No Traffic Deaths In Perquimans In First Four Months

One of 29 North Caro-Traffic Fatalities; Hocutt Gratified

Twenty-nine North Carolina counties, including Perquimans County, reported no traffic fatalities for the first four months of this year, the Highway Safety Division announced this week.

In addition, 22 other counties reported only one fatality each, which means that less than ten per cent of the 231 street and highway deaths during the four-months period occurred in half of the 100 counties in the State, while the remaining 50 counties reported over 90 per cent of the traffic deaths.

The counties with clean accident slates for January, February, March and April were: Alleghany, Bertie, Caldwell, Camden, Caswell, Chowan, Clay, Craven, Currituck, Dare, Gates, Greene, Haywood, Henderson, Hyde, Jackson, Jones, Martin, Mitchell, Onslow, Perquimans, Person, Polk, Randolph, Transyl-vania, Tyrrell, Warren and Yancey.

"I wish to congratulate these counties on their splendid safety record," Safety Director Hocutt statsi, "and I especially wish to commend the law enforcement officers of these counties, for without their interest and cooperation such records could never have been achieved."

Four of the 29 counties with clean raccident records for the first four months of this year also had no traffic deaths in 1939. These were Alleghany, Chowan, Hyde and Tyrrell.

For the state as a whole there were 231 highway deaths the first four months of this year against 257 for the same period 'ast year.

"This is an encouraging reduction, and I am looking forward to the day when the people of the 50 counties that are causing 90 per cent of our traffic deaths will determine to be more careful when driving, playing, or walking on the streets and highways," Director Hocutt said.

State Joins Nation For Dairy Promotion

North Carolina will join hands National Dairy Month, says John A. Arey, extension dairyman of N. C. State College.

Twenty local committees have

mash. "Of course," Parrish stated, "liberal feeding of whole oats, corn, and green feed will retard sexual maturity of the pullets to a cerain degree, but this is to the advantage of the poultryman since the birds will have more time to become better developed. This will mean larger eggs and more vitality."

sumption of milk in their respective sections. These committees will work with hotels, cafes, drug stores, and leading food distributing agencies to bring milk and other dairy products to the public's attention.

"North Carolina could well afford ing. to take an active part in National ranks far down the list in the per and Mrs. R. W. Leary, Sr. capita consumption of milk. At the present time, the average Tar Heel drinks only four-tenths of a pint of milk daily. Along with this is a correspondingly low consumption of butter and cheese."

Governor Clyde R. Hoey and a number of North Carolina mayors have already placed their full endorsement on the purposes and aims father, C. H. Davis .. of National Dairy Month.

The 1939 farm value of dairy prosupply of 400 pounds, in which are included all dairy products, to 800 pounds, the national average, the present income from this source to North Carolina farmers would be doubled.

The State College specialist said that nutritionists recommend at least a pint of milk a day for adults and a quart daily for growing children. Milk is needed by the young to promote growth and to build resistance to disease. Adults need milk to re-build worn-out tissues and to maintain a high resistance to disease.

Poultry Management Important In Summer

The health and egg production of the poultry flock sent fall will be in proportion to the care given the pullets this summer, seconding to C. F. Parrish, poultryman of the N. C. State College Extension Service. One of the first "musts" in the Mrs. Linde Hollowell. of Hobbs-One of the first "musics" in the mother in Moriola, va. grower's program should be the pro-riding of clean ground not used by poultry for at least two years to range the pullets. Mrs. Linda Hollowell, of Hobbs-ville, spent the week-end with Mr. and Mrs. Theodore Boyce. Mrs. Willie Byrum had as her din-
