THIS WEEK'S HEADLINES

President Roosevelt, following an example set by President Adams, on last Friday ordered the United States Navy to shoot all Axis surface raiders and submarines found within the defensive area of this nation. The President's orders followed repeated attacks by Nazi submarines on our shipping within these waters.

Later developments, from these orders, point toward definite conveying of vessels from American ports carrying Lend-Lease goods to nations fighting Hitler.

In the Far East the war situation has taken a softer tone. The Japanese Emperor has taken direct command of the Japanese Army and it is believed by some authorities that Japan will break with the Axis powers and seek normal trade relations with the U. S. and Britain.

The war in Russia continues to be a mass of claims and counter-claims, although early this week Russia still held command of the situation. The German Army has advanced little this week but claims to be gaining ground in the Ukraine, having the city of Kiev completely surrounded. The battle of Leningrad continues with the Nazis bringing in their air planes to force a surrender of the city. The Red Army and citizens are defending the position to the last ditch.

Britain, in an attempt to aid the Reds, is flying aircraft to Russia to replace some of the planes lost in the war on the Eastern Front. Some plans reveal that the British will bomb Germany enroute to Russia, thus making the trip a business one as well as aiding her ally.

With the strong position that President Roosevelt has taken against the Axis forces during the past week, South American nations are now tightening up on German nations within the various South American countries. Strict watch is being kept over all well-known Nazis.

Reports continue to come out of Europe that Finland will soon stop fighting Russia. It is stated that Finland is interested only in gaining back the territory the Reds took from the small nation in their war two years ago. If the Finns withdraw from the war, it will relieve the Russians on the Northern Front and give more men for the battle with Hitler.

The American Legion is holding its national convention this week in Milwaukee, Wisconsin. Aside from choosing a new national commander, the Legionnaires are expected to adopt resolutions regarding major American problems now facing the nation.

The pro-Nazi Shah of Iran abdicated his throne in favor of his 21-year-old son on Tuesday as Russian and British soldiers neared the capital city of Teheran. The Shah stepped out after the Allies became annoyed at his tactics to aid Germans within the country.

Opposition to German occupation continues in Paris. Two German Army officers were shot and wounded by snipers after the Nazis had executed 10 French hostages held by the Nazis to assure peaceful relations. The ten people mowed down by the firing squad were reported by the Germans to be five Reds and five Jews. No excuse was given for the slaughter of the Jews, but the Germans stated that the other five were working for Russia.

Cotton and tobacco prices continue at a high mark this week and prospects are that Eastern North Carolina will have one of the best years merchants and farmers alike have seen for several seasons.

Secretary of Navy Knox revealed Thursday that the U. S. Navy is conveying British cargo ships in the North Atlantic, and at the same time continues to seek out Axis submarines to capture or sink.

The record-breaking defense tax bill was approved by Congress on Wednesday and sent to the President for his signature. One of the main items of the new bill is the lower income tax exemptions. From now on single people will pay income tax when their annual income reaches \$750. Married couples must pay when their total reaches the \$1,500 mark.

The navy of Sweden received a setback this week when three of its most modern destroyers exploded and sank in a fjord south of Stockholm, the capital. The cause of the explosion is a mystery.

Local Draft Board Recommends Mayor Darden For Job

A. W. Hefren, chairman of the Perquimans draft board, announced this week that the local board had recommended Mayor V. N. Darden to be appointed Re-employment committee member for the local board.

Mayor Darden will work with all returning selectees in an endeavor to place them in employment as soon as possible after their release from army service.

Mrs. T. B. Sumner, clerk of the draft board, stated that George Butler, first Perquimans boy induced into military service, under the Selective Service Act, was given his discharge this week in accordance to the Army's plan to release some 200,000 men from service by Christmas of this year.

W. G. Newby Winds Up Ten Years As Hertford Town Clerk

Gives Brief Outline of Accomplishment During Past Decade

By W. G. NEWBY
Our popular Editor has asked me to give a brief resume of the financial progress of Hertford during my tenure of office which was ten years September 17th, 1941.

Our bonded indebtedness at this time is \$145,000, being a reduction in ten years of \$41,000, and we are reducing this each year by retiring \$5,000 in bonds with a resultant reduction in interest of \$350 per year. In 1932 and 1933, the bonds of Hertford had reached an all-time low of \$75 per one thousand dollar bond. Now these same bonds are impossible to secure and the price has risen to \$1,100 per bond. The tax rate has never been increased, the rate still remaining at \$1.10 on the hundred dollars valuation of property.

In 1932, the light rates were 15 cents per K.W. and the power rate was 5 cents flat. Now the light rate is 10 cents per K.W., and the power rate in the lowest bracket reaches 2 1/2 cents, an average of over thirty-three and one-third per cent reduction in rates to consumers.

The physical properties of the Town have been improved steadily for ten years. The storm of September 16th, 1933, cost the Town approximately \$4,000 in replacements. The poles have been renewed and the bare wires have been replaced; the ice plant has been rebuilt and the water plant has been renewed. The pipeline to upper Perquimans was abandoned on account of brackish water and the installation of driven pumps was undertaken.

