THE SINGING CLASS IS HERE

Somebody has said we wouldn't know it was spring if the orphans didn't come. They return just as regularly as the robins do.
 Nobody remembers when the concert of the Oxford Orphanage Singing Class was not held in Perquimans every spring. Many, many different classes have come and gone and the clever little boys and girls who entertained us years ago have grown up and gone out to make their way in the world. But always there are more little children crowding into the haven offered the homeless children in the orphanage to take the places of those going out. Always there are bright and attractive youngsters to entertain, and always and always there is the need of more money to take care of the children.
 Times was when there were few public entertainments. There were no picture shows, only now and then a show of any kind came to town. The coming of the Singing Class was an event then and the auditorium where they held their entertainment was crowded.
 Times have changed. There are many things to divert. But the entertainment of the Singing Class is always good. They are clever little folks, well trained, and their entertainment is not only amusing but it is wholesome.
 The Singing Class from the Oxford Orphanage is giving an entertainment in Hertford tonight at 8 o'clock. Go if you can and see if you don't like their show. But if it happens that you cannot go, buy a ticket and pass it on to some one who can go. There are always children who haven't a ticket.
 Help the cause by buying the ticket, and if possible see that the Singing Class has the inspiration of a good house.

GOOD NEWS

It has been said that there are two classes of people who know nothing of the tragedy of having a member of the family go to the hospital, the very rich and the very poor.
 The saying is certainly true of the very rich. In some cases it may also be true of the very poor. It may not, however, be true with respect to this class always.
 It is, no doubt, true that to many of the middle class a hospital bill may be a tragedy. Often the entire savings of a family are wiped out by the expenses incident to hospitalization when there is an accident or a long and serious illness.
 One individual in North Carolina enters a hospital every two minutes. That a way is provided to relieve to a great extent the burden of hospital bills when they come, through membership in the Hospital Saving Association of North Carolina, is good news for North Carolinians.

RECORDER'S COURT

"I jest don't like a unclean house." That was the explanation which Robert Key gave to Judge Walter H. Oakey, Jr., on Tuesday, of the affair which occurred at his house in "Spring City" Friday resulting in the arrest of Key and his wife, Flossie, each being charged with assault upon the other. John T. Lane, prosecuting witness testified that the couple were fighting and raising a disturbance. Both defendants were found guilty of assault and both sentenced to the jail for 30 days, sentence to be suspended upon payment of the costs and upon good behavior for two years. "If you must fuss do it so you don't disturb the neighbors," cautioned Judge Oakey in passing sentence.

Will White, Winfall Negro, was sentenced to the roads for three months and ordered to pay two dollars per week to the support of his children, the road sentence to be suspended upon payment of the costs and compliance with the judgment.

Charlie Thach, colored, convicted of driving without operator's license was sentenced to jail for 30 days, the sentence to be suspended upon payment of the costs and good behavior for two years.

Lee Ernest White couldn't be convicted because the prosecuting witness, Fronnie Garrett, evidently suffering a change of heart, failed to testify against the man she had accused of assaulting her with a deadly weapon, so Fronnie was required to pay the court costs.

B. & L. Association Issues New Stock

Another series of stock will be issued on the first of May by the Hertford Building and Loan Association, according to an announcement made by W. H. Harcastle, Secretary-Treasurer of the Association, this week.

This is the thirty-third series of stock which has been put on sale during the fourteen years that the association has been in business.

A director of the Building and Loan Association said this week that, through the association many new homes have been built in Hertford, but that this constituted only a small portion of the work that the association has been able to do. Many a boy and girl has been able to attend college who would not have been able to do so but for the systematic savings of their parents through the Building and Loan, he said.

W. M. MORGAN

Twenty-three years ago this month I returned to Perquimans County to serve the people of the Albemarle section. Through all the ups and downs during this time I have built up a furniture business equal to the best in North Carolina. I take this opportunity to thank all of my friends for their loyal support. I will offer to anyone \$100 in cash to show me and prove that any town the size of Hertford has as large stock of first class furniture for as low a price as I am offering. Qualify for this money and I will pay you if you can prove that I am wrong.

1937 Ford V-8

● If you think that "all low-price cars cost about the same" — forget it! They don't.

Ford makes a car — a 60-horsepower economy Ford V-8 — that sells from 30 to 60 dollars under the prices asked for any other car of comparable size. The lowest Ford prices in years!

Check delivered prices in your town and see for yourself.

● Of course, first cost doesn't prove "low cost" — you must consider operating cost also.

The "60" has definitely established itself as the most economical car in Ford history. Ford cars have been famous for economy for 34 years, so that means something!

Owners who have driven it thousands of miles report that the Ford "60" averages between 25 and 27 miles on a gallon of gasoline.

You can prove these figures — on the open road — in a car provided by the nearest Ford dealer.

● When you've finished your personal check-up, ask yourself:

"Do I want to save money the day I buy my car and every mile I drive it?"

"Do I want a safe, roomy, comfortable car of advanced design — created from the finest materials to the highest production standards?"

There's only one answer, of course — the 1937 Ford V-8.
