

Many Enjoy New Taste Thrills With New Peach Dishes

Millions of families throughout the country are being treated to new taste thrills as a result of the cooperative education campaign being conducted by the Peach Producing Industry and Food Trades Industry in cooperation with the Surplus Marketing Administration, United States Department of Agriculture, in the interest of greater peach consumption by every one.

This was brought out today in a

statement made by Miss Frances Maness, Home Demonstration Agent. She said, "Peaches have long been noted as food delicacy. United States Government reports show that peaches are America's favorite fruit, in season. As a food peaches now take on new importance."

"As a result of this cooperative educational campaign, millions of Americans are learning for the first time the important health-giving qualities in peaches, and the dozens of new ways of serving the appetizing fruit, fresh or cooked. Many families have received new peach recipes for delicious peach shortcake, pies, cobbles, fresh home-made peach

"BILLY THE KID"

Robert Taylor, Mary Howard and Brian Donlevy in "Billy the Kid," Thursday and Friday at State Theatre, Hertford. Spectacular action story of the old West in its colorful frontier days, the picture presents Taylor in his first Western role as a hard-riding, fast-shooting, young outlaw. The picture was filmed in Technicolor in Arizona's outdoor wonderlands.

ice cream, peach and cantaloupe salad and dozens of other tasty dishes. "Peaches have been found to be excellent sources of Vitamin A, Vitamin B, Vitamin C and Vitamin G (B-2), are vital to good health, growth and vitality, maintenance of body vigor, protection of teeth and improving complexion."

"It has been found, too," she added, "that their low caloric content makes peaches an excellent food for reducing diets and the No. 1 aid for women desiring a 'girlish' figure. Scientists say this is also due to the high fat-burning qualities of the natural sugar found in peaches."

Aluminum Drive In County Brings In Metal For Defense

Perquimans County people answered the call for scrap aluminum by bringing in old pots and pans, estimated at about three to four hundred pounds. Although the bin constructed to hold the aluminum was built on an optimistic scale, and was not crowded with old metal, the amount collected is comparable with the collection of other counties in this area. The Boy Scouts and other interested citizens under the chairmanship of L. W. Anderson, really went after the metal. The Scouts made a canvass of the town, while the Home Demonstration Clubs and American Legion hunted out the old pieces throughout the county and brought it to the bin on the Courthouse

Green. The metal collected here will be pooled with aluminum collected elsewhere and will be used in national defense.

Hearing August 8th To Discuss Widening Roanoke River Bridge

The application of the North Carolina State Highway and Public Works Commission for approval of plans for the reconstruction of the draw span in the existing highway bridge across Roanoke River, at Williamston, N. C., will be considered at a public hearing to be held in the County Court House, Williamston, at 11:30 A. M., Friday, August 8, 1941.

All interested parties are invited to be present or to be represented at the above time and place, particularly the officials of any county, city, town, or local association whose interests may be affected by the proposed work.

According to plans submitted by the applicant the reconstructed bridge will have a draw span with a horizontal clearance of 60.0 feet (20 feet less than the present clearance of 80 feet) on each side of the pivot pier, and a vertical clearance of 16.7 feet, above low water, when closed.

The temporary bridge, to be used while construction is in progress on the existing bridge, will cross the river at a point about 150 feet upstream from the existing bridge. It will have a draw span with a horizontal clearance of 40.0 feet and a vertical clearance of 10.0 feet, above low water, when closed.
