

WORKSHOP IN RURAL EDUCATION PLANNED FOR STATE TEACHERS

University Requested to Offer Program During Summer Session For Principals and Teachers of Rural Schools

Rural school principals and teachers in this area will be interested in a new workshop type of program which is being planned by the Division of Teacher Education of the University of North Carolina in cooperation with the State Department of Public Instruction for the next Summer Session in Chapel Hill.

Announced by Prof. Guy B. Phillips of the University Education Department at Chapel Hill, Secretary of the Summer Session, the program will provide an opportunity for rural principals and teachers to work together in meeting the needs of their communities.

Preliminary applications should be sent to the University here before January 15 when selections will be made.

To be offered to a limited number of representatives of rural schools, the program was suggested by leaders in the Rural Education Department of the North Carolina Education Association.

The program will center around

such topics as integration of the school with the community, curriculum activities, organization and administration, rural economics and sociology, guidance practices and health education. Related courses in rural education for those who may not be selected as members of the "Workshop" will also be provided.

Each group will be expected to make plans for their respective schools for the following year.

Only teachers holding A certificates will be eligible, Secretary Phillips said. The work they will take will be a part of the regular Summer Session and can be used for graduate and certificate renewal credit.

Approximately twenty-five individual schools will be invited to participate providing there is an agreement to send five representatives each, including the principal.

If as many as 50 schools register, a program may be planned for each of the six-weeks summer terms. Participating schools will be required to make a community and school survey before coming to Chapel Hill. The staff of instruction will be composed of four or five outstanding leaders in rural education in America and one professor specializing in North Carolina problems who will act as a coordinator.

The first term of Summer Session will open June 13 and continue to July 20 and the second term will run from July 22 to August 28.

4-H Club Members Enthusiastic Over Pig Project

Program Which Was Started By Hertford Banking Co. Meeting With Success

The purebred pig project for 4-H club members, which was started last spring by the Hertford Banking Company, has begun to grow and expand. At the start of the project six purebred Spotted Poland China gilts were purchased and three of them have farrowed a total of 25 pigs.

Broughton Dail and Carlton Nixon's gilts farrowed 10 pigs each, while the others have farrowed five. Carlton lost one of his pigs but the rest are growing fine.

Broughton Dail was the first member to repay the Bank for his gilt. This was done on January 3, when he delivered two female pigs in return for the one he received last spring. Now he has a very nice sow and 8 pigs left. The pigs are eleven weeks old and weigh about 50 pounds each.

The Banking Company turned over to Robert L. Perry, Jr., Hertford, R. F. D. 3, and Donald Lane, Hertford, Route 2, the returned pigs in order to expand the program and to scatter more and better purebred livestock throughout the county.

These two boys will now raise their pigs and repay the Bank by returning two female pigs out of the first farrowing and those will then be turned over to other 4-H Club members to continue the expansion of the project.

The project has met with much enthusiasm among the 4-H Club members and the demand for pigs is much larger than the present supply.

Infantile Paralysis Cases Increase During Year 1939

Proceeds of Roosevelt Birthday Celebration Aid In Combatting Disease

Four times as many cases of infantile paralysis were reported during the summer of 1939 as there were during the same period of the preceding year, it was announced by Basil O'Connor, president of the National Foundation for Infantile Paralysis, New York.

Nearly 7,000 cases were recorded during the first 47 weeks of the year, as against 1,700 for the whole country in 1938.

At the same time, the National Foundation's annual report showed that 44 grants totaling \$463,972 were made in 1938 and 1939 to universities, hospitals, and other institutions in 21 states to combat the disease.

While more than \$130,000 of this went for research to "trap" the virus responsible for the disease, there also were grants for experiment with treatment amounting to \$284,880 besides aid in a major epidemic.

South Carolina received special aid in the South, on account of the epidemic during the early summer.

The State was granted \$7,650, which was matched from the Social Security program of the Federal government. The funds, totaling \$15,300, were used to employ five orthopedic nursing consultants and two physiotherapy technicians, besides paying fees of examining surgeons and pediatricians, hospitalization of approximately 100 children for 30 days, and convalescent and foster home care of approximately 22 children. Orthopedic appliances were furnished in some instances.

A research grant of \$5,000 also was made to the Shriners' Hospital for Crippled Children at Greenville, South Carolina.

The purpose of this grant, as explained in the report, is: "To conduct research on the effect of poliomyelitis on the length of legs and the treatment of leg-length discrepancies; to study the equalization of leg-length discrepancies; to investigate disturbances of bone growth in an effort to determine the early and late effects on such growth following poliomyelitis."

Negroes in the South were the recipients of a grant of \$161,350, made to Tuskegee Institute in Alabama. The purpose is given as:

"For construction, equipment, and maintenance for one year of a 36-bed unit for the care and after-treatment of Negro orthopedic cases. Further, Tuskegee will serve as a center for the training of Negro physicians, nurses, and physical therapists in orthopedic work and will disseminate educational information to all Negro doctors with respect to early diagnosis and after-care and treatment of orthopedic cases."

Funds expended by the National Foundation are raised annually through the voluntary contributions made through the Committee for the Celebration of the President's Birthday. The campaign is now in progress and will continue through January 30, birthday of President Roosevelt. Organizations are being set up in each county of every state. Included in the drive will be various parties celebrating the President's birthday, a March of Dimes, a March on Sport, and birthday greeting cards, to the President, with dime attached.

