To work with little children whose parents take an active interest in what is being done is an inspiration and incentive to the children and to those who try to help in building the little lives for the Kingdom of God. "A little child shall lead them." All children under six year are cordially urged to join this group. Training of this kind is invaluable to the child.

THE PEANUT STABILIZATION COOPERATIVE IS YOUR ORGANIZATION, organized by peanut growers with the help of the AAA for the purpose of promoting the peanut industry and to help you to get a fair price for your peanuts. Last year it was generally admitted that the operation of this organization and similar organizations in North Carolina and the other peanut producing states was the salvation of the peanut grower. Approximately 83,000 tons of peanuts were bought in the United States, of which approximately 25,000 tons, or 542,000 bags, were bought in North Carolina by YOUR Cooperative. The peanuts purchased by these organizations proved to be the approximate surplus and by diverting them from the normal channels of trade to the oil mills a stable market was maintained throughout the season. While the 1938 crop in the North Carolina-Virginia area is predicted to be less than the 1937 crop, the total production for all peanut producing areas is the largest on record. Fairly good prices prevail throughout the North Carolina-Virginia area; and there can be no doubt that this is due to the fact that these cooperatives are standing by ready to buy your peanuts at any time at guaranteed prices.

As a part of the Farm Program this Cooperative is primarily interested in seeing you get the highest price possible for your peanuts. If you cannot get a better price elsewhere, just remember that THERE IS A PEANUT STABILIZATION COOPERATIVE WAREHOUSE IN YOUR VICINITY that stands ready to buy your peanuts, for cash, according to grade and class as the prices listed above.

The Peanut Stabilization Cooperative is a non-profit corporation, a part of the Farm Program, that has helped and is helping all peanut farmers—those who sell their peanuts at its warehouses and those who sell on the outside to get fair prices. No payment other than the prices listed above is promised, but if a profit should be made by the sale of peanuts to the edible trade it will be shared by its members.
