Says It With Roses

"George Raft is the gentlest man I ever knew—at least with girls," said Marlene Dietrich the morning after Raft slapped her down a flight of steps.

"His eyes were tight shut when he hit me, and Mack Grey tells me George was almost in tears."

The slap, a new experience for Raft, who had never hit a woman on the screen, occurred in a scene in "Manpower" coming to the State Theatre Monday and Tuesday.

She returned to work next morning, found her dressing room filled with roses from George Raft.

Edward G. Robinson shares the leading roles with Dietrich and Ratt. Also featured in "Manpower" are Frank McHugh, Alan Hale, Eve Arden and many other popular players of the screen.

Things To Watch For In The Future

Newspaper ads by Woolworth, the big five-and-dime folks, for the first time—a test campaign on same in Utica, N. Y., turned up convincing results. . . Advertising billboards which feature the flashing, to a passing auto, of that auto's exact miles-per-hour—a couple of electric eyes are so placed to measure, calculate and flash, all in a twinkling. . . Soap that comes in paper-thin rolls, so that each user can tear off a small, individual sheet for himself. . . Cigarettes that come packaged in a rigid, crush-protection, transparent plastic case—the stiff plastic case is in place of the customary cellophane wrapper. . . Also in the plastic line, a molded sandal for women—a feature being that it expands with the heat of the foot (because the foot expands then, too).

Legumes Do Best If Seeded In September

In order to allow the crops to make enough fall growth to cover the land during the winter, cold weather legumes should be seeded in September "by all means," says E. C. Blair, Extension agronomist at State College.

In addition to doing a better job of covering the land during the winter, the agronomist said, legumes seeded in September will also be ready to turn under at least 30 days earlier next spring than if they are planted later.

As a means to conserving seed, grain drills may be used to advance in seeding legumes. Fifteen pounds of hairy vetch or 20 pounds of Austrian winter peas to the acre will give excellent stands if a drill is used, the specialist declares.

"Solvenized"
THE EXTRA ONLY PURE GIVES YOU

IT'S LIKE GETTING AN EGG IN YOUR MALTED MILK

YES, EXCEPT PURE OIL'S EXTRA DOESN'T COST YOU ANYTHING EXTRA

Be sure with Pure

Solvenized* Gasoline actually has an "extra" that no other gasoline (even premium-priced gasolines) can boast. It's a special chemical combination developed in The Pure Oil Company laboratories that is added to every gallon of Solvenized Pure-Pep Gasoline. This chemical ingredient works as you drive to fight carbon and gum . . . to keep the vital parts of your motor clean . . . free from deadening deposits that slow it down and cause that annoying "ping."

For top performance and greater mileage from your car, fill up with Solvenized Pure-Pep today. No other gasoline gives you this chemical bonus . . . yet it sells at the price of "regular."
