to scalded milk. Cook until thickened. Add melted chocolate and beat to blend the mixture. Chill, add flavoring and cream and freeze.

of seed treatment for cotton seed based on tests from the agricultural experiment stations of the Carolinas, as reported in a recent issue of the Southern Planter:

From South Carolina: "Treated cotton seed produced about twice as many plants as untreated seed and yielded 480 pounds more per acre, or 28 percent increase."
From North Carolina: "Treating cotton seed increased returns \$21.56

per acre. Two and one-half times as many plants came up as untreated seed. Treating prevents seed rotting and seedling diseases in cold, damp weather, makes strong plants, evenly spaced, and avoids planting over. It allows planting ten days earlier, getting ahead of boll weevil. It prevents boll rot, blight and many other diseases."
The treatment of garden seed for disease protection is a more recent

development than for field crops, but the results have been no less startling. One seedsman, T. W. Wood & Sons, Richmond, Virginia, has installed special treating equipment under the supervision of the U. S. Department of Agriculture and the Virginia Experimental Station. This equipment is the most complete and up-to-date in the country today. After several years experience in treating seed, Wood & Sons have announced that they now treat all their garden seed that are susceptible to treatment—and that includes 90 percent of their garden varieties.

TAYLOR THEATER
E. ANTON, N. C. WE HAVE THE SHOWS

Today (Thursday) March 25— Monday - Tuesday, March 29-30—

Pre-Spring CLEAN-UP SALE USED CARS

100% satisfaction or 100% refund

Every R & G used car and truck measures up to specifications laid down by the Ford factory and is fully **GUARANTEED** in writing on a money back basis.

USED CARS & TRUCKS
RENEWED **R&G** GUARANTEED
ALL MAKES

The big swing to the 1937 Ford V-8 has brought to your Ford dealer late model, first class used cars of all popular makes.

This desire of so many people to own the 1937 Ford V-8 creates an opportunity for you to get a fine used car at a real low price.

Right now Ford dealers are getting ready for the spring rush of business—when both new and used cars will be in greater demand. Buy a better, newer used car now while present low prices are in effect. Remember, every R & G car must meet definite specifications set up by the Ford factory and is guaranteed in writing by your Ford dealer—"100% satisfactory or 100% money back." See your Ford dealer today. Don't wait and run the risk of higher prices. Your present car will probably cover the down payment—and more. The balance on easy terms.

ONLY FORD DEALERS OFFER R&G USED CARS AND TRUCKS
