Evangelist Smith Warns All About

Interesting Subjects Announced For Tent Services Next Week

"We must all appear before the judgment seat of Christ, for all have sinned and come short of the glory of God" (II Cor. 5:10; Rom. 3:23) quoted Evangelist W. T. Smith as his opening text Wednesday night in his sermon "Court Week in Heaven."

vestigative judgment before the final judgment of execution. The investihe second coming of Christ. In this judgment the records of our lives, which are faithfully recorded in the books of Heaven by the angels, are examined before the Father, Son and angels (Dan. 7:9,10,13). Our eternal destiny is determined by these records. There are two sets of books in Heaven (Rev. 20:17)—the books of remembrance where the deeds are recorded, and the book of life in which all the names of those who accept Christ as their Saviour are list-

Mr. Smith read James 2:10-12 and standard which will be used in this udgment. Therefore it is very escontial that we live in harmony with every precept in order to stand be fore God with any condemnation God has made ample provision for svery one who will confess and for sake their sins to be saved in the kingdom of God and not be condemned in this judgment" (1 John 129; Prov. 28:18). He aummed it all up by reading Eccl. 12:18,14. "Let us has the conclusion of the whole matter: Pear God, and keep his commandments for this is the whole duty of man. For God shall bring every work into judgment, with every secreting, whether it be good, or wheth as the evel."

this year total \$5,284,008, where last Officer C. E. Walker Tries His Skill at Shooting

The police department Monday deon the court house green a nuisance and in the late afternoon Officer C. E. Walker began blasting away at the bird-infested trees with 22 calibre scatter-shot.

For weeks the birds have been nesting around the courthouse and at dusk come there in huge flocks. Some people have ventured the opinion that the birds are attracted by something they find there to eat, while others say that excessive rains have driven Tussle Will Be Feature Tribute Dropped Into them to cover under the leaves.

Anyway, keeping the grounds and walks of the courthouse in a state of untidiness, the birds have been outlawed with the result that Officer Walker staged his raid Monday. Even though casualties amounted to two birds they still seem unwilling to

What's 54 Snakes?

To discount Dare County's snake story in its news significance, employees at the Major and Loomis lumber mill last week killed 108 water moccasins with one thrust of a pike pole.

A visitor down in the sand dune region was reported last week to have killed 54 snakes with one rifle bullet (the mother snake and 58 unborn reptiles.)

The lumber company men thought little of their accomplishment until newspapers created an uproar over the "measly Dare family killing" and then they decided to bring a "real snake story" to light.

It was down on the docks that Fleet Cooper, Hertford Negro, discovered the reptile and spearing her with a pike pole, used in moving the logs around, pulled her up on the shore. When the pole was pulled out, scores of little snakes wriggled through the wound. Just before kerosene was poured over them and set ablaze, 107 were counted by the workers.

108 snakes to scare summer bathers in the river. Hertford people who hunt snakes for the sport of the thing, and men who work near the river and swamps, say it is not unusual to kill reptiles carrying 60 to 65 little ones. It would seem that the unborn family of 54 in Dare County was rather small.

Farmers Can Share In Distribution \$123,000 For 1938 Compliance

Part of Amount Expected to Be In Hand By October

STUDY MAPS

Program Directly Affects Four-fifths of County's People

A rough estimate entitles Perquimans County farmers to \$123,000 in farm compliance administration payments-if they meet all requirements of the program. Parts of this amount will be in the hands of the farmers early in October, according to L. W. Anderson, county farm agent.

This sum includes about \$41,000 worth of cotton price adjustment payments due the tarmers and growers on last year's farm program.

The compliance program affects approximate. 47,000 acres of crop lands in this county; 6,000 of these acres being in cotton, are entitled to about \$46,008 in cotton payment checks (provided all requirements are met.) \$21,900 roughly will find its way to county farmers in soil buildng payments. 7,000 acres of peanuts will bring in about \$15,000.

This compliance program directly affects four-fifths of the county's 10,500 people; this proportion of the county's population living on the eleven or twelve hundred farms in the county. The remaining one-fifth is affected indirectly through living in the communities whose principal purpose is in supplying the farmer's needs. The program is designed to meet the need for system and regulation in farm projects.

The recent aerial surveys, aided by he supervisors or "checkers," figuraively bring all the farm lands and crops right into the office of the county agent where at a glance they can get a picture of the exact acreage of each farm and the crops on that acre-

The supervisors will finish their work this week, according to Mr. Anderson. A little more time will be required to get the "checkers" surveys on the aerial photographs, but when the whole county is laid out on the aerial maps with the supervisors' surveys it will be easy to untangle any differences between the grower's idea of what he is raising and what he actually raises on the different acres.

Wischon Removed From Plymouth To **State Penitentiary**

Washington County Official Requests Chown **Sheriff Get Prisoner**