The streets have been treated with tarvia twice and since November, 1939, nearly nine thousand dollars have been spent by the Town in improvements through the WPA. This has caused a bathing pier and bulk heads placed at the foot of Covent Garden and Front Streets.

One of the improvements that we also might mention is the addition to Cedarwood Cemetery at a cost of approximately \$4,000.

As we all know, the Fire Department has an up-to-the-minute Pumper which would do credit to a larger town than ours. It has already rendered valuable service and we all believe this was a fine investment for the Town.

One of the most outstanding achievements of the Town during my tenure of office, I think, is the paving of Dobb Street at a cost of \$35,000 with an expenditure of only \$1,020 for the Town.

Roughly speaking, I would not hesitate to say that in improvements plus reduction in bond principal the Town has pushed ahead to the amount of over one hundred thousand dollars in ten years.

In conclusion, I may say that my association with all the Mayors and Boards has been most pleasant and agreeable.

The local chapter of the Red Cross will furnish all needed text books for the training. Classes will be arranged to last three hours daily Mondays through Fridays over the two weeks period. These hours will be arranged to suit the members of the class taking the training.

Recruiting Drive To Get Under Way During Next Week

North Carolina Press To Assist Navy In Getting New Men

Newspaper publishers from practically every town in North Carolina attended a meeting in Raleigh last Saturday for the purpose of hearing explanations of the Navy Recruiting campaign, which will get under way within the State during the coming week.

The Navy Department is seeking to enroll an additional 150,000 men during the year ending July, 1942, in order to man the new two-ocean navy nearing completion.

In order to hasten the enlistment of new men, the Navy Department will insert advertisements in every newspaper in every town of under 50,000 population during the next four weeks and if results are justified, additional advertisements will appear later.

The advertising firm of Batten, Barton, Durstine & Osborn are handling the advertising campaign for the Navy Department and a representative of that firm was at the meeting in Raleigh to outline and explain the Navy program to the publishers.

The advertising campaign will consist of a series of ads telling young men between the ages of 17 and 31 the advantages that the Navy offer. It carries a coupon, which when cut out and mailed to this newspaper, will entitle the writer to a free booklet on Navy life and the training one receives during his enlistment.

During this recruiting campaign enlistments will be taken from both white men and Negroes. A Navy Recruiting Officer will visit Hertford during the course of the campaign and will answer all questions of young men seeking information regarding Naval enlistments.

The Perquimans Weekly will have on hand the booklets giving details of Naval training, jobs offered by the Navy, pay received during the enlistment, etc. Any person desiring this booklet can receive one at The Perquimans Weekly office, or it will be mailed to you free of charge by sending us the coupon appearing in the Navy advertisement which will run in next week's issue of this paper.

Additional Clothing Completed By Local Red Cross Workers

The sewing project being conducted by the local chapter of the American Red Cross completed 18 operating gowns and 18 hospital shirts and shipped them to the Red Cross warehouse at Jersey City this week, according to Mrs. Leigh Winslow, chairman of the project.

The sewing project is being carried out by organizations throughout the county and each group aided in the completion of the articles.

The articles are all made according to American Red Cross specifications.

A previous shipment of 39 children's and misses' dresses was sent from Hertford during June, and now there is a distribution in the town and county of boys' shirts and layettes. These articles will be forwarded to national headquarters as soon as they are finished.

Recorder's Court Disposes Of Twenty Cases Tuesday A. M.

Varied Docket Heard Before Court Recessed at Noon

It looked as though an all-day session would be needed to clear the Perquimans County Recorder's docket when court opened Tuesday morning with twenty cases to be heard by Judge Granberry Tucker, but quick work on the part of the Solicitor and the defendants made it possible for court to recess at noon.

It was announced by court officials that there will be no court on Tuesday, September 23. All cases will be continued until September 30.

Ten of the cases on the Tuesday docket were traffic violations and most of the defendants entered a plea of guilty and little time was consumed in clearing the docket of those offenders.

School Enrollment Lowest In Years

School bells tolled the ending of summer vacation for nearly one thousand children Wednesday when county school buildings were opened for the 1941-42 school term.

Enrollment figures, according to F. T. Johnson, County Superintendent, are the lowest in a great number of years, only 272 students registering at the High School on opening day. The Hertford Grammar School had a registration of 259, and the Central Grammar School at Winfall enrolled a total of 371 children. No reports on the number of students at New Hope had been received up to late Wednesday evening.

Mr. Johnson stated that the 10th and 11th grades at the High School had fewer students this year than any year in the past but the eighth and ninth grades enrollment was about average. Forty students are registered in the senior class this year while the school graduated a total of 66 during 1941.

Discussing the enrollment situation Mr. Johnson said that five or six years ago the school system of the county lost one teacher in the Grammar Grades because of the small registration and about three years ago the High School lost one teacher. However, at the present time, he does not know whether the number will be decreased again due to the smaller enrollment this year or not. A half-day session was held at all schools on Wednesday and the children were registered and assigned to classes. Full time classes were started on Thursday morning and will continue on through the year.