Half of all funds collected go to the National Foundation and half to local chapters in each county. Last year's drive netted \$1,327,173, of which \$600,000 went to the National Foundation and \$727,173 to the counties. An additional \$50,000 from the Will Rogers Memorial Commission also was left with the counties.

New Hope Club Will Present Play At Belvidere

The Home Demonstration Club of New Hope will present a play entitled "Ma Green's Family" at the Belvidere Community House on Friday, January 12, at 8 p. m.

Among the cast of characters who will have parts in the play are, Mrs. Mabel Banks, Miss Cida Banks, Mrs. Rosa Turner, Mrs. Ella Mae Barcliff, Mrs. Eva Perry, Miss Louise Banks and Miss Margarette Butt.

An oyster supper will be served at six o'clock and the proceeds from the supper and play will go to the New Hope and Belvidere Clubs.

Tobacco Tags To Play At New Hope

The Tobacco Tags, well-known radio entertainers, will be at the New Hope Community House on the evening of January 17, at 7:30 o'clock. The entertainment is sponsored by the Parent-Teacher Association of New Hope school.

Refreshments will be on sale.

Who Knows?

1. Who is the Chief of Staff of the U. S. Army?
2. Who commands the Finnish armies?
3. What is a "slow down" strike?
4. Who were appointed to the Supreme Court in 1939?
5. Did Great Britain or France declare war first on Germany?
6. Who won the Pulitzer prize for poetry in 1939?
7. When did the Supreme Court outlaw processing taxes?
8. Did farm income attain parity in 1939?
9. Does Italy profess neutrality in the present war?
10. When did Italy invade Albania?

THE ANSWERS

1. Gen. George C. Marshall.
2. Baron Mannerheim, once a lieutenant-general of Czarist Russia.
3. One in which the pace of work is deliberately slackened.
4. Felix Frankfurter and William O. Douglas.

5. Great Britain, by six hours.
6. John Gould Fletcher.
7. In 1935.
8. No; about three-fourths of parity.
9. Mussolini's policy is non-belligerency rather than one of complete neutrality.
10. April 7, 1939.

CAT TIES UP TRAFFIC

Greeley, Colo.—Stopping abruptly to avoid striking a car, a driver of a small coupe caused the following: A 10-ton truck, loaded with fruits and vegetables, swerved to avoid hitting the coupe and turned over, spilling the highway with its contents. While neither of the drivers was injured, it required house-moving equipment to remove the truck from the highway, which had been blocked by the accident.

MOTORISTS IN 25 STATES ENDORSE

Pure Oil's New Solvenized TUNE-UP PLAN

Packs more miles in every gallon... Good for cars, young or old... Already proved and popular... Makes motors "Wake Up and Live!"

- "Works on cars like new tubes in a radio" . . .
- "Puts back their old-time vim and vigor" . . .
- "Makes comparatively new cars take extra pride in their work" . . .

. . . that's just an idea of the enthusiastic response from motorists about Pure Oil's new Solvenized Tune-Up Plan.

This basic new service was developed after years of research by Pure Oil scientists.

Reports from motorists in 25 states are really amazing. They say that the combination of the Treatment and the Solvenized Gasoline gives them up to 3 more miles per gallon.

They say, too, that performance is noticeably improved. To cite just one example, here's what Jas. E. Headley, Headley's Express and Storage Co., Inc., Chester, Pa., reports:

"One of our trucks came in from New York, its valves sticking so badly it was hardly able to pull its own weight. A Solvenized Tune-Up Treatment freed the valves, enabled the truck to deliver its load on time. We are giving all our trucks a Treatment and continuing to use your Solvenized gasoline."

The two simple steps of the Pure Oil Tune-Up Plan are explained at the right.

May Reveal Hidden Defects

It does wonders for mechanically sound motors. The Solvenized Tune-Up Treatment, by cleansing your motor of excess carbon may bring to light some mechanical defect which needs the attention of a garage man or mechanic. Such defects, promptly taken care of, may prevent a ruined motor or save you future expensive repairs.

Exclusive with Pure Oil Dealers

Drive in where you see the blue-and-white sign—to make that motor of yours "Wake Up and Live."

Be Sure with Pure

TUNE IN every Sunday and Tuesday night when KALTENBORN EDITS THE NEWS—9:30 p. m. EST—Columbia stations.

TWO EASY STEPS

STEP No. 1
SOLVENIZED TUNE-UP
TREATMENT

First your motor is "laundered" by means of the new Solvenized Tune-Up Treatment. A chemical solvent (Purosol—patent applied for) loosens excess carbon and other impurities from metal parts and flushes them out through the exhaust. Watch a car receiving this Treatment. Pay attention to the heavy clouds of "smoke" coming from the exhaust. That contains excess carbon.

Step No. 1 can be done while you wait (the average time is only 30 minutes).

STEP No. 2
SOLVENIZED TUNE-UP
GASOLINE

You fill up the tank with the famous Solvenized Pure-Pep Tune-Up gasoline.

This motor fuel contains this same exclusive solvent in the proper proportion and thereby resists re-formation of excess carbon.

Cleansing and lubricating effect on vital parts of your motor. It helps keep gas lines, fuel pump and carburetor clean and efficient.

Increases gasoline mileage and reduces carbon knocks.
