

FIRST IN REGION TO GET TENANT PURCHASE LOAN

J. E. Jessup, 47-year-old Guilford County tenant farmer, was found at his plow Saturday when County Supervisor E. H. Anderson of Greensboro called to tell him that his loan had been approved by the Farm Security Administration to purchase and improve his farm. Jessup's loan is the first of 100 to 125 land purchase loans being made by the FSA in North Carolina during the first half of the year, for which \$527,586 has been allocated to seventeen counties. It is also the first of some 400 of these loans to be made in this five-state region (Kentucky, Virginia, West Virginia, Tennessee and North Carolina) for which \$1,591,619 has been allocated. Additional funds are expected from Congressional appropriations effective July 1, the Bankhead-Jones Act having authorized doubling the appropriations for next year and five times as much for years thereafter.

P. T. A. At Center Hill Enjoys Picnic Supper

The auditorium of the Center Hill School was changed into a lovely forest scene on Thursday evening, when the members of the P. T. A., the school children and a few invited guests were entertained at a picnic supper.

When the guests entered the auditorium they were given an enchanted drink. Then they were allowed to wander at will until they found some shady retreat where they could enjoy the evening.

The first part of the evening's entertainment consisted of stunts under the supervision of Reverend and Mrs. R. E. Walston.

The outstanding event of the even-

ing was a "Hog Calling" contest in which Mr. Joe Byrum was the winner.

The evening's entertainment closed when Mrs. J. E. Rogerson, retiring president, made a short talk expressing her appreciation to the members of the P. T. A. for their cooperation and urging them to cooperate even better with their incoming president, Miss Nellie Davis.

"Caboose" Has Marine Origin
Explaining the origins of some terms freely used in railroading, the Canadian National Railways Magazine says: "The word 'caboose' has a marine origin, coming from the Dutch word 'kabian-huys': cabin house."

"We Tobacco Planters smoke Camels"

THE CAMEL BUYERS BOUGHT THE BEST LOT OF MY LAST ORDER. THEY TOOK JUST ABOUT EVERY TOP GRADE LOT AT ALL THE SALES I WENT TO. I PREFER CAMELS FOR MY OWN SMOKING. I KNOW THERE'S FINER TOBACCO IN THEM. YOU'LL FIND THAT MOST OTHER PLANTERS PREFER CAMELS, TOO.

Mr. Carroll has been growing tobacco for 18 years

MEN like Mr. Carroll, with a lifetime's experience in growing tobacco, know that one cigarette—Camel—is made from finer, MORE EXPENSIVE TOBACCOS. So it means a lot when they say that most smokers who grow tobacco smoke Camels themselves. Make Camel your cigarette too.
